DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2018 and 2017

Note A – Description of Plan

The following description of the DecisionHR Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a multiple-employer defined contribution plan established January 1, 1998 and last amended and restated effective January 1, 2013. The Plan covers all full-time employees of the employers represented by DecisionHR Holdings, Inc. (the “Company”) who have reached eligibility requirements as defined by individual employer adoption agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Administration

BlueStar Retirement Services, Inc. is the third party administrator of the Plan and is responsible for recordkeeping services, maintaining the investments of the Plan and reporting on the earnings and investments of the Plan. The Plan’s assets are held and managed by TD Ameritrade Trust Company (the “Custodian”). Contributions are held by the Custodian, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute a percentage of their pre-tax annual compensation, as defined, subject to limitations imposed by the Internal Revenue Code (“IRC”). The maximum employee deferral for December 31, 2018 and 2017 was \$18,500 and \$18,000, respectively. Participants may also make post-tax Roth deferral contributions to the Plan. A participant who has attained age 50 was eligible to participate in catch-up contributions, subject to IRS limitations of \$6,000 for December 31, 2018 and 2017. Participants may also contribute amounts representing distributions from other qualified plans.

Employers represented by the Company may elect to make a matching contribution equal to a specified percentage of the elective contribution made by the participant. The percentage of the matching contribution shall be determined by the employers represented by the Company.

Employers choosing to make safe harbor matching contributions may select a match equal to 100% of the participant’s elective deferral up to 6% of the participant’s eligible compensation or 100% of the participants elective deferral up to a maximum of 3% of eligible compensation plus 50% of elective deferrals for eligible compensation over 3% not to exceed 5% for each payroll period. In addition to the safe harbor contributions, employers can elect to make additional discretionary matching and non-elective contributions.

Employers represented by the Company may elect to make Roth elective contributions available to its employees who are participants. In addition, an employer may elect to automatically enroll participants in the event a participant does not affirmatively elect to have a specified amount contributed to the Plan as an elective contribution or does not affirmatively elect to receive compensation in lieu of an elective contribution.

DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2018 and 2017

Note A – Description of Plan (continued)

Plan Transfers

From year to year the Plan has transfers in and out depending on which employers are added or removed from the Plan. During the year ended December 31, 2018 the Plan had net transfers in of approximately \$490,000.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the employer's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants are 100% vested in any safe harbor contributions made by an employer. Any other employer match contributions are subject to the individual vesting schedules.

Investment Options

Upon enrollment in the Plan, a participant may elect to have their participant and employer contributions, and related earnings thereon, allocated to one or more mutual funds or money market investment options. The Plan's investments in mutual funds and money market funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Custodian. The Plan allows for self-directed brokerage accounts. The self-directed brokerage accounts are invested in preferred stocks, common stocks and shares of registered investment companies.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans generally have initial terms of less than five years unless they are for the purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions. Loans are secured by the balances in the participant accounts. Principal and interest are paid ratably through weekly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balances any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the first day of the second calendar quarter following the calendar quarter in which the participant failed to make a required installment payment.

Distribution of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution less withheld taxes. Participants may request a hardship withdrawal from their accounts using only employee deferral balances for distribution.

DecisionHR Retirement Savings Plan

Notes to Financial Statements December 31, 2018 and 2017

Note A – Description of Plan (continued)

If a participant's vested account balance is \$5,000 or less, the Plan Administrator will direct the Custodian that any amount exceeding \$1,000 be distributed to an Individual Retirement Account or Annuity for the participant's benefit. If the vested account balance is \$1,000 or less, the Plan Administrator may direct the Custodian to distribute this amount as a lump sum distribution without the participant's consent.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in money market accounts and mutual funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Custodian.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the employer. Expenses that are paid by the employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money market accounts: The assets held in money market funds are valued at net asset value ("NAV") of the underlying funds. The inputs used to determine fair value of these funds are not always quoted prices in an active market.

Common and Preferred stocks - Valued at the last quoted sales price as of the close of trading at year end.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Custodian, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Custodian that the information provided to the Plan Administrator by the Custodian as of December 31, 2018 and 2017, and for the year ended December 31, 2018, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 8, 2013, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Notes to Financial Statements December 31, 2018 and 2017

Note D – Income Tax Status (continued)

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2016.

Note E – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are mutual funds, money market fund, cash account and self-directed investments, managed by the Custodian. Transactions related to these investments qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. Fees paid to parties-in-interest amounted to approximately \$123,000 in total during the year ended December 31, 2018.

Note F – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note G – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for Plan benefits per the financial statements to the Form 5500 as of December 31:

	2018	2017
Net assets available for benefits per the financial statements	\$ 14,389,448	\$ 13,424,742
