Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

### Contributions

Participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code ("IRC") limitations. The maximum participant deferral for December 31, 2018 and 2017 was $18,500 and $18,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,000 for both December 31, 2018 and 2017. The Plan has automatic enrollment for all eligible employees. If the employee does not make an affirmative election, to select a deferral percentage or opt out of the Plan entirely, the Plan will automatically contribute 5% for the employee from their pay. Automatically enrolled participants will also increase their deferral percentage by 1% each year on January 1st until the total participant contribution reaches 6%.

The Employer may make matching contributions at their discretion. For the year ended December 31, 2018, the Employer made matching contributions of 35% of the first 6% of deferred compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

### Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

### Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is pro-rated based upon years of continuous service with 100% vesting obtained at the end of the third year of continuous service.

## Note A – Description of Plan (continued)

### Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions, in 1% increments in any of the 29 eligible funds. Participants may change their current or future investment options at any time via both telephone and online access systems.

### Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable. Loan terms can be up to five years. These loans are collateralized by the balance in the participant's account and bear interest at prevailing rates as determined by the Plan Administrator. Principal and interest are paid by payroll deduction in substantially equal payments over the life of the loan, with payments not less frequently than bi-weekly.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the last business day of the quarter following the calendar quarter in which the participant failed to make a required installment payment.

### Distribution of Benefits

On termination of service due to death, disability, retirement, or other, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, installments over not more than the participant's life expectancy, or partial withdrawals. Participants may also obtain distributions from their elective deferrals balances while still employed in the event of hardship or after attaining age 59 ½.

### Forfeitures

Forfeitures are first used to pay any portion of the administrative expenses of the Plan and second, to reduce Employer contributions to the Plan. Forfeitures of approximately $31,000 were used to pay administrative expenses or Employer contributions for the year ended December 31, 2018. In addition, the Plan had approximately $68,000 and $35,000 in forfeitures remaining as of December 31, 2018 and 2017, respectively.

### Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

## Note B – Summary of Significant Accounting Policies

### Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of money market and mutual funds are valued at the net asset value of shares held by the Plan at year end. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded at the ex-dividend date.

### Payment of Benefits

Benefits are recorded when paid.

### Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

### Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

## Note B – Summary of Significant Accounting Policies (continued)

### Fair Value Measurements (continued)

The three levels of the fair value hierarchy are described below:

| | |
|---|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include:<br>Quoted prices for similar assets or liabilities in active markets;<br>Quoted prices for identical or similar assets or liabilities in inactive markets;<br>Inputs other than quoted prices that are observable for the asset or liability;<br>Inputs that are derived principally from or corroborated by observable market data by correlation or other means.<br><br>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

*Mutual funds*: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Money market accounts*: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

*Common/collective trusts*: Valued at NAV provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2018 and 2017. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

## Note B – Summary of Significant Accounting Policies (continued)

### Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

| | | Fair Value Measurements at Reporting Date Using: |
|---|---|---|
| | Assets Measured at Fair Value at 12/31/2018 | Quoted Prices in Active Markets (Level 1) |
| Money market funds | $ 338,593 | $ 338,593 |
| Mutual funds | 21,681,288 | 21,681,288 |
| Total assets in the fair value hierarchy | 22,019,881 | 22,019,881 |
| Investments measured at net asset value | 49,258 | |
| Investments at fair value | $ 22,069,139 | |

| | | Fair Value Measurements at Reporting Date Using: |
|---|---|---|
| | Assets Measured at Fair Value at 12/31/2017 | Quoted Prices in Active Markets (Level 1) |
| Money market funds | $ 221,244 | $ 221,244 |
| Mutual funds | 21,067,831 | 21,067,831 |
| Total assets in the fair value hierarchy | 21,289,075 | 21,289,075 |
| Investments measured at net asset value | - | |
| Investments at fair value | $ 21,289,075 | |

Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy.

## Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2018 and 2017 and for the year ended December 31, 2018, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

## Note D – Income Tax Status

The Plan's Trustee received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan's Trustee may use the letter as evidence of Plan qualification under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2016.

## Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note F – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or participants of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are pooled separate accounts and money market funds managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Notes receivables from participants are also considered to be party-in-interest transactions because they are transacted with plan participants. Fees paid to the Trustee by the Plan for investment services amounted to approximately $57,000 during the year ended December 31, 2018.

## Note A – Description of Plan

The following description of the PODS Enterprises, LLC Non-Union 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all of PODS Enterprises, LLC (the "Company" or "Employer") except for union employees, leased employees, and certain nonresident aliens. The Plan was established effective May 1, 2005, and most recently amended and restated November 6, 2015. Employees of the Company are eligible to participate upon completion of six consecutive months of service (or 500 hours of services) and have attained age 21. New participants may enter the Plan at the beginning of each quarter. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

### Administration of the Plan

The accounting records are maintained by the Company. The Plan's assets were held and managed by Fidelity Management Trust Company (the "Trustee"). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

### Contributions

Participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code ("IRC") limitations. The maximum participant deferral for December 31, 2018 and 2017 was $18,500 and $18,000, respectively. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,000 for both December 31, 2018 and 2017. The Plan has automatic enrollment for all eligible employees. If the employee does not make an affirmative election, to select a deferral percentage or opt out of the Plan entirely, the Plan will automatically contribute 5% for the employee from their pay. Automatically enrolled participants will also increase their deferral percentage by 1% each year on January 1st until the total participant contribution reaches 6%.

The Employer may make matching contributions at their discretion. For the year ended December 31, 2018, the Employer made matching contributions of 35% of the first 6% of deferred compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

### Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

### Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is pro-rated based upon years of continuous service with 100% vesting obtained at the end of the third year of continuous service.

## Note A – Description of Plan (continued)

### Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions, in 1% increments in any of the 29 eligible funds. Participants may change their current or future investment options at any time via both telephone and online access systems.

### Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable. Loan terms can be up to five years. These loans are collateralized by the balance in the participant's account and bear interest at prevailing rates as determined by the Plan Administrator. Principal and interest are paid by payroll deduction in substantially equal payments over the life of the loan, with payments not less frequently than bi-weekly.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. In the event of default, the unpaid portion of the participant's loan will be treated as a taxable distribution as of the last business day of the quarter following the calendar quarter in which the participant failed to make a required installment payment.

### Distribution of Benefits

On termination of service due to death, disability, retirement, or other, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, installments over not more than the participant's life expectancy, or partial withdrawals. Participants may also obtain distributions from their elective deferrals balances while still employed in the event of hardship or after attaining age 59 ½.

### Forfeitures

Forfeitures are first used to pay any portion of the administrative expenses of the Plan and second, to reduce Employer contributions to the Plan. Forfeitures of approximately $31,000 were used to pay administrative expenses or Employer contributions for the year ended December 31, 2018. In addition, the Plan had approximately $68,000 and $35,000 in forfeitures remaining as of December 31, 2018 and 2017, respectively.

### Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

## Note B – Summary of Significant Accounting Policies

### Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of money market and mutual funds are valued at the net asset value of shares held by the Plan at year end. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded at the ex-dividend date.

### Payment of Benefits

Benefits are recorded when paid.

### Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

### Fair Value Measurements

The FASB has established a framework for measuring fair value in ASC 820, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

## Note B – Summary of Significant Accounting Policies (continued)

### Fair Value Measurements (continued)

The three levels of the fair value hierarchy are described below:

| | |
|---|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include:<br>Quoted prices for similar assets or liabilities in active markets;<br>Quoted prices for identical or similar assets or liabilities in inactive markets;<br>Inputs other than quoted prices that are observable for the asset or liability;<br>Inputs that are derived principally from or corroborated by observable market data by correlation or other means.<br><br>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

*Mutual funds*: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Money market accounts*: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

*Common/collective trusts*: Valued at NAV provided by the custodian. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. There were no unfunded commitments to purchase investments at December 31, 2018 and 2017. Participant-directed redemptions have no restrictions and are recorded at the end of every business day.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

| | | Fair Value Measurements at Reporting Date Using: |
|---|---|---|
| | Assets Measured at Fair Value at 12/31/2018 | Quoted Prices in Active Markets (Level 1) |
| Money market funds | $ 338,593 | $ 338,593 |
| Mutual funds | 21,681,288 | 21,681,288 |
| Total assets in the fair value hierarchy | 22,019,881 | 22,019,881 |
| Investments measured at net asset value | 49,258 | |
| Investments at fair value | $ 22,069,139 | |

| | | Fair Value Measurements at Reporting Date Using: |
|---|---|---|
| | Assets Measured at Fair Value at 12/31/2017 | Quoted Prices in Active Markets (Level 1) |
| Money market funds | $ 221,244 | $ 221,244 |
| Mutual funds | 21,067,831 | 21,067,831 |
| Total assets in the fair value hierarchy | 21,289,075 | 21,289,075 |
| Investments measured at net asset value | - | |
| Investments at fair value | $ 21,289,075 | |

Investments measured using the NAV as a practical expedient are exempt from being presented in the fair value hierarchy.

## Note C – Certified Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2018 and 2017 and for the year ended December 31, 2018, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

## Note D – Income Tax Status

The Plan's Trustee received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan's Trustee may use the letter as evidence of Plan qualification under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2016.

## Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## Note F – Party-In-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or participants of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are pooled separate accounts and money market funds managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Notes receivables from participants are also considered to be party-in-interest transactions because they are transacted with plan participants. Fees paid to the Trustee by the Plan for investment services amounted to approximately $57,000 during the year ended December 31, 2018.
