General

The Plan is a defined contribution plan that provides retirement and other benefits for all eligible employees of the Company. Employees are eligible to participate after completing three months of employment and may enroll on the first day of any quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

Administration of the Plan is the responsibility of the Company and the Plan administrator, a designated Senior Vice President of the Company. In addition, Great-West Trust Company, LLC, has been appointed "Trustee" of the Trust which serves as custodian of the Plan assets. Great West Retirement Services serves as Agent of the Trustee. The Agent of the Trustee is responsible for executing various transactions and performing other trustee duties as specified in the Trust Agreement. The Company pays certain operating expenses incurred in the ongoing administration of the Plan.

Contributions

Participants in the Plan may elect to contribute through salary deferrals (i.e. payroll deductions) an amount not less than one percent or more than twenty percent of their earnings, as defined in the Plan's adoption agreement. The maximum annual contribution for each participant ($18,500 and $18,000 for calendar years 2018 and 2017, respectively) may be adjusted annually for inflation by federal statute. Participants may elect to change their contribution percentage or cease salary deferrals into the Plan effective with the first payroll of each month.

Additional contributions, called "catch-up" contributions, are allowed for employees who are age 50 or older by the end of the calendar year in which the catch-up contributions are made. Qualifying participants can make the additional contributions (limited to $6,000 for calendar years 2018 and 2017) once the participant's regular contributions have reached the maximum annual deferral limit prescribed by federal statute. Catch-up contributions are excluded from the Company's matching contributions.

During 2018 and 2017, the Company made matching contributions to the Plan equal to 100% of the lesser of: (1) each participant's total contributions to the Plan, or (2) 3% of the participant's earnings. Company matching contributions are allocated to participants each pay period.

Participant Accounts

Each participant's account is credited with the participant's salary deferral contributions, the Company's matching contributions and an allocable portion of the Plan's net investment earnings. Participant accounts are charged with an allocable portion of Plan losses and administrative

expenses. Allocations are based on participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, including any rollovers, plus actual earnings thereon. Vesting in the remainder of the account is based on years of service, as follows:

Years of Service	Vesting
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeitures

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $420 and $2, respectively. These accounts will be used to reduce future employer contributions. During the years ended December 31, 2018 and 2017, employer contributions were reduced by $5,034 and $14,228, respectively, from forfeited nonvested accounts.

Investment Options

All investments within the Plan are participant directed. An investment election form is initially completed by each participant upon enrollment in the Plan. Participants may elect to invest their entire account, or any portion thereof, in one or more of the following investment options:

Mutual Funds: Forty-two options that offer participants the opportunity to invest in shares of specified mutual funds.

Guaranteed Investment Contract: A group annuity contract that offers participants a stable value option for their principal balances while earning interest at an annually guaranteed rate (1.10% for 2018 and 2017). The underlying contract value is backed by the general assets of Great West Life and Annuity Insurance Company and represents a concentration of credit risk. The Plan typically does not obtain collateral with respect to financial instruments subject to credit risk.

Distributions to Participants

Upon termination of service due to attainment of normal retirement age, death, or permanent disability (each as defined by the Plan), a participant will receive the vested value of his or her account in a lump sum distribution. The participant may delay the distribution of the vested value if his or her account exceeds $5,000. Upon termination of employment for any reason other than retirement, death, or disability, the vested value of the participant's account will be paid in a lump

sum distribution, if not greater than $5,000, or as directed by participant if exceeding $5,000. Withdrawal of part or all of a participant's account may be authorized by the Plan administrator prior to termination of employment if the participant experiences a financial hardship, as defined. Participants who receive a hardship withdrawal may not make additional contributions to the Plan for a period of at least six months.

Notes Receivable from Participants

Participant loans are limited to the lesser of 50% of the vested portion of a participant's account balance or $50,000 less the highest outstanding total loan balance during the previous twelve-month period. The minimum amount of each loan is $1,000. Loans are secured by the balance of the participant's account and bear interest at a commercially reasonable rate and are repaid through payroll deductions over a period generally not to exceed five years, unless the loan is used to acquire a home at which time the loan term would be extended over a reasonable period of time. Interest income is recorded on the accrual basis. Credit risk for participant loans is considered to be minimal. A non-refundable setup and maintenance fee of $75 per loan as well as a $50 annual fee is charged to the participant and deducted from his or her account after the loan is processed.

Plan Termination

The Company expects the Plan to continue indefinitely. However, the Company retains the right under the Plan to discontinue Company contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, the participants shall become 100% vested in their accounts.

Date of Management's Review

Subsequent events have been evaluated through September 23, 2019, which is the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements in conformity with U. S. generally accepted accounting principles using the accrual method of accounting.

Plan Year End

The Plan year end is December 31.

Valuation of Investments

The Plan's investments are stated at fair value based upon quoted market prices of the underlying investment, as certified by Great-West Trust Company, LLC. Fair value is the price that would be received to sale an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net realized gains or losses from dispositions and the net unrealized gain or loss from changes in fair value are combined and presented in the "Statement of

2. Summary of Significant Accounting Policies (Cont'd)

Valuation of Investments

Changes in Net Assets Available for Benefits" as "Net appreciation in fair value of investments." Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis using the simple interest method.

Contributions Receivables

The Plan records a receivable at December 31 whenever employer or participant contributions attributable to that Plan year are not received by the Plan until the following Plan year. Due to the nature of the receivable, an allowance for uncollectible contributions receivable is generally unnecessary.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates used in preparing these financial statements principally include those assumed in establishing the fair values and contract value of investments. It is at least reasonably possible that the significant estimates used by the Plan administrator will change within the next year and that such changes could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. An allowance for uncollectible notes receivable from participants is generally considered unnecessary because the outstanding loan balances are collateralized by the vested portions of the respective participants' account balances.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid were $-0- at December 31, 2018 and 2017.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2018.

3. Related Party Transactions

All Plan investments are managed by Great-West Trust Company, LLC, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Great-West serves as the third-party administrator of the Plan. Therefore, these transactions also qualify as party-in-interest transactions. Fees paid to the trustee and the third party administrators by the Plan were $5,497 and $5,174 for the years ended December 31, 2018 and 2017, respectively.

4. Investments and Related Information Certified by the Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan's independent auditor did not perform any auditing procedures with respect to the information certified to as complete and accurate by Great-West Trust Company, LLC, except for comparing such information to the related financial statements and supplemental schedule of assets (held at end of year). Accordingly, all information presented in the accompanying financial statements and supplemental schedule pertaining to investments held at December 31, 2018 and 2017, and investment income and net appreciation (depreciation) in fair value of investments for the Plan years then ended, was obtained from certifications by Great-West Trust Company, LLC, and is therefore unaudited.

Following is a summary of unaudited information pertaining to the Plan:

5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

5. Fair Value Measurements (Cont'd):

Level 2: Inputs to the valuation methodology include (cont'd):

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Level 1 Fair Value Measurements: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. The fair value of corporate bonds are valued at the closing price reported in the active market in which the bond is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total

6. Guaranteed Investment Contract with Great-West Life & Annuity Insurance Company
In 2002, the Plan entered into a fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company ("Great-West"). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal

6. Guaranteed Investment Contract with Great-West Life & Annuity Insurance Company (Cont'd)
from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. Either party to the guaranteed investment contract may terminate the contract with at least 60 days advance written notice to the other party.

7. Tax Status
The Company's Plan is based on a "prototype non-standardized profit sharing plan with cash or deferred arrangement" that was developed by a commercial benefit plan provider. The "prototype" form was submitted to the Internal Revenue Service, who responded to the commercial plan provider in its letter dated August 7, 2001, that the form of the "prototype" plan is acceptable under Section 401 for use by employers for the benefit of their employees. Although a determination letter has not been requested specifically for the Company's Plan, as amended, the Plan administrator believes the plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan's administrator believes that the Plan was duly qualified as a tax-exempt trust as of the latest financial statement date and intends for the Plan to continue in such a manner. The Plan is no longer subject to federal, state and local income tax examinations by tax authorities for fiscal years ended before December 31, 2015.

Plan participants are not subject to federal income taxes on contributions to their accounts or the related account earnings until they receive a distribution from the Plan. Distributions that are rolled over to another qualified retirement plan generally continue to be tax deferred until ultimate distribution to the participant.

8. Risks and Uncertainties – Investments
Financial instruments that potentially subject the Plan to significant concentrations of credit risk consist principally of cash, a guaranteed investment contract and mutual funds. The Plan places its cash with federally-insured financial institutions. The Plan's investment in a guaranteed investment contract is also subject to credit risk in that the collectability of the contract principal and earnings is not insured or guaranteed, but rather is dependent upon the financial ability of the contract issuer to make such payments at maturity. The Plan's mutual funds include investments which are inherently exposed to various risks associated with certain mutual funds, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the accompanying "Statements of Net Assets Available for Benefits."

9. Reconciliation of Financial Statements to Form 5500

Reconciliation of "Net assets available for benefits," presented on pages 3 and 4 of the accompanying financial statements for the year ended December 31, 2018, to "Net assets", as presented in Part I, Line 1l of Schedule H to Form 5500 for the corresponding reporting period, is as follows:

	2018
Net assets available for benefits, per the accompanying financial statements	$ 8,114,987
Add: excess contributions payable – December 31, 2018	5,734
Net assets, as reported in Form 5500 Schedule H, Part 1, Line 1l	$ 8,120,721

In accordance with the instructions to IRS Form 5500, investment income from registered investment companies is to be reported as a component of the "Net investment gain (loss)" for the reporting period. For financial reporting purposes, investment income from such investments is to be reported as a separate line item on the "Statement of Changes in Net Assets Available for Benefits."

Reconciliation of "Net increase (decrease) in net assets," presented on page 4 of the accompanying financial statements for the year ended December 31, 2018, to "Net income (loss)", as presented in Part II, Line 2k of Schedule H to Form 5500 for the corresponding reporting period, is as follows:

	2018
Net increase (decrease) in net assets, per the accompanying financial statements	$ (306,062)
Add: refund of excess contributions – December 31, 2018	5,734
Minus: refund of excess contributions – December 31, 2017	(3,360)
Net income (loss), as reported in Form 5500 Schedule H, Part II, Line 2k	$ (303,688)
