1. DESCRIPTION OF PLAN:

The following description of the Paycor, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1994, covering eligible employees of Paycor, Inc. (the "Company"). To be eligible to participate in the Plan, an individual must be an employee of the Company who has completed at least three months of service and attained at least age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended (the "Code").

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Plan also allows after tax contributions or Roth 401(k) contributions. The combined pre-tax and after tax contributions cannot exceed established IRS limits. The Plan allows for automatic enrollment of eligible employees at a 3% deferred rate. Employees may opt out of the automatic enrollment at any time. The Company may, in its discretion, match participants' 401(k) contributions, up to the limit determined by the Company. The Company contributes 50% of employee contributions up to 6% of their eligible salary. The Company may also, in its discretion, elect to make a profit sharing contribution. There was no profit sharing contribution for the year ended December 31, 2018. Effective January 1, 2019, the Company match will increase to 65% of up to 6% of eligible pay.

Additionally, the Plan accepts direct rollovers from other plans and arrangements, and rollover contributions from participants. Contributions are subject to certain limitations.

Participant accounts

A participant's account is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting/forfeitures

Participants are immediately 100% vested in their 401(k) pre-tax and 401(k) Roth contributions, catch-up contributions, rollover contributions, and qualified non-elective contributions made on their behalf, as adjusted for earnings and losses thereon. Participants vest in Company matching contributions in accordance with terms of the Plan. For contributions made prior to December 1, 2015, the matching contribution vests over six years of service. For contributions made after December 1, 2015, the matching contributions are fully vested after an employee completes three years of service. For contributions made after January 1, 2019, the matching contributions are 50% vested after 2 years of service and fully vested after 3 years of service. Participants vest in Company profit sharing contributions after three years of completing at least 1,000 hours annually. Forfeited matching contributions are used to reduce future matching contributions, or to pay the Plan's administrative expenses. In 2018, the Company used \$240,000 of forfeited matching contributions toward the employer match and \$40,000 to pay Plan administrative expenses. Forfeited balances remaining in the Plan totaled \$124,426 and \$43,485 at December 31, 2018 and 2017, respectively.

Benefits

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, or termination of his employment with the Company. Additionally, prior to termination from employment, a participant may withdraw all or a portion of their vested account balance upon attaining age 59 ½, or incurring a financial hardship (if certain requirements are satisfied). Benefits shall be paid to participants in the form of lump sum or installment payments upon termination of employment.

Death benefits

A participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates that range from 3.25% to 6.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the plan document.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 2, 2019, the date the financial statements were available to be issued. No events or transactions have occurred subsequent to December 31, 2018 that require further disclosure.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy measurements are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no changes in the methodology used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's cash and investments at fair value as of December 31, 2018 and 2017:

<u>Investments at fair value</u>				
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
December 31, 2018				
Mutual funds	\$ <u>68,964,850</u>	\$ <u>68,964,850</u>	===== -	===== -
December 31, 2017				
Mutual funds	\$ <u>63,095,549</u>	\$ <u>63,095,549</u>	===== -	===== -

4. GUARANTEED INVESTMENT CONTRACT:

The Plan participates in a traditional fully benefit-responsive guaranteed investment contract managed by Great-West Life and Annuity Insurance Company, a custodian of the Plan. The contract issuer maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the contract issuer, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction

exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without consent of the issuer.

5. INCOME TAX STATUS:

The prototype plan document provider for the Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) ruled that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the Code. The Company has elected not to apply for its own determination letter covering the Plan.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

7. INFORMATION CERTIFIED BY THE PLAN'S ASSET CUSTODIANS:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and related investment income presented in the financial statements and supplemental schedule are based on information certified as complete and accurate by the custodians, Great-West Life and Annuity Insurance Company and Great-West Trust Company, LLC, as of December 31, 2018 and 2017, and the related investment activity for the year ended December 31, 2018, and were not subjected to any auditing procedures performed by the independent auditors.

8. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by Great-West Life and Annuity Insurance Company and Great-West Trust Company, LLC. Great-West Life and Annuity Insurance Company and Great-West Trust Company, LLC are custodians as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.
