1. DESCRIPTION OF PLAN:

The following description of the Horizon Telcom 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees, as defined, of Horizon Telcom, Inc. and Horizon Chillicothe Telephone Company (collectively, the Company or Employer). Under the terms of the Plan, employees who are age 18 or older are eligible to participate in the Plan on their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 75% of eligible compensation, as defined, subject to certain limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers) and Roth contributions.

The Plan includes an automatic enrollment feature which automatically enrolls new employees other than seasonal employees at a 2% deferral rate after 30 days of employment. The employee has the opportunity to change the deferral rate or to opt out altogether. Effective October 12, 2018, new employees other than seasonal employees will be automatically enrolled after 35 days of employment, and automatic increases of 1%, up to 9%, will occur each year on a specific date, as defined.

The Plan provides for discretionary Employer matching contributions and annual discretionary non-elective Employer contributions to eligible employees, as defined by the Plan document. The Company made discretionary matching contributions equal to 100% of the first 3% of eligible participant's compensation plus 50% of the next 2% of the eligible participant's compensation contributed to the Plan during 2018 and 2017. The Company also made discretionary non-elective contributions of 2% of active participant's eligible compensation for the years ended December 31, 2018 and 2017.

Participant accounts

Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of the Employer's discretionary non-elective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in all contributions plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service, death, disability, or retirement, a participant may elect to receive vested benefits in a single lump-sum distribution or in optional installments according to plan limitations. Participants may also make a withdrawal during employment due to hardship, as defined by the IRC, and upon reaching age 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when paid. As of December 31, 2018 and 2017, no allowance for credit losses has been recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant notes receivable or other participant-directed transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Reclassification

Certain amounts in the 2017 financial statements have been reclassified to conform to the 2018 presentation.

3. INFORMATION PREPARED AND CERTIFIED BY PLAN TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017 and the supplemental schedule of assets (held at end of year) as of December 31, 2018, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Money market fund: Equivalent to cash and valued at \$1 per share, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Assets at Fair Value as of December 31, 2018

5. PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are management by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company (Fidelity), the trustee of the Plan. Therefore, these transactions qualify as party in interest transactions.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. INCOME TAX STATUS:

The Plan elected to adopt a volume submitter profit sharing plan of Fidelity. The Internal Revenue Service (IRS) issued an opinion letter dated March 31, 2014 that the plan is designed in accordance with applicable sections of the IRC. While the Plan has since been amended, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the financial statements.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The safe harbor match is equal to 100% of the first 3% of eligible participant's compensation plus 50% of the next 2% of the eligible participant's compensation contributed to the Plan. Additionally, the automatic enrollment was increased to a deferral rate of 5% after 35 days of employment for new employees and after 30 days for rehired employees.
