NOTE 1. DESCRIPTION OF PLAN

The following description of the Watershed Foods, LLC 401(k) Savings Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Watershed Foods, LLC (the Company) who have reached the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute a portion of their annual compensation, limited to certain Internal Revenue Code limitations. Participants may begin their contributions and make modifications to their contributions at the beginning of any pay period and terminate their contributions at their discretion. The Company contributes up to 100 percent of the amount of an eligible employee's salary deferral that does not exceed 3 percent of his or her total compensation, plus 50 percent of salary deferrals between 3 and 5 percent of his or her total compensation. The Company may also make a discretionary contribution that is allocated to eligible employees based upon total compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, and an allocation of Plan earnings. Allocations of Plan earnings are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon, as well as the safe harbor contributions made by the employer. Prior to January 1, 2016, the Company used to make discretionary contributions in which the employees were zero percent vested until they reach three years of service, upon which they would become 100 percent vested.

Payment of Benefits

A participant account may be distributed in a lump sum or installment payments upon death, disability, retirement, or termination of employment.

Participant Loans

The Plan does not allow participant loans.

Forfeited Accounts

At December 31, 2018, there were no forfeited non-vested accounts.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100-percent vested in their accounts.

Tax Status

Effective January 1, 2016, the Plan was amended and restated and has adopted the FIS Business Systems LLC Volume Submitter Profit Sharing Plan with CODA. The Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since its latest opinion letter. It is the belief of the Trustees and the Plan's attorney that the Plan is in compliance with all applicable laws and regulations. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

For the year ended December 31, 2018, the Company paid substantially all Plan-related administrative costs, including salaries, accounting, and legal fees.

Subsequent Events

The Plan has evaluated subsequent events through August 29, 2019, the date the financial statements were available to be issued.

NOTE 4. TRANSACTIONS WITH PARTIES-IN-INTEREST

NOTE 5. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described on the following page.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018, from the prior year.

Money market and mutual funds: Valued daily based on the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments, at fair market value				
Money market funds	$ 3,229	$ 3,229	$ -	$ -
Mutual funds	1,154,305	1,154,305	-	-
	$ 1,157,534	$ 1,157,534	$ -	$ -
