Harris, Mackessy & Brennan 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Harris, Mackessy & Brennan 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Harris, Mackessy & Brennan, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's effective amended date is January 1, 2016.

Each employee, with the exception of excluded employees as defined in the Plan document, is eligible to participate in the Plan following the completion of six months of service and attainment of age 21. Once participants are eligible for the Plan they can enroll and begin making participant deferrals and receive employer matching contributions. The employee must have completed 1,000 hours of service during the Plan year in order to participate in any employer discretionary annual profit sharing contributions. Participants direct the investments of contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds (registered investment companies) and one group variable annuity with fixed fund contract.

Contributions: Plan participants may authorize payroll deductions up to 100% of their compensation as contributions. The amount of a participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowed under the IRC. Company matching contributions are made in an amount equal to 100% of employee contributions up to the first 3%, and 50% of employee contributions on the next 2% of the employee's contributions.

The Company may also make a discretionary annual profit sharing contribution. The discretionary annual profit sharing contribution was \$278,883 and \$270,705 for the years ended December 31, 2018 and 2017, respectively.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) Company matching contributions, (b) Company profit sharing contributions and (c) Plan earnings and losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service, where a year is defined as one where an employee works 1,000 or more hours, as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payments of benefits: A participant may receive the value of his or her vested account upon retirement, attainment of age 59½, disability or termination as a lump-sum distribution. Upon death of a participant, the beneficiary shall be entitled to the full value of the account. Hardship withdrawals, as defined in the Plan, are also available to participants.

Forfeited accounts: At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$66,974 and \$26,089, respectively. These accounts will be used to reduce future employer contributions or to pay Plan expenses. During the year ended December 31, 2018, \$35,420 of forfeitures were used to reduce employer contributions and pay Plan expenses.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions and Employer matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary profit sharing contributions are recognized when declared by the Company.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the Company, except for participant fees related to distribution and loan withdrawals, which are paid from the participants' accounts.

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 25, 2019, the date the financial statements were available to be issued.

Note 3. Tax Status

Effective January 1, 2013, the Plan adopted a non-standardized form of a volume submitter plan sponsored by CCH Incorporated. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and is, therefore, not subject to federal income taxes under present income tax laws.

Note 4. Information Certified and Provided by the Custodian

The following is a summary of the plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Great-West Life & Annuity Insurance Company, the custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 Code of Federal Regulations (CFR) 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2018	2017
Investments, at fair value:		
Registered investment companies	\$ 20,611,088	\$ 20,428,463
Investments, at contract value:		
Guaranteed interest contract	\$ 1,031,931	\$ 1,336,327
Notes receivable from participants	\$ 37,081	\$ 53,386

The custodian also certified to the completeness and accuracy of \$1,434,160 of net depreciation in the fair value of investments and \$2,370 of interest income on notes receivable from participants for the year ended December 31, 2018.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,611,088	\$ -	\$ -	\$ 20,611,088

	2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 20,428,463	\$ -	\$ -	\$ 20,428,463

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no significant transfers in or out of Level 1, 2, or 3.

Note 6. Investment Contracts with Great-West Life & Annuity Insurance Company

The Plan has a benefit-responsive synthetic investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guarantee investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Due to the guaranteed investment contract being fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate of 0%, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

There are no events which limit the ability of the Plan to transact at contract value with the issuer. Either party to the contract may terminate the agreement prior to the scheduled maturity date with at least 60 days advance written notice to the other party.

Average yields:

Based on average earnings	1.35%
Based on interest rate credited to participants	1.35%

Note 7. Party-in-Interest Transactions

Certain Plan investments are units of registered investment companies and a guaranteed investment contract managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. During 2018, the Plan paid administrative fees in the amount of \$74,247 to the custodian and other providers.
