Contributions
Participant Contributions – Each year, participants may elect to contribute pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Match and Profit Sharing Contributions – The Companies may elect to make discretionary matching and profit sharing contributions to the Plan. The Companies match 100% of employee contributions, up to 4% of eligible compensation deferred to the Plan. For the year ended December 31, 2018, the Companies calculated a true-up employer match of $16,518, remitted in 2019. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. For the year ended December 31, 2018, the Companies made a $382,610 profit sharing contribution to the Plan, remitted in 2019.

Employer Safe Harbor – The Companies also make safe harbor contributions equal to 3% of the participant's eligible compensation, regardless of the employee's hours of service or employment on the last day of the Plan year. The safe harbor contribution for the year ended December 31, 2018 was $375,411, remitted in 2019.

Contributions are subject to regulatory limitations.

Note 1 – Description of Plan (continued)

Participant Accounts
Each participant's account is credited with the participant's contributions, participant's rollover contributions, employer matching, other discretionary contributions, safe harbor contributions, and account earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting
Participants are fully vested at all times in participant contributions and safe harbor contributions plus actual earnings thereon. Participants are vested in employer contributions after completing years of service as follows:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeitures
Matching contributions and other discretionary contributions forfeited by terminated participants are used by the Companies to offset administrative expenses and future matching contributions. At December 31, 2018 and 2017, forfeited nonvested accounts held in investments totaled $18,848 and $14,946, respectively. For the year ended December 31, 2018, employer contributions were reduced by $11,878 from forfeited nonvested accounts.

Notes Receivable from Participants
The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) participant loans. Such loans bear interest at a rate of prime plus 1%, and loan terms range from one to five years, unless the loan is used for the purchase of a principal residence, in which case the maximum repayment period may be longer. Outstanding loans at December 31, 2018 carry an interest rates varying between 4.25% and 8.50%.

Principal and interest are paid ratably through payroll deductions. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributable event stated in the Plan document.

Payment of Benefits
Terminated participants receive their vested account balance in a lump-sum distribution unless they have reached normal retirement age, which allows them to request installment withdrawals according to lifetime minimum required distributions. Distributions are made at the participant's election within a reasonable period following termination.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles (GAAP).

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation
The investments are reported at fair value. The Plan's custodian certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income Recognition
Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Expenses
The Plan's administrative expenses may be paid out of the forfeiture account or paid by the Companies. Investment management, distribution, and loan transaction fees are paid by the Plan participants.

Note 3 – Fair Value Measurements

Accounting standards provide a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Note 3 – Fair Value Measurements (continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds: – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Annuities – The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Fair Value Measurement at December 31, 2018			
	Level 1	Level 2	Level 3	Total

Total assets in the fair value hierarchy	$ 11,780,278	$ 2,523,946	$ -	$ 14,304,224

	Fair Value Measurement at December 31, 2017			
	Level 1	Level 2	Level 3	Total

Total assets in the fair value hierarchy	$ 12,366,235	$ 1,576,902	$ -	$ 13,943,137

Note 4 – Plan Termination

The Companies have the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. The Companies have not indicated any intention to terminate the Plan. In the event of Plan termination, participants become 100% vested in their accounts.

Note 5 – Tax Status of Plan

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Exempt Party-in-Interest Transactions

Certain Plan investments are managed by Great-West Life & Annuity Insurance Company. Great-West Trust Company, LLC is the custodian of the Plan and an affiliate of Great-West Life & Annuity Insurance Company and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to Great-West Life & Annuity Insurance Company were $2,262 for the year ended December 31, 2018.

Note 7 – Reconciliation of Financial Statements to Form 5500
