NOTE 1 — DESCRIPTION OF THE PLAN

The following description of the Topiderm, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1993 as a defined contribution plan covering substantially all employees of Topiderm, Inc. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Substantially all employees of the Company are eligible to participate in the Plan once they have reached age 21 or older, and have completed six months of service. After an employee of the Company has satisfied the eligibility requirements, they are eligible to enter the Plan as a participant immediately following the date on which the eligibility requirements are satisfied.

Contributions

Participants in the Plan may elect to defer and to contribute up to the maximum of their pretax annual eligible compensation, as defined by the Plan, not to exceed certain dollar limitations that are set by law. Participants age 50 or older may elect to defer and contribute additional amounts to the Plan up to a maximum that is set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investments options with varying degrees of risk and potential returns offered by the Plan. The Plan offers twenty-nine mutual funds and investment contracts with an insurance company as investment options for participants.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, including rollover contributions. Employer discretionary matching contributions vest at a rate of 20% per year after two years of service (vested 20% at the end of the second year of service and 20% annually thereafter with 100% at the end of the sixth year of service).

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Plan Sponsor's contribution, the Plan earnings and is charged with administrative expenses not paid by the Plan Sponsor. The Plan provides that earnings on contributions from participants are accumulated tax deferred. The Plan also provides that the participants are not subject to income tax on the amounts contributed and related earnings until the Plan makes distributions to the participant. Each participant has the right to invest their contributions into any of the various investment options offered by the Plan. Allocations are based on participant earnings or account balances, as defined. Participants direct investment of all account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 — DESCRIPTION OF THE PLAN (Continued)

Forfeitures

If a participant terminates employment with the Company at a time when the participant does not have a fully vested account, the nonvested employer contributions and actual earnings thereon are forfeited. Forfeitures of discretionary matching contributions may be used to reinstate previously forfeited account balance of former participants, reduce employer discretionary matching contributions in the Plan year in which such forfeitures occur or in the next succeeding Plan year, if necessary, including any restorative contributions required or permitted to be made to the Plan by the Company and participants, or cover future administrative expenses. Forfeitures available at December 31, 2018 and 2017 totaled $1,990 and $1,561, respectively. No forfeitures were utilized to reduce employer discretionary matching contributions for the years ended December 31, 2018 and 2017.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All loans must be repaid in level payments on at least a quarterly basis over a five-year period unless the loan is for the purchase of a principal residence in which case the loan may be repaid over a ten-year period. The loans are secured by the balance of the participant's vested account and bear interest at a rate that is commercially reasonable and commensurate with the prevailing interest rate charged on similar loans, as determined quarterly by the Plan trustee. Participants may not have more than two loans outstanding at any time. Participant loans are valued at the aggregate of the unpaid principal and accrued and unpaid interest.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or a partial withdrawal. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Benefits are payable upon reaching early retirement age of 59-1/2, normal retirement age of 65, total and permanent disability, termination, or death in the form of a lump sum payment. Separated participants with vested account balances exceeding $5,000 may delay the timing of the receipt of benefits subject to minimum distribution rules required by law. Participants with a balance of $5,000 or less may be paid out without the participant's consent. Participants may be entitled to a hardship withdrawal of their vested benefits if they qualify under the criteria established by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in all employer contributions with all rights to any amounts in their respective accounts.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants is measured as their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs incurred by the Plan relating to investment transactions and administrative expenses may be paid by the Plan. Personnel and facilities of the Plan Sponsor have been used by the Plan for its accounting and other activities at no charge to the Plan. Certain other professional fees and other administrative expenses are paid by the Plan Sponsor.

Subsequent Events

The Plan has evaluated subsequent events through September 4, 2019, the date the financial statements were available to be issued.

NOTE 3 — FAIR VALUE MEASUREMENT

Financial Accounting Standards Board *Accounting Standards Codification* ("Codification"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: The fair value of registered investment companies is based on quoted net asset values ("NAV") of the shares as reported by the fund. The securities held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily NAV and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 — FAIR VALUE MEASUREMENT (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair market value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Investments, at fair value				
Registered investment companies	$ 4,841,310	$ -	$ -	$ 4,841,310
Total investments, at fair value	$ 4,841,310	$ -	$ -	$ 4,841,310

	2017			
	Level 1	Level 2	Level 3	Total
Investments, at fair value				
Registered investment companies	$ 4,509,594	$ -	$ -	$ 4,509,594
Total investments, at fair value	$ 4,509,594	$ -	$ -	$ 4,509,594

NOTE 4 — INFORMATION CERTIFIED BY PLAN TRUSTEE

All investment information disclosed in the accompanying financial statements and Schedule of Assets (Held at End of Year) were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

NOTE 5 — INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated March 31, 2014 that the Plan based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 6 — PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of registered investment companies and a common collective trust managed by Fidelity Investments Institutional Operations Company, Inc. Fidelity Management Trust Company is the Trustee as defined by the Plan and these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each fund. Also, certain administrative functions are performed by officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan. The Company paid audit fees amounting to $14,500 on behalf of the Plan for the year ended December 31, 2018.

NOTE 7 — RISKS AND UNCERTAINTIES

The Plan provides investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Certain mutual funds offered by the Plan invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities in comparable U.S. companies.

NOTE 8 — RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan prepares its Form 5500 on a cash basis. The following is a reconciliation of net assets available for benefits from Form 5500 to the financial statements as of December 31:

NOTE 1 — DESCRIPTION OF THE PLAN

The following description of the Topiderm, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1993 as a defined contribution plan covering substantially all employees of Topiderm, Inc. ("the Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Substantially all employees of the Company are eligible to participate in the Plan once they have reached age 21 or older, and have completed six months of service. After an employee of the Company has satisfied the eligibility requirements, they are eligible to enter the Plan as a participant immediately following the date on which the eligibility requirements are satisfied.

Contributions

Participants in the Plan may elect to defer and to contribute up to the maximum of their pretax annual eligible compensation, as defined by the Plan, not to exceed certain dollar limitations that are set by law. Participants age 50 or older may elect to defer and contribute additional amounts to the Plan up to a maximum that is set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investments options with varying degrees of risk and potential returns offered by the Plan. The Plan offers twenty-nine mutual funds and investment contracts with an insurance company as investment options for participants.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, including rollover contributions. Employer discretionary matching contributions vest at a rate of 20% per year after two years of service (vested 20% at the end of the second year of service and 20% annually thereafter with 100% at the end of the sixth year of service).

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Plan Sponsor's contribution, the Plan earnings and is charged with administrative expenses not paid by the Plan Sponsor. The Plan provides that earnings on contributions from participants are accumulated tax deferred. The Plan also provides that the participants are not subject to income tax on the amounts contributed and related earnings until the Plan makes distributions to the participant. Each participant has the right to invest their contributions into any of the various investment options offered by the Plan. Allocations are based on participant earnings or account balances, as defined. Participants direct investment of all account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 — DESCRIPTION OF THE PLAN (Continued)

Forfeitures

If a participant terminates employment with the Company at a time when the participant does not have a fully vested account, the nonvested employer contributions and actual earnings thereon are forfeited. Forfeitures of discretionary matching contributions may be used to reinstate previously forfeited account balance of former participants, reduce employer discretionary matching contributions in the Plan year in which such forfeitures occur or in the next succeeding Plan year, if necessary, including any restorative contributions required or permitted to be made to the Plan by the Company and participants, or cover future administrative expenses. Forfeitures available at December 31, 2018 and 2017 totaled $1,990 and $1,561, respectively. No forfeitures were utilized to reduce employer discretionary matching contributions for the years ended December 31, 2018 and 2017.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. All loans must be repaid in level payments on at least a quarterly basis over a five-year period unless the loan is for the purchase of a principal residence in which case the loan may be repaid over a ten-year period. The loans are secured by the balance of the participant's vested account and bear interest at a rate that is commercially reasonable and commensurate with the prevailing interest rate charged on similar loans, as determined quarterly by the Plan trustee. Participants may not have more than two loans outstanding at any time. Participant loans are valued at the aggregate of the unpaid principal and accrued and unpaid interest.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or a partial withdrawal. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Benefits are payable upon reaching early retirement age of 59-1/2, normal retirement age of 65, total and permanent disability, termination, or death in the form of a lump sum payment. Separated participants with vested account balances exceeding $5,000 may delay the timing of the receipt of benefits subject to minimum distribution rules required by law. Participants with a balance of $5,000 or less may be paid out without the participant's consent. Participants may be entitled to a hardship withdrawal of their vested benefits if they qualify under the criteria established by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in all employer contributions with all rights to any amounts in their respective accounts.

NOTE 7 — RISKS AND UNCERTAINTIES

The Plan provides investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Certain mutual funds offered by the Plan invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities in comparable U.S. companies.
