To qualify for the employer matching contribution and the employer non-elective contribution, the participant must attain age twenty-one and complete one year of service with at least 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees oversees governance of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions

Each year, participants may contribute up to 60% of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation, unless the participant elects otherwise, with an annual auto-increase feature of 1% of eligible compensation, up to a maximum of 10% of eligible compensation in place until changed by the participant. Contributions are automatically invested in a qualified default investment alternative ("QDIA") until changed by the participant. Contributions are subject to certain statutory limits. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching contributions in an amount equal to the percentage declared for the contribution period. The employer matching contribution was 100% of employee deferrals up to 2% plus 50% of the next 1% of eligible annual compensation for 2018.

The Company may also make additional discretionary profit-sharing contributions to the Plan. These contributions are determined annually at the discretion of the Company's management. The Company made no discretionary contributions during 2018.

Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of benefits

Upon retirement, death, disability, or any other type of termination a participant may elect to receive a lump-sum amount equal to the value of his or her account. In-service distributions are permitted for participants who are age 59 ½ or older. Participant account balances less than \$5,000 may be distributed without consent upon termination of service. In conditions of financial hardship, a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship. All distributions are subject to the applicable provisions of the plan agreement.

Notes receivable from participants

Participants may borrow from their deferral accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Company. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are immediately vested in their contributions, employer match, rollovers, qualified non-elective employer contributions, plus actual earnings thereon.

Vesting in the employer's non-elective contributions to the Plan is based on years of continuous service. A participant is 100% vested after three years of credited service.

Forfeitures

At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$1,469 and \$1,447, respectively. These accounts may be used to reduce future employer contributions and plan administrative expenses.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent notes receivable from participants are recorded as distributions based on the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to recordkeeping and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date that the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money market funds: Money market funds are valued at cost which approximates fair value.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement:

<u>Investments at Fair Value as of December 31, 2018</u>

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, and the supplemental schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in net depreciation in fair value of the investment. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. TAX STATUS:

The Company adopted a volume submitter profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has since been amended. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. PLAN AMENDMENT:

Effective April 8, 2019, the Plan was amended to allow for eligible participants to designate all or a portion of their deferral contributions to a Roth 401(k) account. In addition, the Company increased the employer match to 100% of employee deferrals up to 3% plus 50% of the next 2% of eligible annual compensation.
