TELUS International (US) Corp. 401(k) Plan

(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2018

1 Description of the Plan

The following description of the TELUS International (US) Corp. 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a safe harbor 401(k) plan, sponsored and administered by TELUS International (US) Corp. and certain participating employers under common control, as listed in the Plan’s provisions (collectively, the “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan was created with an effective date of January 1, 2015.

Effective May 1, 2016, the Plan was converted to a multiple employer plan (note 8).

The Plan’s trustee and record keeper are Great-West Trust Company, LLC and Great-West Life & Annuity Insurance Company, respectively.

Effective January 1, 2018, Emergis Solutions Inc. is no longer a participating employer, as the operations were purchased by an external firm. All Emergis Solutions Inc. employees are considered terminated in the Plan as of December 31, 2017. Included in withdrawals and transfers, is \$742,140 related to the transfer out of balances of the Emergis Solutions Inc. employees.

Participation

Eligible employees may become participants in the Plan if they are at least 21 years of age and have completed two months of service.

Participants direct the investment of all contributions into various investment options offered by the Plan. If no investment options are selected, participants will default into the Qualified Default Investment Alternative.

Participant accounts

Each participant’s account is credited with the participant’s contribution and allocations of the Employer’s contributions and Plan earnings and charged with applicable administrative expenses. Allocations are based on participant compensation or account balances, as defined in the Plan documents.

Employee contributions

Eligible employees may elect to contribute up to 75% of their pre-tax compensation or \$18,500, whichever is less, as defined in the Plan document, as allowable under Section 401(k), 402(g) and 414(v) of the Internal Revenue Code (“IRC”).

TELUS International (US) Corp. 401(k) Plan

(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2018

Participants will be automatically enrolled at 4% unless a different amount is specified on or after 30 days from the participation date. Contributions will increase by 1% each year until a maximum default contribution of 10%.

Employer contributions

As this is a safe harbor 401(k) plan, the Employer will make a safe harbor matching contribution equal to 100% of elective deferrals that do not exceed 4% of compensation. This safe harbor matching contribution is 100% vested.

Vesting

Contributions are immediately 100% vested for the following:

- elective deferrals including Roth 401(k) deferrals and catch up contributions;
- rollover contributions; and
- safe harbor contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans have to be repaid by 5 years or 15 years for the purchase of a primary residence. The loans are secured by the balance of the participant's account. There is a \$75 origination fee for each loan that is deducted from the loan proceeds, plus an ongoing annual \$50 fee, deducted quarterly from the participant's account of \$12.50.

Distributions

No amounts may be distributed to participants from their accounts prior to the termination of employment, death, disability or attainment of age 59 ½ unless the participant has incurred a hardship, as defined by the Plan documents.

Upon distribution, a participant may rollover their vested account balance to another eligible government 547(b), 401(k), 403(b) or 401(a) plan or an Individual Retirement Account ("IRA").

Administrative expenses

The Employer pays substantially most administrative expenses associated with the Plan, with the exception of certain investment management fees, which are paid by the Plan. Certain redemption and loan distribution and administration fees are paid directly by the Plan participants.

(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2018

Forfeitures

Upon termination of employment, employer contributions not vested will be forfeited by the member under the terms of the Plan. Amounts forfeited and all earnings of the Plan that are reasonably attributable to the forfeited amounts will be available to the Employer as a credit against subsequent contributions. All forfeitures may be used to pay Plan expenses, or allocated as Discretionary Additional Matching Contributions. Forfeitures as of December 31, 2018 totalled \$nil (2017 – \$134).

Rollover contributions

Rollover contributions are from employees transferring into the Plan from other plans. Rollover contributions of \$2,040 (2017 – \$491,864) were transferred into the Plan by individual employees during the year ended December 31, 2018.

2 Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and in accordance with generally accepted accounting principles in the United States (“GAAP”).

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The most significant estimates relate to the determination of fair value of investments.

Investment valuation and investment income

Investments held in mutual funds and funds indirectly investing in fully benefit responsive investment contracts are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements. The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Distributions are recorded on the effective date.

The Plan presents in the statement of changes in net assets available for benefits the net change in fair value of its investments, which consists of the realized and unrealized gains and losses.

Notes to Financial Statements

Deemed distributed loans

The Plan administrator will treat a loan to be in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled repayment. On a loan default, the participant will incur a taxable deemed distribution, but the Plan will not reduce the participant's account to discharge the loan unless the participant has also incurred a distributable event under the Plan. The total of loans in default during 2018 was \$17,094.

Contributions

Employer and employee contributions are recorded when due to the Plan.

Payment of benefits

Benefits payments are recorded when they have been paid by the Plan.

Loans receivable from participants

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Evaluation of subsequent events

For purposes of the preparation of these financial statements in conformity with GAAP, management has considered transactions or events occurring through September 19, 2019, which represents the date that the financial statements were available to be issued.

Changes in accounting policies

In February 2017, the FASB issued ASU No. 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting" ("ASU 2017-06"). The purpose of the update is to clarify presentation requirements for a plan's interest in a master trust plan and require more detailed disclosure of the plan's interest in the master trust. For non-public entities, the amendments are effective for interim and annual reporting periods beginning after December 15, 2018. The adoption of this standard will not have any impact on the Plan's financial statements as the Plan does not hold any interests in any master trust plans.

In August 2018, the FASB issued ASU No. 2018-13, "Fair Value Measurements (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement" ("ASU 2018-13"). The purpose of the update is to modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in the Concepts Statement, including the consideration of costs and benefits. For all entities, the amendments are effective for interim and annual reporting periods beginning after December 15, 2019. The adoption of this standard is not expected to have a significant impact on the Plan's financial statements.

5 Fair value measurements

FASB Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

TELUS International (US) Corp. 401(k) Plan

(EIN: 98-0226610 Plan #001)

Notes to Financial Statements

December 31, 2018

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of the unobservable inputs.

The following is a description of the valuation methodologies used at December 31, 2018 to measure assets at fair value:

Mutual funds: Valued at quoted market prices held by the Plan at year-end.

Common Collective Trusts: Putnam Stable Value Fund (the "Fund") is a common/collective trust that invests in fully benefit responsive investments and seeks to provide income while protecting investors' wealth by maintaining a stable fund net asset value. The investments in the Fund are non-transferable, but provide for benefit responsive withdrawals by Plan participants at contract value. Contract value represents invested principal plus contractual interest earned thereon.

The fair value of the common collective trust is determined by the trustee of the common collective trust based on the underlying assets, which represent the net asset value, a practical expedient to fair value, of units held by the Plan and are excluded from the fair value hierarchy table.

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund; or (3) an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of group layoffs or early retirement programs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

9 Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
