NOTE A: PLAN DESCRIPTION

The following description of The Lyons National Bank 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution 401(k) plan covering substantially all employees of Lyons National Bank (the "Company") that commenced on or after January 1, 1998. Participants are permitted to invest only among investment alternatives made available by the employer under the Plan. Effective January 1, 2016, the Plan was restated and the Company adopted the Safe Harbor Plan provisions. Substantially all employees of the Plan Sponsor, Lyons National Bank (the "Company") are eligible to participate in the Plan, provided they have attained age 21 and completed three months of consecutive service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Costs of Plan administration are paid by the Plan Sponsor or by the Plan, at its discretion.

Contributions

Participants may contribute up to 100% of their pretax compensation subject to the maximum allowable contributions under the Internal Revenue Code. Compensation is defined by the Plan Agreement as any remuneration from the Company that would be included in the employee's gross income, up to an annually adjusted maximum amount set by law, less bonus and incentive payments. Participants may change the amount of salary reduction contributions on the first day of each quarter. The Company has made Safe Harbor matching contributions of 100% of the first 3% of deferred compensation plus a 50% match on deferrals on the next 3% of plan compensation, in which participants are immediately 100% vested. The Company may also, at its discretion, make additional matching contributions in a uniform percentage of deferrals or as a flat dollar amount for each participant. Such additional matching contributions are subject to a 6-year graded vesting schedule. No additional discretionary matching contributions were made in 2018.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default rate of 3% of eligible compensation. Contributions are automatically invested in a designated balanced fund until changed by the participant.

Employer contributions were $465,939 and $418,500 for the years ended December 31, 2018 and 2017, respectively.

Participant accounts

The Plan Administrator maintains separate accounts in the name of each participant. Each participant's account is credited with the participant contribution, the Company's matching contributions, Plan earnings and losses, the increase or decrease in value of the investment options selected and charged with an allocation of any administrative expenses paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A: PLAN DESCRIPTION, Cont'd

Vesting

Participants are immediately vested in all amounts contributed by the participant, including earnings thereon. Participants are also immediately 100% vested in the employer's Safe Harbor matching contributions. Vesting in the Company's additional discretionary contributions plus earnings is based on completing 1,000 hours of service during the plan year and vest as shown below.

Years of Service	Percent Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of benefits

Distributions may be made from vested account balances, with participant consent, under the following conditions: separation from service or upon attainment of age 59 ½. The Plan allows participants to receive benefits in case of hardship as provided for in the Plan and in government regulations, but only from elective deferrals. Vested account balances that are less than $5,000 but greater than $1,000 upon separation of service will be paid in one lump-sum distribution or directly rolled over to an IRA if no distribution election is made in accordance with the provisions of the Plan. Vested account balances under $1,000 will be paid in one lump-sum distribution in accordance with the provisions of the Plan.

Forfeited accounts

Contributions that are forfeited because of a termination of employment prior to becoming fully vested can be used to reduce the employer's match or administrative expenses in the following year. Forfeitures available to reduce future employer matching contributions totaled $62,441 and $56,393 at December 31, 2018 and 2017, respectively.

Forfeited contributions are included in the pooled money market until allocated to participants. Employer contributions were reduced by $0 during the years ended December 31, 2018 and 2017, from forfeited non-vested accounts. The Plan was reimbursed for administrative expenses from the forfeitures account in the amount of $9,225 for the year ended December 31, 2017. There were no administrative fees paid from the forfeiture account in 2018. There were no administrative expenses reimbursed for the year ended December 31, 2017.

NOTE A: PLAN DESCRIPTION, Cont'd

Participant loans

Active participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans provide for level amortization of principal and interest paid ratable through bi-weekly payroll deductions over a period not to exceed five years unless the loan is utilized to acquire the participant's principal residence whereby the term may exceed five years. Loans bear interest at rates based upon current market rates at the time the loan was granted. Loans are disbursed from participant's accounts, and repayments of principal and interest thereon are made in accordance with the participant's current investment elections. Interest rates for existing loans ranged from 4.25% to 9.25% as of December 31, 2018.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

Investments held by the Plan are reported at fair value, which is based on the latest quoted sales prices on the last business day of the year, which represents the net asset value of shares held by the Plan at year-end. See Note E for further discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Gains or losses on sale of securities are based on the specific cost of investments sold. The net appreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments, is presented in the statements of changes in net assets available for benefits. Dividend income is recorded on the ex- dividend date.

Participant notes receivable

Notes receivable – participant loans are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest is at the prime rate plus 2% effective January 1, 2016 under the provisions of the restated plan. Income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payments of benefits

Benefits are recorded when paid.

Corrective employer match payable

Amounts payable to the plan sponsor for employer match contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the plan sponsor during January 2019.

NOTE B: SIGNIFICANT ACCOUNTING POLICIES, Cont'd

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net (depreciation) appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has conducted an evaluation of potential subsequent events occurring after the statement of net assets available for benefits date through September 20, 2019, which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

NOTE C: FINANCIAL INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule, which were prepared by Capital Bank and Trust Company, the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that such information is complete and accurate:

	December 31,	
	2018	2017
Investments, at fair value	$ 13,028,094	$ 13,098,856
Participant notes receivable	7,591	12,055
Dividend income	784,590	587,410
Net (depreciation) appreciation in fair value of investments	(1,421,309)	1,460,519
Interest income from participant notes receivable	583	388

All information included in the attached supplemental schedule of Assets Held for Investment Purposes at End of Year – December 31, 2018.

NOTE D: TAX STATUS

The underlying volume submitter plan has received an advisory letter from the IRS dated August 22, 2014 stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (the "Code") and therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2015.

NOTE E: FAIR VALUE MEASUREMENTS

FASB ASC 820-10 *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE E: FAIR VALUE MEASUREMENTS, Cont'd

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

Collective Investment Trust: Valued at the net asset value reported by the fund as a practical expedient. There are no unfunded commitments and investments can be redeemed on a daily basis without restriction and are not subject to redemption notification provisions.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to amounts presented in the statement of net assets available for benefits.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total
December 31, 2018				
Mutual funds	$ 11,902,957	$ -	$ -	$ 11,902,957
Collective investment trust, measured at net asset value	-	-	-	1,125,137
	$ 11,902,957	$ -	$ -	$ 13,028,094
December 31, 2017				
Mutual funds	$ 13,098,856	$ -	$ -	$ 13,098,856

NOTE F: RELATED PARTY TRANSACTIONS

The Plan invests in investments which are managed by an affiliate of Capital Bank & Trust Company. Capital Bank & Trust Company acted as a custodian for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

As described in Note B, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are parties-in-interest transactions under ERISA.

NOTE G: PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts and their accounts will be paid to them as provided for in the plan document.

NOTE H: RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits
