OSHKOSH CORPORATION HOURLY EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2018 and 2017

NOTE 1 - Plan Description

The following brief description of the Oshkosh Corporation Hourly Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan, which includes all hourly employees of Oshkosh Defense, LLC (the "Company") in the bargaining unit represented by Local 578, United Auto Workers hired prior to October 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan's Investment Committee has overall responsibility for the operations and administration of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Per an amendment dated September 29, 2013, the Plan was closed to new participants on October 1, 2016. Participants enrolled prior to October 1, 2016 continue to earn service credit for vesting and eligibility requirements.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan was in compliance with these minimum funding requirements for the years ended December 31, 2018 and 2017.

For the year ended December 31, 2018, the Company made a \$4,100,000 voluntary contribution to the Plan, which was funded in July 2019. For the year ended December 31, 2017, the Company made a \$3,000,000 voluntary contribution to the Plan, which was funded in July 2018.

Vesting

Employees earn one year of vesting service for each year (defined as August 1 through July 31) that they provide at least 1,000 hours of service. If an employee transfers to an affiliate of the Company, the employee continues to earn vesting service under the Plan for his or her employment with that affiliate. Participants vest in their accrued benefits if they reach the age of 65 while employed with the Company or according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than five	0%
Five or more	100%

NOTE 1 - Plan Description (cont.)

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 60 and 65 with a minimum of 15 years of vesting service. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of service times a benefit dollar multiplier. A vested participant who terminates for any reason other than retirement, disability, or death is entitled to the monthly vested termination benefits beginning on the participant's normal retirement date in the amount of his or her accrued benefit or early retirement date, in which case benefits will be reduced by multiplying the accrued benefit by the appropriate early retirement factor set forth by the Plan. Participants may elect to receive their distributions, subject to certain Plan provisions, in the following forms, which include a single life method, a joint and 50%, 75% or 100% surviving spouse method, a five-year or ten-year certain and life method, a survivor benefit method, and a lump-sum payment. A participant may elect to receive a lump-sum payment when the distribution amount is more than \$1,000 but not more than \$10,000. If the participant's accrued benefit is more than \$1,000 but less than \$5,000 and the participant does not affirmatively elect to receive a lump-sum distribution, an automatic rollover to an individual retirement account is established in the participant's name. If the participant's accrued benefit is \$1,000 or less, the participant is paid a lump sum. If a participant becomes disabled before retirement, the participant may receive benefit payments at the time the participant qualifies for Social Security Disability Benefits.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. Expenses paid by the Company are excluded from these financial statements. These expenses include Pension Benefit Guaranty Corporation ("PBGC") premiums, investment management fees, and trustee fees.

Plan Amendments

The plan was amended during 2017 to allow for a one-time opportunity for terminated vested participants and other payees to elect either a lump-sum distribution or immediately payable annuity. Eligible participants must have terminated employment with the Company prior to April 1, 2017, been entitled to a vested retirement benefit and have not yet begun to receive payment of their Plan benefit. The lump-sum distributions and initial annuity payments occurred in September 2017 and totaled \$6,698,744.

Termination of Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth under ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2018 and 2017

NOTE 1 - Plan Description (cont.)

Termination of Plan (cont.)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities, and changes therein, and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (the "Master Trust"). The Master Trust is a multiple-plan trust. In November 2015, one of the other Oshkosh Corporation sponsored plans began to implement a liability driven investment strategy. The change in investment strategy resulted in the other Oshkosh sponsored plan's interest in the Master Trust becoming segregated and specifically identifiable from the investments that support the Plan and Oshkosh's other sponsored plan that participate in the Master Trust. For the remainder of the investments within the Master Trust, the investment strategy continues to be based on an expectation that, over time, equity securities will provide higher returns than debt securities. The Master Trust primarily minimizes the risk of larger losses under this strategy through diversification of investments by asset class, by investing in different styles of investment management within the classes and by using a number of different investment managers.

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2018 and 2017

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition (cont.)

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The fair value of investments in common stocks, bonds and notes, money market funds, and mutual funds are determined by quoted market prices on the last business day of the Plan year. The fair value of investments in common collective funds are determined using the net asset value ("NAV") per share (or its equivalent) practical expedient. See Note 4 for a discussion of fair value measurements.

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date

Risks and Uncertainties

The Master Trust provides for investments in common stocks, bonds and notes, money market funds, mutual funds and common collective funds. Investment securities are exposed to various risks, including, but not limited to, interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Retirement Benefits

The Plan includes scheduled and bargained for increases in the benefit dollar multipliers. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting – Chapter 8: Notes to the Financial Statements*, which the FASB finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. The Plan has not yet determined the impact ASU No. 2018-13 will have on the financial statements.

In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. The amendments in ASU No. 2017-06 clarify presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU No. 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendments should be applied retroactively to each period for which financial statements are presented. The Plan has not yet determined the impact ASU No. 2017-06 will have on the financial statements.

NOTE 3 – Information Certified by the Trustee (Unaudited)

The assets of the Plan are commingled and are not segregated in the accounts of the Master Trust. Although assets of the Plan are commingled in the Master Trust, Wells Fargo Bank, N.A., the trustee of the Master Trust and the Plan, maintains supporting records for the purpose of allocating the net gain or loss of the investment assets to the participating plans. The net investment income or loss of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of and for the years ended December 31, 2018 and 2017. Accordingly, the trustee of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017.

NOTE 4 – Fair Value Measurements

The FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e. exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e. inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 - Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 - Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, Plan management performs periodic analysis on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

NOTE 4 – Fair Value Measurements (cont.)

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Common Stocks, Bonds and Notes, Money Market Funds, and Mutual Funds: Valued at fair value based on quoted market prices on the last business day of the Plan year.

Common Collective Funds: Valued at fair value based on NAV per share (or its equivalent) practical expedient.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2018, the fair values of the Master Trust's investments were as follows:

	Level 1	Level 2	Level 3	Total

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Notes to Financial Statements.

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2018 and 2017

NOTE 5 - Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the employees' number of years of qualified service multiplied by a benefit multiplier. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Aon, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuation as of January 1, 2018, were as follows:

- > Mortality basis – The 2006 Base Rates from the RP-2014 Mortality Study with a fully generational mortality improvement projection using scale MP-2018
- > Actuarial cost method – Standard unit credit cost method
- > Retirement age – Graduated rates between age 60 and age 69
- > Interest rate used in accrued benefit calculations – 3.95%
- > Rate of return – 5.50%

The foregoing assumptions are based on the assumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed from 5.75% to 5.50% and the interest rate assumption was changed from segment rates as of January 2017 to segment rates as of January 2018 resulting in a decrease of \$3,845,471 in actuarial present value of accumulated benefits for the year ended December 31, 2018.

Net Change	<u>(1,710,472)</u>
 Actuarial Present Value of Accumulated Plan Benefits, at End of Period	 <u>\$ 137,952,377</u>

The effect of past Plan amendments on accumulated plan benefits is recognized during the year in which such amendment provisions become effective. Effective October 1, 2017, the Plan increased the minimum benefit rate from \$35.00 to \$36.00. Effective October 1, 2018, the Plan increased the minimum benefit rate from \$36.00 to \$37.00.

As part of the Company's agreement with the Local 578 United Auto Workers Bargaining Unit Employees, the minimum normal benefit multiplier per year of credited service was agreed to be changed as follows: \$38.00 effective October 1, 2019; and \$39.00 effective October 1, 2020. A retiring participant's benefit will, in part, be based on the benefit multiplier in effect at the time of retirement. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

NOTE 6 - Exempt Party-In-Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest, and dividend income and makes distributions to participants. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transactions rules of ERISA.

NOTES TO FINANCIAL STATEMENTS
As of and for the Years Ended December 31, 2018 and 2017

NOTE 7 – Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - Concentrations

As of December 31, 2018 and 2017, the Master Trust had investments of \$184,900,597 and \$177,852,179, respectively, concentrated in three funds. These funds invest in a diversified pool of investments.

NOTE 9 - Subsequent Events

Management of the Plan has evaluated subsequent events through October 2, 2019, which is the date that the financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.
