Huwa Enterprises, LLC 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1: Description of Plan

The following brief description of Huwa Enterprises, LLC ("the Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering substantially all employees of the Company. Employees are eligible for participation in the Plan after three consecutive months of service. The minimum age requirement is 21 years old per the Plan agreements. Participants may enter the Plan on the first day of the following month after eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was adopted on January 1, 2012. The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code ("the Code"). Under the Code, participants are not liable for federal income taxes on employee contributions, company contributions, or plan earnings until such time as they are partially or completely withdrawn from the Plan.

Contributions

Each year, participants may contribute pretax annual compensation to the Plan. Contributions are subject to certain limitations and are invested at the direction of the participant. Participants may also rollover amounts from other qualified plans. The Plan currently offers stable value funds as investment options for participants and all assets in the Plan are subject to participants' investment direction. The Company may also make discretionary profit sharing contributions based on certain formulas as defined in the Plan. Employees are eligible to receive profit sharing contributions from the Company after meeting the participation requirements.

Participant Accounts

Each participant's account is adjusted by the following increases and decreases: (a) Plan earnings; (b) payment of benefits; (c) increase (or decrease) in the fair value of applicable investments; (d) Company contributions; (e) participant contributions; and (f) administrative expenses incurred in the operations and maintenance of the Plan and its investments. Allocations to each participant's account are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions. These contributions include salary deferrals including 401k deferrals and catch up contributions, rollover contributions and safe harbor contributions. However, Participants that are vested in the profit sharing contributions do have a vesting schedule based upon the following graded: (updated 4/27/18)

Years of Service	Vested percentage
1	33%
2	66%
3	100%
4	100%
5	100%
6 or more	100%

Notes to Financial Statements

Note 1: Description of Plan (concluded)

Administration of Plan Assets

Contributions are held and managed by the Custodian, who invests cash received, allocates interest and dividend income, and makes distributions to Participants unless specifically directed otherwise by the Plan Administrator or other authorized party under the Plan. Employees of the Company may perform certain administrative functions for the Plan. However, such employees receive compensation directly from the Company. The plan typically pays administration costs.

Notes Receivable from Participants

Loans are available under the Plan, subject to amount limitations, which are the lesser of $50,000 less any outstanding loans or 50% of the individual's vested account balance. Individuals must be creditworthy to receive a loan. Interest varies based on average interest rates required by lenders offering similar loans. During the years ended December 31, 2018 and 2017, the Plan issued seven and seven new loans to participants, respectively, and at year end had a total of 11 and 10 loans outstanding with interest rates varying from 5.25% to 7.25%, respectively. The total loan balance outstanding at year end 2018 and 2017 totaled $151,343 and $131,957, respectively. The plan also distributed a total of $260,008 and $268,978, respectively, during the fiscal years 2018 and 2017 to 16 and 13 individuals, respectively.

Per the plan document, the interest rate is "The prime interest rate plus two (2) percentage points will be charged on participant loans unless the Plan administrator determines that a different interest rate is warranted based on additional factors, including prevailing interest rates charged by local commercial banks for similar loans and the creditworthiness and collateral offered". For current loans in the plan prime plus two percentage points is being utilized for interest charged.

Payment of Benefits

Upon death, disability, or termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or roll over the account balance to an IRA or to another employer's qualified plan in accordance with the terms of the Plan agreement. For participants whose account balance at termination is:

- Less than or equal to $5,000, the amounts may be automatically distributed at the request of the plan administrator.

- Greater than $5,000, the participant may receive a cash distribution or have the plan process an automatic rollover to an individual retirement plan designated by the plan administrator.

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting from information supplied by the Company, the Plan Administrator, and the Custodian.

Investment Valuation and Income Recognition
Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as unrealized gains and losses in investments still held at year-end.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Fair Values of Financial Instruments
The Plan has adopted FASB ASC 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under GAAP. FASB ASC 820-10 defines fair values, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements.

Under FASB ASC 820-10, assets and liabilities are grouped in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 – Valuation is based upon quoted prices for identical instruments traded in active markets.

- Level 2 – Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

- Level 3 – Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobserved assumptions reflect the Company's own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques include use of option pricing models, discounted cash flow models and similar techniques.

Under FASB ASC 820-10, the Plan bases fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon the Plan's estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future values.

The form of the plan identified above is acceptable under section 401 of the Internal Revenue Code for use by employers for the benefit of their employees.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 6: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7: Plan Expenses

The Plan pays regular administration fees to the Custodian. These fees totaled $2,327 and $2,180 for the years ended December 31, 2018 and 2017, respectively.

Note 8: Forfeited Accounts

Net increase in net assets available for benefits per the financial statements	$ 481,404
Excess contribution refunds	-
Net increase in assets available for benefits per the Form 5500	$ 481,404

Any excess contribution refunds are corrective action taken by the Company to ensure the Plan does not discriminate in favor of highly compensated employees. During the years ended December 31, 2018 and 2017, no excess contributions occurred. As such, the Plan issued no excess contribution refunds.

Note 10: ERISA Bond Requirements

The Employee Retirement Income Security Act of 1974 (ERISA) generally requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the plan year or $500,000. At December 31, 2018 and 2017, the Plan's sponsor maintained bond coverage in the amount of $500,000 which is sufficient to meet the required coverage according to ERISA.

Note 11: Timeliness of Contributions

Employee contributions are due to the Plan as soon as they can be reasonably segregated from the employer's general assets. For the year ended December 31, 2018 and 2017, the Plan had no instances in which the contributions were not remitted to the Plan in a timely manner.

Note 12: Subsequent Events

The Plan's administration has evaluated subsequent events through October 2, 2019 the date at which the financial statements were available to be issued, and determined no events have occurred that required disclosure.
