1. Description of Plan

The following brief description of the SDI Services, LLC 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was established on January 1, 2014 and restated on January 1, 2018. The Plan is a defined contribution plan covering certain eligible employees of Scottsdale Medical Imaging, Ltd., Valley Radiologists, Ltd. and Southwest Diagnostic Imaging, Ltd., (collectively, the "Company") who are 21 years of age or older, have completed one year of service and have worked 1,000 hours during the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 4, 2017, Southwest Diagnostic Imaging, Ltd. ("SDI") was acquired by Radiology Partners ("RP"). SDI remained the sponsor of the Plan until January 1, 2018, on which date SDI Services LLC ("SDI Services") became the successor sponsor of the Plan and the Plan's name was changed to SDI Services LLC 401(k) Plan. On January 1, 2018, participants other than physicians, physician assistants and radiology practitioner assistants, became employees of SDI Services. Participants who were physicians, physician assistants and radiology practitioner assistants remained employees of SDI, and their accounts in the Plan were transferred to the Southwest Diagnostic Imaging, Ltd. 401(k) Plan A ("Plan A") in May 2018.

Additionally, in 2018, participants who were previously participating in Plan A, that remained employees of the Company, had their account balances transferred into the Plan.

Also, effective January 1, 2018, the safe harbor 401(k) contribution feature of the Plan was eliminated.

Contributions

Each year, participants may contribute up to 100% of their pretax compensation or after-tax Roth contributions to the Plan, subject to limitations prescribed by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The deferral rate is then increased by 1% every July 1st up to 12%.

Each year at the Company's discretion, the Company may make a matching contribution to the Plan equal to a percentage of the participants' contributions. Additionally, the Company may elect to make a discretionary non-elective contribution to the Plan ("profit sharing"). For the year ended December 31, 2018, approximately $1,133,000 of profit-sharing contributions were allocated to eligible Plan participants. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's contributions, as well as allocations of the Company's profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. Participants vest 20% after two years of credited service and 20% each year thereafter until the participant becomes 100% after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts an amount up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms are up to 5 years or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at rates ranging from 3.25% to 6.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

A participant who is employed by the Company after reaching age 55, the Plan's normal retirement age, may elect to receive all or part of the balance of his or her vested account. Upon a participant's termination of service, a participant may elect to receive either a lump-sum payment or an installment-type payment in an amount equal to the value of the vested account balance.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited non-vested accounts totaled approximately $12,900 and $39,900, respectively. Forfeited non-vested accounts are used to reduce future employer contributions and/or pay for administrative expenses. There were approximately $4,300 of forfeitures used to pay for administrative expenses and approximately $45,500 of forfeitures were transferred out of the Plan during the year ended December 31, 2018. There were no forfeitures used to reduce employer contributions during the year ended December 31, 2018.

Recent Accounting Pronouncements

In February 2018, FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. The objective of these disclosure requirements is to provide financial statement users with information about assets and liabilities measured at fair value in the statement of net assets available for benefits or disclosed in the notes to the financial statements regarding (1) the valuation techniques and inputs used to develop fair value measurements, including the related judgments and assumptions made, (2) the uncertainty in the fair value measurements as of the reporting date, and (3) how changes in the measurements impact the performance of the plan. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019. The Plan is currently evaluating the magnitude and other potential impacts on its financial statements.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by Great-West Trust, LLC ("Great-West"). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits

Benefits are recorded when paid

Administrative Expenses

The Plan permits administrative expenses to be paid from the Plan's assets and to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses relating to specific participant transactions (i.e. loan setup, distribution requests, etc.) may be charged directly against the appropriate participant's account. Investment related expenses are included in net appreciation/depreciation in fair value of investments.

Subsequent Events

The Plan administrator has evaluated subsequent events through September 16, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Investments in mutual funds are based on quoted market prices for the identical security in an active market.

Collective Trust Funds

Collective trust funds represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Units held in collective funds are valued based on the market prices of the underlying investments in the funds at year-end.

Self-directed Accounts

Self-directed accounts primarily consist of common stocks, mutual funds, and cash, which are based on quoted market prices for the identical security in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,464,806	$ -	$ -	$ 7,464,806
Collective trust funds	-	16,092,689	-	16,092,689
Total investments, at fair value	$ 7,464,806	$ 16,092,689	$ -	$ 23,557,495

	2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,667,504	$ -	$ -	$ 19,667,504
Collective trust funds	-	45,639,202	-	45,639,202
Self-directed accounts	19,292,432	-	-	19,292,432
Total investments, at fair value	$ 38,959,936	$ 45,639,202	$ -	$ 84,599,138

4. Party-In-Interest Transactions

Great-West is the trustee, as defined by the Plan. Transactions with Great-West qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

6. Information Provided by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, the supplemental schedule as of December 31, 2018, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

7. Income Tax Status

The IRS has determined and informed the Company by a letter dated September 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the favorable determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. There are currently no audits for any tax periods in progress.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:
