SILVERLINING INTERIORS 401(K) PLAN
Notes to Financial Statements
December 31, 2018 and 2017

(1) Description of Plan

The following description of the Silverlining Interiors 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of Silverlining Interiors, Inc. (the "Company") who have one year of service and are 21 years of age or older. The Plan Trustees oversee the governance of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute the maximum amount of pretax annual compensation currently allowed by Internal Revenue Code limitations. The Company shall make a contribution from current or accumulated net income equal to 3% of the participant's compensation not including bonuses and commissions.

Participant Accounts:

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments:

Participants direct the investment of their contributions into various investment options offered by the Plan.

Retirement Benefits and Vesting:

Participants are immediately 100% vested in their contributions and in their share of employer contributions and earnings thereon. Benefit payments generally commence at the participant's normal retirement age, generally 65, unless the participant elects a later retirement date, whereupon benefit payments will be postponed until such date. Also, participants may withdraw a portion of their account balance once they reach the age of 59-1/2, in the event of financial hardship, or all of their balance if they leave the employment of the Sponsor. The form of the benefit payment is at the discretion of the participant and is to be either a lump sum, installment, partial payment or through the purchase of an annuity contract which will provide a series of fixed-dollar payments. If no benefit election is made by the participant, a lump sum benefit payment will be made.

(1) Description of Plan (continued)

Participant Loans:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of the value of the vested interest in their account, but not to exceed $50,000. Such loans are charged a rate of prime plus 1% and need to be repaid within 5 years. As of December 31, 2018 the Plan had a participant loan balance receivable of $170,374.

Forfeited Accounts:

As of December 31, 2018 and 2017, forfeited nonvested accounts totaled $-0- for each respective year.

(2) Summary of Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements of the Plan are prepared under the accrual method of accounting as prescribed by generally accepted accounting principles.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value as determined by the trustee using quoted market prices. Refer to Note 4, Fair Value Measurements, for details on inputs, valuation techniques and fair value measurement within the fair value hierarchy.

Net appreciation or depreciation in fair value investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair market value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(2) Summary of Significant Accounting Policies (continued)

Participant Loans Receivable:

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant loan is recorded as a benefit payment.

Payment of Benefits:

Benefits are recorded when paid by the Plan.

Operating Expenses:

All expenses of the plan other than direct investment expenses charged by the custodian are paid by the Company.

(3) Federal Tax Status

The Sponsor adopted a standardized prototype plan, which has been approved by the Internal Revenue Service. The Plan Administrator has not received individual approval; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles in the United States require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. Fair value is as defined by generally accepted accounting principles as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

(4) Fair Value Measurements (continued)

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the partnership. Unobservable inputs reflect the plan's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

This hierarchy consists of three broad levels:

Level 1 - Inputs consist of unadjusted quoted prices in active markets for identical assets.

Level 2 – Valuations based on quoted prices in markets that are either not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and not corroborated by market data.

An asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The tables below present the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

	Fair value	Quoted prices in active markets for identical assets (Level 1)	Observable inputs, direct and indirect (Level 2)	Significant unobservable inputs (Level 3)
December 31, 2018				
Money market funds	$ 6,633	$ 6,633	$ -	$ -
Common/collective trusts	1,248,608	1,248,608		
Mutual funds	5,331,593	5,331,593	-	-

Money market funds	$ 6,717	$ 6,717	$ -	$ -
Common/collective trusts	1,275,925	1,275,925		
Mutual funds	5,270,368	5,270,368	-	-
Total	$ 6,553,010	$ 6,553,010	$ -	$ -

The fair value of money market and mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. Each fund determines its share price or net asset value (NAV) daily.

(4) Fair Value Measurements (continued)

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by the Plan trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Net assets available for benefits as of December 31:

	2018	2017
Money market funds	$ 6,633	$ 6,717
Common/collective trusts	1,248,608	1,275,925
Mutual funds	5,331,593	5,270,368
Total	$ 6,586,834	$ 6,553,010

During the years ended December 31, 2018 and 2017, the Plan's accounts investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value by $(224,789) and $906,983 respectively.

(6) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(7) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan was to be terminated, participants would become 100% vested in their account.

(8) Change in Trustee

In January 2017, the Plan changed its trustee. Reliance Trust, the Former Trustee of the Plan, was replaced by Fidelity Personal Trust Company.

(9) Plan Amendments

Effective January 1, 2008, the Plan was amended to change participant eligibility requirements from 6 months of service to 1 year of service and institute the Company's 3% safe harbor contribution.

Effective May 1, 2009, the Plan was amended to ensure compliance with the new Internal Revenue Service regulations.

Effective October 1, 2015, the Plan was amended to ensure compliance with the new Internal Revenue Service regulations.

(10) Evaluation of Subsequent Events

The Plan has evaluated subsequent events through September 26, 2019 the date which the financial statements were available to be issued and found no items requiring further disclosure.

SILVERLINING INTERIORS 401(K) PLAN
Notes to Financial Statements
December 31, 2018 and 2017

(1) Description of Plan

The following description of the Silverlining Interiors 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of Silverlining Interiors, Inc. (the "Company") who have one year of service and are 21 years of age or older. The Plan Trustees oversee the governance of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year, participants may contribute the maximum amount of pretax annual compensation currently allowed by Internal Revenue Code limitations. The Company shall make a contribution from current or accumulated net income equal to 3% of the participant's compensation not including bonuses and commissions.

Participant Accounts:

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments:

Participants direct the investment of their contributions into various investment options offered by the Plan.

Retirement Benefits and Vesting:

Participants are immediately 100% vested in their contributions and in their share of employer contributions and earnings thereon. Benefit payments generally commence at the participant's normal retirement age, generally 65, unless the participant elects a later retirement date, whereupon benefit payments will be postponed until such date. Also, participants may withdraw a portion of their account balance once they reach the age of 59-1/2, in the event of financial hardship, or all of their balance if they leave the employment of the Sponsor. The form of the benefit payment is at the discretion of the participant and is to be either a lump sum, installment, partial payment or through the purchase of an annuity contract which will provide a series of fixed-dollar payments. If no benefit election is made by the participant, a lump sum benefit payment will be made.

(1) Description of Plan (continued)

Participant Loans:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50% of the value of the vested interest in their account, but not to exceed $50,000. Such loans are charged a rate of prime plus 1% and need to be repaid within 5 years. As of December 31, 2018 the Plan had a participant loan balance receivable of $170,374.

Forfeited Accounts:

As of December 31, 2018 and 2017, forfeited nonvested accounts totaled $-0- for each respective year.

(2) Summary of Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements of the Plan are prepared under the accrual method of accounting as prescribed by generally accepted accounting principles.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value as determined by the trustee using quoted market prices. Refer to Note 4, Fair Value Measurements, for details on inputs, valuation techniques and fair value measurement within the fair value hierarchy.

Net appreciation or depreciation in fair value investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair market value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(2) Summary of Significant Accounting Policies (continued)

Participant Loans Receivable:

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant loan is recorded as a benefit payment.

Payment of Benefits:

Benefits are recorded when paid by the Plan.

Operating Expenses:

All expenses of the plan other than direct investment expenses charged by the custodian are paid by the Company.

(3) Federal Tax Status

The Sponsor adopted a standardized prototype plan, which has been approved by the Internal Revenue Service. The Plan Administrator has not received individual approval; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles in the United States require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain tax position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2015.

(4) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. Fair value is as defined by generally accepted accounting principles as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

(4) Fair Value Measurements (continued)

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the partnership. Unobservable inputs reflect the plan's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

This hierarchy consists of three broad levels:

Level 1 - Inputs consist of unadjusted quoted prices in active markets for identical assets.

Level 2 – Valuations based on quoted prices in markets that are either not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and not corroborated by market data.

An asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The tables below present the balances of assets measured at fair value on a recurring basis by level within the hierarchy.

The fair value of money market and mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. Each fund determines its share price or net asset value (NAV) daily.

(4) Fair Value Measurements (continued)

The preceding method described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to be complete and accurate by the Plan trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.
