Plan Description (continued)

Contributions

Each year participants may contribute up to 75% of their pre-tax annual compensation as defined in the Plan agreement. Participants who have attained age 50 by the end of the Plan year are allowed to make catch-up contributions. Employees may also rollover to the Plan all amounts representing the distributions from other qualified defined benefit or defined contribution plans. The Company may make, at its discretion, a matching contribution to the Plan. The employer contribution formula was 35% of the first 6% of deferred compensation for each eligible participant for 2018. The employer contribution formula was 20% of the first 6% of deferred compensation for each eligible participant for 2017. Additionally, the Company may contribute a discretionary amount to each eligible participant in the ratio that the participant's compensation bears to the aggregate compensation of all eligible participants. To be eligible to receive an employer discretionary contribution, a participant must complete a year of service and be employed on the last day of the Plan year. For the Plan years ended December 31, 2018 and 2017, there were no additional employer discretionary contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service according to the following schedule:

Years of Service	Vesting Percentages
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of the participant's vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate that ranges from 4.25% to 7.75%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

The normal form of benefit payment from the Plan is a lump-sum amount equal to the value of a participant's vested interest in the Plan. A participant may waive this distribution option and elect to receive their vested benefits as a joint and survivor annuity, a life annuity, or a series of installment payments over a fixed period.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$232,381 and \$201,130, respectively. Forfeitures from employer matching contributions will first be used to pay administrative expenses of the Plan and then to reduce future employer matching contributions. During 2018 and 2017 forfeitures of \$3,510 and \$4,380, respectively, were used to pay administrative expenses of the Plan. No forfeitures were used to reduce employer contributions during 2018 or 2017. Forfeitures from employer discretionary contributions will first be used to pay administrative expenses of the Plan and then will be reallocated to eligible participants. There were no forfeitures of employer discretionary contributions during 2018 and 2017.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FC^x PERFORMANCE, INC.

Notes to Financial Statements
December 31, 2018 and 2017

Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

401(k) SAVINGS PLAN

December 31, 2018 and 2017

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common Collective Trust: Valued at the NAV provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 77,135,129	\$ -	\$ -	\$ 77,135,129

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

Beginning of year	-	87,326
Net income (loss) per the Form 5500	\$ 7,981,105	\$ 26,224,670

Tax Status

The Plan has adopted a volume submitter profit sharing plan with cash or deferred arrangements (CODA), which obtained its latest prototype opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the prototype plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Company is relying on the prototype plan's IRS opinion letter. The Plan has been amended since adopting the prototype plan document. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds offered by Fidelity, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest. Strategic Advisors, Inc. is the investment advisor to the Plan and therefore, these transactions qualify as party-in-interest. Administrative expenses amounted to \$25,767 and \$43,342 in 2018 and 2017, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2018 statement of net assets available for benefits.

Subsequent Events – Date of Management Evaluation

During 2018 Applied Industrial Technologies, Inc. purchased the Company. Effective January 1, 2019 all contributions were being remitted to the Applied Industrial Technologies, Inc. Retirement Savings 401k plan.

Management has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.

Plan Description (continued)

Contributions

Each year participants may contribute up to 75% of their pre-tax annual compensation as defined in the Plan agreement. Participants who have attained age 50 by the end of the Plan year are allowed to make catch-up contributions. Employees may also rollover to the Plan all amounts representing the distributions from other qualified defined benefit or defined contribution plans. The Company may make, at its discretion, a matching contribution to the Plan. The employer contribution formula was 35% of the first 6% of deferred compensation for each eligible participant for 2018. The employer contribution formula was 20% of the first 6% of deferred compensation for each eligible participant for 2017. Additionally, the Company may contribute a discretionary amount to each eligible participant in the ratio that the participant's compensation bears to the aggregate compensation of all eligible participants. To be eligible to receive an employer discretionary contribution, a participant must complete a year of service and be employed on the last day of the Plan year. For the Plan years ended December 31, 2018 and 2017, there were no additional employer discretionary contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service according to the following schedule:

Years of Service	Vesting Percentages
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of the participant's vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate that ranges from 4.25% to 7.75%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

The normal form of benefit payment from the Plan is a lump-sum amount equal to the value of a participant's vested interest in the Plan. A participant may waive this distribution option and elect to receive their vested benefits as a joint and survivor annuity, a life annuity, or a series of installment payments over a fixed period.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$232,381 and \$201,130, respectively. Forfeitures from employer matching contributions will first be used to pay administrative expenses of the Plan and then to reduce future employer matching contributions. During 2018 and 2017 forfeitures of \$3,510 and \$4,380, respectively, were used to pay administrative expenses of the Plan. No forfeitures were used to reduce employer contributions during 2018 or 2017. Forfeitures from employer discretionary contributions will first be used to pay administrative expenses of the Plan and then will be reallocated to eligible participants. There were no forfeitures of employer discretionary contributions during 2018 and 2017.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 are significant unobservable inputs for the asset or liability.

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Common Collective Trust: Valued at the NAV provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 77,135,129	\$ -	\$ -	\$ 77,135,129

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

Tax Status

The Plan has adopted a volume submitter profit sharing plan with cash or deferred arrangements (CODA), which obtained its latest prototype opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the prototype plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Company is relying on the prototype plan's IRS opinion letter. The Plan has been amended since adopting the prototype plan document. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds offered by Fidelity, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest. Strategic Advisors, Inc. is the investment advisor to the Plan and therefore, these transactions qualify as party-in-interest. Administrative expenses amounted to \$25,767 and \$43,342 in 2018 and 2017, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2018 statement of net assets available for benefits.

Subsequent Events – Date of Management Evaluation

During 2018 Applied Industrial Technologies, Inc. purchased the Company. Effective January 1, 2019 all contributions were being remitted to the Applied Industrial Technologies, Inc. Retirement Savings 401k plan.

Management has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.
