(1) Description of plan

The following description of the Gables Residential Services, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by the Company for the benefit of all employees who have three consecutive months of service (if the employee has worked at least 250 hours in that time frame), are at least eighteen years of age, and are not excluded by certain provisions outlined in the plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan administration - Reliance Trust Company ("Reliance") serves as the trustee of the Plan. Additionally, Massachusetts Mutual Life Insurance Company ("Mass Mutual") separately holds the Plan's guaranteed investment contract and acts as the Plan's recordkeeper.

Plan amendments - Effective June 1, 2017, the Plan has been amended to exclude interns, courtesy employees, and temporary employees who do not meet a minimum required hours of service as stipulated in the amendment, from being eligible to participate in the Plan. Effective October 1, 2017, the Plan has been amended to allow participants to make Roth 401(k) deferrals to the Plan. Effective February 15, 2018, the Plan has been amended to apply the automatic rollover provisions, as stipulated in the plan document, to all involuntary cash-out distributions. In addition, rollover contributions are considered to be included in the determination of whether a participant's vested account balance exceeds the involuntary cash-out distribution threshold. Effective August 1, 2018, the Plan has been amended to increase the initial automatic deferral percentage from 4% to 6%. Effective December 1, 2018, the Plan has been amended to raise the maximum from 10% to 15% for which automatic annual 1% increases to participants' deferral percentages are processed.

Contributions - Participants may contribute up to 50% of their pretax annual compensation, as defined in the plan document, and/or make Roth 401(k) deferrals to the Plan (effective October 1, 2017) without exceeding the maximum annual amount allowed by the Internal Revenue Code (the "Code"). The Plan calls for automatic deferrals of employees' eligible compensation upon reaching eligibility for participation in the Plan, unless the employee affirmatively elects not to contribute. The Plan's initial automatic deferral percentage is 6% (effective August 1, 2018) and increases by 1% each plan year up to a maximum of 15% (effective December 1, 2018), unless the participant makes a different election. The Plan allows participants to make changes to their deferral elections on any day of the year.

Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the plan document.

(1) Description of plan (continued)

Contributions (continued)

Under the provisions of the plan document, the Company may make discretionary matching contributions. During the years ended December 31, 2018 and 2017, the Company made discretionary matching contributions in the amount of 50% of the first 6% of compensation that each participant contributed into the Plan. The Company's discretionary matching contributions applicable to the years ended December 31, 2018 and 2017 aggregated $1,571,604 and $1,443,680, respectively, and were invested in accordance with each participant's own investment elections.

The Company may elect annually to make discretionary contributions in addition to matching contributions. Discretionary contributions are allocated to eligible participants in accordance with a permitted disparity allocation taking the social security taxable wage base into consideration in the allocation formula, as more fully described in the plan document. No such discretionary contributions were made during the years ended December 31, 2018 and 2017.

All Company contributions are subject to certain limitations prescribed by the Code.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. The plan administrator and the Plan's Investment Committee determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from his/her vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of service. A participant is 100% vested after three years of credited service or in the event of death, disability, or attainment of the Plan's normal retirement age, all as defined in the plan document.

Forfeitures - At December 31, 2018 and 2017, forfeited nonvested accounts, including approximately $3,000 in investment earnings on such balances each year, totaled approximately $140,000 and $24,000, respectively. Forfeitures during the years ended December 31, 2018 and 2017 amounted to approximately $249,000 and $150,000, respectively. These accounts may be used to reduce future Company contributions or to pay for the Plan's administrative expenses. Company contributions applicable to the years ended December 31, 2018 and 2017 were reduced by approximately $120,000 each year from forfeited nonvested accounts. Expenses totaling approximately $16,000 and $20,000 were paid from forfeitures during the years ended December 31, 2018 and 2017, respectively.

(1) Description of plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions or may be paid directly by the participant. All notes have a definite repayment period not to exceed five years, unless the note is for the purchase of a primary residence, in which case the repayment period may extend to ten years. Participants may not have more than one note outstanding at any time.

Payment of benefits - On termination of service due to death, disability, retirement, or qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), or for other reasons as outlined in the plan document, a participant may elect to receive distributions from the Plan. Distributions of $5,000 or less are to be made in a single lump-sum payment. Distributions in excess of $5,000 may be in the form of partial lump-sum payments or in installments. Participants may also receive in-service distributions upon reaching the age of 59½.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value (except for the guaranteed investment contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustees of the Plan. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of significant accounting policies (continued)

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are recorded as administrative expenses, are expensed when incurred, and are charged directly to the participant's account. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the remaining note balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain recordkeeping and other expenses have been paid for by the Plan and have been recorded as administrative expenses on the statements of changes in net assets available for benefits. Investment related expenses are included in net appreciation (depreciation) in fair value of investments. Other expenses of the Plan have been paid for by the Company and are not included on the statements of changes in net assets available for benefits.

(3) Information certified by the Plan's trustees

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance and Mass Mutual have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments:

- Investments at fair value and contract value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

(4) Fair value measurements (continued)

The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methodology described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes that this valuation methodology is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of these financial instruments could result in a different fair value measurement at the reporting date.

(4) Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 56,252,437	$ -	$ -	$ 56,252,437

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 59,424,850	$ -	$ -	$ 59,424,850

(5) Guaranteed investment contract

The Plan has a fully benefit-responsive guaranteed investment contract with Mass Mutual. The contributions are maintained in a separate account with a general account guarantee. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not necessarily limited to, the following: (1) amendments to the plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the Plan's participants are probable of occurring.

(6) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in the Company's contributions.

(7) Tax status

The IRS has determined that the Mass Mutual non-standardized prototype plan adopted by the Company is designed in accordance with the applicable sections of the Code and informed Mass Mutual of such in a letter dated March 31, 2014. Although the Plan has been amended since the date of this letter, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2015.

(8) Related party transactions and party-in-interest transactions

Reliance is the trustee, as defined by the Plan, and therefore, transactions with Reliance qualify as party-in-interest. Additionally, a certain investment is in the custody of Mass Mutual. Mass Mutual also provides recordkeeping services to the Plan. Accordingly, transactions with Mass Mutual also qualify as party-in-interest.

Administrative expenses paid by the Plan to Mass Mutual and another service provider, aggregated $270,260 and $235,769 for the years ended December 31, 2018 and 2017, respectively. Certain other fees incurred by the Plan are included in net appreciation (depreciation) in fair value of investments as they are paid through revenue sharing, rather than as a direct payment. The Company pays directly any other fees related to the Plan's operations.

(9) Risks, uncertainties, and concentrations

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

At December 31, 2018, approximately 65% of the Plan's investments were invested in five funds. At December 31, 2017, approximately 58% of the Plan's investments were invested in four funds.

(10) Reconciliation of financial statements to Schedule H of Form 5500

Certain income and expense line items reported on Schedule H of Form 5500 for the years ended December 31, 2018 and 2017 have been reclassified on the accompanying statements of changes in net assets available for benefits. These reclassifications have no impact on net assets available for benefits at December 31, 2018 and 2017, or changes in net assets available for benefits for the years then ended.

(11) Subsequent events

The Plan's management has evaluated subsequent events through September 27, 2019, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
