NOTE 1 - DESCRIPTION OF PLAN

The following description of the Vantage Specialty Chemicals 401(k) ("Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers eligible employees of Vantage Specialty Chemicals, Inc. ("Company") who have attained the age of 21 years old. Employees become eligible to enroll in the Plan on the first day of employment. Eligible employees are automatically enrolled in the Plan 30 days after meeting eligibility requirements, at 5% of compensation.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute to the Plan up to 60% of compensation, as defined by the Plan, not to exceed limits imposed by the Internal Revenue code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides discretionary profit sharing contributions at the election of the Board of Directors of the Company and safe harbor matching contributions that provides 100% of the first 3% deferred plus 50% of the next 2% elective deferrals. Safe harbor matching contributions of $1,625,506 were made during the plan year ended December 31, 2018. A profit sharing contribution was not made for the year ended December 31, 2018.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contributions, and their share of the Plan's net earnings and losses, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Participants direct the investment of their contributions and the Company contributions into the various investment options offered by the Plan. Participants may change their investment options daily.

Vesting: Participants are fully vested in their voluntary contributions, matching contributions and earnings thereon. Participants that entered into the Plan prior to January 1, 2013 are subject to vesting requirements which state that Company nonelective contributions and earnings thereon vest as follows:

Years of Service	Vested
Less than 3	0%
3 and over	100%

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

As of January 1, 2013, the Plan was amended and vesting provisions were changed. For participants entering the Plan on or after January 1, 2013, Company nonelective contributions and earnings thereon vest as follows:

Years of Service	Vested
0	0%
1	20
2	40
3	60
4	80
5	100

Upon termination of participation in the Plan, the nonvested portion of a former participant's balance is forfeited. Participants are fully vested in the amount in their accounts attributable to the Company's contributions upon the attainment of normal retirement age, disability, or death.

Payment of Benefits: On termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested value of his or her account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. A participant may be eligible for a withdrawal due to early retirement or financial hardship in certain circumstances. In service withdrawals are allowed upon attainment of age 59 ½.

Allocation of Forfeitures: Forfeitures of employer contributions and the earnings on those contributions resulting from participants who leave the Company prior to vesting are retained in an unallocated forfeiture account. Forfeitures may be used to pay administrative expenses of the Plan or reduce future Company contributions.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants would remain 100% vested in their accounts.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable fixed rate as determined by the loan administrator at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses: The Company pays substantially all administrative expenses of the Plan. Certain other expenses are paid by the Plan. Loan origination and maintenance fees are deducted from the participant's account. Investment management fees and certain operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, these management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risks associated with certain investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from these estimates.

Payment of Benefits: Benefits are recorded by the Plan when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments, are reported at fair value as further described in Note 3. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trust: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. The collective trust provides redemptions at reported net asset values per share, 30 days after written notification has been received.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by the Plan are summarized below:

	Fair Value Measurements at December 31, 2018, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 58,966,967	$ 58,966,967	$ -	$ -
Collective trust*	5,567,217	-	-	-
Total	$ 64,534,184	$ 58,966,967	$ -	$ -

	Fair Value Measurements at December 31, 2017, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 61,081,895	$ 61,081,895	$ -	$ -
Collective trust*	6,329,917	-	-	-
Total	$ 67,411,812	$ 61,081,895	$ -	$ -

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain investments are managed and administered by Fidelity Management Trust Company, the trustee, and Fidelity Investments, an affiliate of Fidelity Management Trust Company. Therefore, these investments are considered party-in-interest transactions. Fees paid to the trustee, affiliates of the trustee and other service providers qualify as party-in-interest transactions. Certain other professional fees for the administration and audit of the Plan were paid by the Company. Notes receivable from participants are also considered party-in-interest transactions.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trust: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. The collective trust provides redemptions at reported net asset values per share, 30 days after written notification has been received.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by the Plan are summarized below:

	Fair Value Measurements at December 31, 2018, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Collective trust*	6,329,917	-	-	-

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain investments are managed and administered by Fidelity Management Trust Company, the trustee, and Fidelity Investments, an affiliate of Fidelity Management Trust Company. Therefore, these investments are considered party-in-interest transactions. Fees paid to the trustee, affiliates of the trustee and other service providers qualify as party-in-interest transactions. Certain other professional fees for the administration and audit of the Plan were paid by the Company. Notes receivable from participants are also considered party-in-interest transactions.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Vantage Specialty Chemicals 401(k) ("Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers eligible employees of Vantage Specialty Chemicals, Inc. ("Company") who have attained the age of 21 years old. Employees become eligible to enroll in the Plan on the first day of employment. Eligible employees are automatically enrolled in the Plan 30 days after meeting eligibility requirements, at 5% of compensation.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute to the Plan up to 60% of compensation, as defined by the Plan, not to exceed limits imposed by the Internal Revenue code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides discretionary profit sharing contributions at the election of the Board of Directors of the Company and safe harbor matching contributions that provides 100% of the first 3% deferred plus 50% of the next 2% elective deferrals. Safe harbor matching contributions of $1,625,506 were made during the plan year ended December 31, 2018. A profit sharing contribution was not made for the year ended December 31, 2018.

Participant Accounts: The Plan maintains a separate account for each participant. This account consists of the participant's contributions, the participant's share of employer contributions, and their share of the Plan's net earnings and losses, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Participants direct the investment of their contributions and the Company contributions into the various investment options offered by the Plan. Participants may change their investment options daily.

Vesting: Participants are fully vested in their voluntary contributions, matching contributions and earnings thereon. Participants that entered into the Plan prior to January 1, 2013 are subject to vesting requirements which state that Company nonelective contributions and earnings thereon vest as follows:

Years of Service	Vested
Less than 3	0%
3 and over	100%

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

As of January 1, 2013, the Plan was amended and vesting provisions were changed. For participants entering the Plan on or after January 1, 2013, Company nonelective contributions and earnings thereon vest as follows:

Years of Service	Vested
0	0%
1	20
2	40
3	60
4	80
5	100

Upon termination of participation in the Plan, the nonvested portion of a former participant's balance is forfeited. Participants are fully vested in the amount in their accounts attributable to the Company's contributions upon the attainment of normal retirement age, disability, or death.

Payment of Benefits: On termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested value of his or her account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. A participant may be eligible for a withdrawal due to early retirement or financial hardship in certain circumstances. In service withdrawals are allowed upon attainment of age 59 ½.

Allocation of Forfeitures: Forfeitures of employer contributions and the earnings on those contributions resulting from participants who leave the Company prior to vesting are retained in an unallocated forfeiture account. Forfeitures may be used to pay administrative expenses of the Plan or reduce future Company contributions.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants would remain 100% vested in their accounts.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable fixed rate as determined by the loan administrator at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Administrative Expenses: The Company pays substantially all administrative expenses of the Plan. Certain other expenses are paid by the Plan. Loan origination and maintenance fees are deducted from the participant's account. Investment management fees and certain operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, these management fees and operating expenses are reflected as a reduction of investment return for such investments.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risks associated with certain investments, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from these estimates.

Payment of Benefits: Benefits are recorded by the Plan when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments, are reported at fair value as further described in Note 3. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trust: The fair values of participation units held in collective trusts are based on the net asset values per unit as reported by the fund managers. The collective trust provides redemptions at reported net asset values per share, 30 days after written notification has been received.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by the Plan are summarized below:

	Fair Value Measurements at December 31, 2018, Using			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.
