NOTE 1 DESCRIPTION OF PLAN

The following description of the American Road Management Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of American Road Management Inc. (the Company) who have completed six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan administrator.

Contributions – Each year, participants may contribute from 1% to 80% of annual compensation as pretax or Roth deferrals, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or deferred contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated target date retirement fund until changed by the participant. The Company may make annual discretionary matching contributions and/or non-elective contributions. For 2018 and 2017, the Company matched participant contributions at 50% up to 3% of compensation. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is fully vested after three years of service.

Notes Receivable from Participants – Participants may borrow from their fund accounts from $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan rate, determined monthly, is set at the prime rate at the time of issuance as published in The Wall Street Journal each month, plus 1%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive a lump sum amount or periodic equal installments of the value of the participant's vested interest in his or her account.

NOTE 1 DESCRIPTION OF PLAN (Continued)

Forfeited Accounts – At December 31, 2018 and 2017, forfeited nonvested accounts totaled approximately $16,200 and $23,700 respectively. These accounts are used to reduce employer contributions. During 2018 and 2017, approximately $23,200 and $3,700, respectively, were used to reduce employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are significant accounting policies followed by the Plan:

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and certain disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan Agreement.

Excess Contributions Payable – Accounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2017 excess contributions to the applicable participants prior to March 15, 2018.

Payment of Benefits – Benefit payments to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from theses financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events **–** The Company has evaluated subsequent events through September 10, 2019, the date which the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net appreciation (depreciation) in fair value of investments, interest, dividends and other income for the years ended December 31, 2018 and 2017, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Great-West Trust Company, LLC (Great-West), the trustee of the Plan.

NOTE 4 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets
b) Quoted prices for identical or similar assets or liabilities in inactive markets
c) Inputs other than quoted prices that are observable for the asset or liability
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs that are unobservable inputs for the asset or liability.

NOTE 4 FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Common/collective trust: Valued at the net asset value (NAV) of units of a financial institution collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held in the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's mutual funds are measured using Level 1 inputs and comprise the Plan's assets at fair value as of December 31, 2018 and 2017. The common/collective trust is measured at NAV per share (or its equivalent) and has not been classified in the fair value hierarchy.

Transfers between Levels

For the years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017, respectively. There are no participant redemption restrictions for the investment; the redemption notice period is applicable only to the Plan.

Investment Type	2018 Fair Value	2017 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Putnam Stable Value Fund	$ 143,678	$ 163,268	$ -	Daily	Daily

NOTE 5 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Great-West, the trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

Great-West provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and Great-West. Great-West receives revenue from mutual fund and collective trust fund service providers for services Great-West provides to these funds. This revenue is used to offset certain amounts owed to Great-West for its administrative services to the Plan.

If the revenue received by Great-West from such mutual fund or collective trust fund service providers exceeds the amount owed under the MSA, Great-West remits the excess to the Plan's trust. Such amounts may be applied to pay plan administrative expenses or allocated to the accounts of the participants. During 2018 and 2017, the Plan received excess amounts totaling approximately $2,200 and $2,100, respectively. The Plan or Company may make a payment to Great-West for administrative expenses not covered by revenue sharing.

NOTE 6 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the employer contribution portion of their account.

NOTE 7 TAX STATUS

The Plan and Trust have been formed utilizing the *Prototype Non-standardized Profit Sharing Plan with CODA* sponsored by Great-West. The prototype plan sponsor, Great-West, obtained a favorable determination letter dated March 31, 2014; however, such letter is only applicable to Great-West. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore believes that the Plan is qualified, and related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. A tax position includes an entity's status as a tax-exempt entity. The Plan has evaluated each of its tax positions and has determined that no provision or liability is necessary due to the Plan's tax exempt status. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 9 RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2018	2017
Net assets available for benefits per the financial statements	$ 3,777,893	$ 4,603,090
