NOTE 1 DESCRIPTION OF PLAN

The following description of the Recreation World, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Recreation World, Inc. (the Company) who have three months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions – Each year, participants may contribute from 1% to 100% of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their account into various investment options offered by the Plan. The Company may make annual discretionary matching contributions. For 2018, the Company made no contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on years of continuous service. A participant does not begin to vest until year two (20%), and increases 20% each year until fully vested after year six.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at the time of the loan request, is set at the prime rate plus 2.0% beginning in December 2017. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses incurred maintaining the Plan are paid by the Company and are excluded from these financial statements. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through September 27, 2019, the date which the financial statements were available to be issued.

NOTE 3 CERTIFIED INFORMATION

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest and dividends, and other income for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Massachusetts Mutual Life Insurance Company (MassMutual).

NOTE 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets
b) Quoted prices for identical or similar assets or liabilities in inactive markets
c) Inputs other than quoted prices that are observable for the asset or liability
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled separate accounts: Valued based on the number of shares of the respective underlying fund multiplied by the closing net asset value (NAV) per share quoted by that fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

NOTE 4 FAIR VALUE MEASUREMENTS (Continued)

Pooled separate accounts were measured at NAV per share (or its equivalent) and the Fixed Account is measured as described in Note 5. These accounts have not been classified in the fair value hierarchy.

Transfers between Levels

For the year ended December 31, 2018, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment Type	Fair Value 2018	Fair Value 2017	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 1,035,740	$ 1,043,362	$ -	Daily	Daily

NOTE 5 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

NOTE 5 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

NOTE 6 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

MassMutual provides certain administrative services to the Plan and MassMutual receives revenue from mutual fund service providers for services MassMutual provides to the funds. This revenue is used to offset certain amounts owed to MassMutual for its administrative services to the Plan.

If the revenue received by MassMutual from such mutual fund service providers exceeds the amount owed, MassMutual remits the excess to the Plan's trust. Such amounts may be applied to pay plan administrative expenses or allocated to the accounts of the participants. During 2018, there were no excess amounts. The Plan or Company may make a payment to MassMutual for administrative expenses not covered by revenue sharing.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 TAX STATUS

The Plan has been formed utilizing the *Volume Submitter Profit Sharing Plan with CODA* sponsored by KB Pension Services, Inc. (KBPS). KBPS obtained a favorable determination letter dated March 31, 2014; however, such letter is only applicable to KBPS. The Plan administrator has adopted all Plan provisions within the prototype document.

NOTE 8 TAX STATUS (Continued)

The Plan administrator believes that the Plan and related trust is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believes the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500
