Notes to Financial Statements

1. Description of the Plan

The following description of the Symphony Health Solutions Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering substantially all full-time employees of Symphony Health Solutions Corporation ("the Company") who reached the first day of the month following their hire date and were age 21 or older. The Plan administrator controlled and managed the operation and administration of the Plan. John Hancock Life Insurance Company (the "Custodian") served as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company resolved to merge the Plan effective December 31, 2018. Plan assets, totaling \$16,702,240, were transferred to the PRA Holdings, Inc. 401(k) Plan ("PRA Plan") on December 31, 2018. Contribution receivables due to the Plan totaling \$155,178 were transferred subsequent to December 31, 2018 and were considered assets of the PRA Plan on the effective date of December 31, 2018.

Contributions

Each year, participants contributed compensation, as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participant salary deferrals were traditional 401(k) (pretax) or Roth 401(k) (after-tax). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Company contributions were discretionary. In 2018, the Company made matching contributions of 30 percent of the first 6 percent of eligible wages that a participant contributed to the Plan. Contributions were subject to certain limitations.

Investment Options

Participants directed the investment of their accounts into various investment options offered by the Plan. The Plan offered various pooled separate accounts as options.

Participant Accounts

Each participant's account was credited with the participant's contributions, Company contributions, and allocations of Plan earnings. The account was charged with benefit payments, transaction fees, and allocations of administrative expenses and Plan losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting Provision

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. Participants were vested in Company contributions at 25% after each year of service. A participant was 100 percent vested after four years of credited service.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. The loans were secured by the balance in the participant's

Symphony Health Solutions Savings Plan

Notes to Financial Statements

account and bore interest at rates which were commensurate with local prevailing rates as determined by the Plan administrator. During 2018, outstanding loans bore interest rates of 5.50% - 7.00%. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or in installments as provided by the Plan document. Amounts contributed on a before-tax basis could only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable and distributions) were charged directly to the participant's account.

Subsequent events

The Plan has evaluated subsequent events through September 25, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

At December 31, 2017, the Plan did not hold any investments that were required to be reported in a level in the fair value hierarchy, as all investments were measured at net asset value ("NAV") or its equivalent in accordance with GAAP. The Plan did not hold any investments as of December 31, 2018.

There have been no changes in the methodologies used at December 31, 2018 and 2017. The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

The Plan invested in pooled separate accounts for which quoted prices were not available in active markets for identical instruments. The Plan utilized the NAV per share, as determined by the Custodian as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics. The pooled separate accounts are not required to be classified within a level on the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017.

	Fair Value at December 31, 2017	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Pooled separate Accounts	\$ 16,331,962	None	Daily	Daily

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2018 and 2017 and for the year ended December 31, 2018 that was obtained from data prepared and certified to be complete and accurate by the Custodian.

	<u>2018</u>	<u>2017</u>
Investments at fair value	<u>\$ -</u>	<u>\$ 16,331,962</u>
Notes receivable from participants	<u>\$ -</u>	<u>\$ 124,192</u>
Cash	<u>\$ -</u>	<u>\$ 49,117</u>
Net depreciation in fair value of investments	<u>\$ (1,269,257)</u>	
Interest and dividends	<u>\$ 15,744</u>	
Interest income on notes receivable from participants	<u>\$ 7,959</u>	

5. Exempt Party-In-Interest Transactions

Certain Plan investments were managed by the Custodian. As described in Note 2, the Plan paid certain expenses related to the Plan operations and investment activity to various service providers, including the Custodian. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for administrative services were \$2,447 for the year ended December 31, 2018. These transactions qualify as exempt party-in-interest transactions under ERISA.

6. Income Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan was relying on the IRS approval of the prototype plan that it was utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Notes to Financial Statements

1. Description of the Plan

The following description of the Symphony Health Solutions Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was a defined contribution plan covering substantially all full-time employees of Symphony Health Solutions Corporation (“the Company”) who reached the first day of the month following their hire date and were age 21 or older. The Plan administrator controlled and managed the operation and administration of the Plan. John Hancock Life Insurance Company (the “Custodian”) served as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Board of Directors of the Company resolved to merge the Plan effective December 31, 2018. Plan assets, totaling \$16,702,240, were transferred to the PRA Holdings, Inc. 401(k) Plan (“PRA Plan”) on December 31, 2018. Contribution receivables due to the Plan totaling \$155,178 were transferred subsequent to December 31, 2018 and were considered assets of the PRA Plan on the effective date of December 31, 2018.

Contributions

Each year, participants contributed compensation, as defined in the Plan document, subject to certain Internal Revenue Code (“IRC”) limitations. Participant salary deferrals were traditional 401(k) (pretax) or Roth 401(k) (after-tax). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Company contributions were discretionary. In 2018, the Company made matching contributions of 30 percent of the first 6 percent of eligible wages that a participant contributed to the Plan. Contributions were subject to certain limitations.

Investment Options

Participants directed the investment of their accounts into various investment options offered by the Plan. The Plan offered various pooled separate accounts as options.

Participant Accounts

Each participant’s account was credited with the participant’s contributions, Company contributions, and allocations of Plan earnings. The account was charged with benefit payments, transaction fees, and allocations of administrative expenses and Plan losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant’s vested account.

Vesting Provision

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. Participants were vested in Company contributions at 25% after each year of service. A participant was 100 percent vested after four years of credited service.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. The loans were secured by the balance in the participant’s

Symphony Health Solutions Savings Plan

Notes to Financial Statements

account and bore interest at rates which were commensurate with local prevailing rates as determined by the Plan administrator. During 2018, outstanding loans bore interest rates of 5.50% - 7.00%. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or in installments as provided by the Plan document. Amounts contributed on a before-tax basis could only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable and distributions) were charged directly to the participant's account.

Subsequent events

The Plan has evaluated subsequent events through September 25, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

At December 31, 2017, the Plan did not hold any investments that were required to be reported in a level in the fair value hierarchy, as all investments were measured at net asset value ("NAV") or its equivalent in accordance with GAAP. The Plan did not hold any investments as of December 31, 2018.

There have been no changes in the methodologies used at December 31, 2018 and 2017. The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

The Plan invested in pooled separate accounts for which quoted prices were not available in active markets for identical instruments. The Plan utilized the NAV per share, as determined by the Custodian as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics. The pooled separate accounts are not required to be classified within a level on the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017.

	Fair Value at December 31, 2017	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Pooled separate Accounts	\$ 16,331,962	None	Daily	Daily

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for administrative services were \$2,447 for the year ended December 31, 2018. These transactions qualify as exempt party-in-interest transactions under ERISA.

6. Income Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan was relying on the IRS approval of the prototype plan that it was utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

1. Description of the Plan

The following description of the Symphony Health Solutions Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan covering substantially all full-time employees of Symphony Health Solutions Corporation ("the Company") who reached the first day of the month following their hire date and were age 21 or older. The Plan administrator controlled and managed the operation and administration of the Plan. John Hancock Life Insurance Company (the "Custodian") served as the custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company resolved to merge the Plan effective December 31, 2018. Plan assets, totaling \$16,702,240, were transferred to the PRA Holdings, Inc. 401(k) Plan ("PRA Plan") on December 31, 2018. Contribution receivables due to the Plan totaling \$155,178 were transferred subsequent to December 31, 2018 and were considered assets of the PRA Plan on the effective date of December 31, 2018.

Contributions

Each year, participants contributed compensation, as defined in the Plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participant salary deferrals were traditional 401(k) (pretax) or Roth 401(k) (after-tax). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. Company contributions were discretionary. In 2018, the Company made matching contributions of 30 percent of the first 6 percent of eligible wages that a participant contributed to the Plan. Contributions were subject to certain limitations.

Investment Options

Participants directed the investment of their accounts into various investment options offered by the Plan. The Plan offered various pooled separate accounts as options.

Participant Accounts

Each participant's account was credited with the participant's contributions, Company contributions, and allocations of Plan earnings. The account was charged with benefit payments, transaction fees, and allocations of administrative expenses and Plan losses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account.

Vesting Provision

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon was based on years of continuous service. Participants were vested in Company contributions at 25% after each year of service. A participant was 100 percent vested after four years of credited service.

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. The loans were secured by the balance in the participant's

Symphony Health Solutions Savings Plan Notes to Financial Statements

account and bore interest at rates which were commensurate with local prevailing rates as determined by the Plan administrator. During 2018, outstanding loans bore interest rates of 5.50% - 7.00%. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or in installments as provided by the Plan document. Amounts contributed on a before-tax basis could only be withdrawn upon demonstration of financial hardship, disability, or after the participant reaches the age of 59.5 years.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable and distributions) were charged directly to the participant's account.

Subsequent events

The Plan has evaluated subsequent events through September 25, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

At December 31, 2017, the Plan did not hold any investments that were required to be reported in a level in the fair value hierarchy, as all investments were measured at net asset value ("NAV") or its equivalent in accordance with GAAP. The Plan did not hold any investments as of December 31, 2018.

There have been no changes in the methodologies used at December 31, 2018 and 2017. The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

The Plan invested in pooled separate accounts for which quoted prices were not available in active markets for identical instruments. The Plan utilized the NAV per share, as determined by the Custodian as the estimated fair value. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics. The pooled separate accounts are not required to be classified within a level on the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017.

	<u>Fair Value at December 31, 2017</u>	<u>Unfunded Commitments</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Pooled separate Accounts	\$ 16,331,962	None	Daily	Daily

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2018 and 2017 and for the year ended December 31, 2018 that was obtained from data prepared and certified to be complete and accurate by the Custodian.

Interest and dividends	\$ <u>15,744</u>	
Interest income on notes receivable from participants	\$ <u>7,959</u>	

5. Exempt Party-In-Interest Transactions

Certain Plan investments were managed by the Custodian. As described in Note 2, the Plan paid certain expenses related to the Plan operations and investment activity to various service providers, including the Custodian. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for administrative services were \$2,447 for the year ended December 31, 2018. These transactions qualify as exempt party-in-interest transactions under ERISA.

6. Income Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirements of the IRC. The Plan was relying on the IRS approval of the prototype plan that it was utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the prototype plan document was designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 3 for discussion of fair value measurements.
