NOTE 1. DESCRIPTION OF PLAN

The following description of Altman Plants, Inc. 401(k) Retirement (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan became effective on January 1, 1992 and is a defined contribution plan covering all eligible employees of Altman Plants, Inc. (the "Company"). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Generally, employees who are not members of a collective bargaining agreement become eligible to participate in the Plan upon reaching the age of 18 and completion of three months of service.

Participant Contributions

Each payroll period participants may contribute from 1% to 100% of their eligible compensation, as defined in the Plan, subject to limitations imposed by the Internal Revenue Code ("IRC"). The Plan permits both pre-tax deferral contributions and after-tax amounts designated as "Roth" contributions. Participants who are age 50 or older are eligible to defer additional amounts (called "catch-up contributions") to the Plan up to the maximum allowed by the IRC. Participants may also contribute amounts representing rollover distributions from other qualified sources.

Employer Contributions

The Company may make discretionary matching contributions based on annual compensation and deferrals, excluding catch-up contributions, to participants eligible for the match, as defined. The Company may also make other employer discretionary contributions each Plan year. During 2018, the Company made no employer contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, any Company contributions, and allocations of Plan earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, participants direct the allocation of their accounts to any or all of the Plan's investment options. Subsequently, participants may change their allocation and transfer account balances between the investment options in accordance with the Plan. Contributions will be automatically directed to the Plan's qualified default investment alternative if no investment option has been selected. Certain fees may be charged to the Plan's investments.

Vesting

Participants are immediately vested in their own contributions, as well as any employer contributions, plus actual earnings thereon.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 and up to a maximum generally equal to the lesser of $50,000 or 50% of their vested account balance. A maximum of three notes may be outstanding at any time. Notes receivable are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. As of December 3,1 2018, the interest rate on outstanding loans was 2.00%. Principal and interest is paid directly to the account held for the participant in the Plan through payroll deductions. All notes receivable must be repaid within a 5-year period, unless the loan is used to acquire a principal residence, in which case, the Plan administrator may permit a longer repayment term. The balance of a note receivable becomes due immediately upon separation from employment from the Company. Any unpaid balance is treated as a distribution if not fully paid by the participant by the effective date of separation.

Payment of Benefits

The Plan provides that annuities are the normal form of distribution for the Plan. However upon termination, retirement, and/or attaining age 59½ participants may elect to receive a distribution of their account in a single lump-sum cash distribution, or defer the distribution if their account exceeds $5,000. Initial distributions must begin no later than the year following the year in which the participant reaches the age of 70½ or retires, whichever is later. Any vested benefits will be paid to a participant's beneficiary upon death of a participant. In addition, the Plan allows for hardship distributions from the participant's pre-tax deferral and Roth deferral contribution account balance.

Upon a participant's employment termination, the Plan may roll over a participant's vested account balance greater than $1,000 and less than $5,000 into an individual retirement account ("IRA") managed and maintained by the custodian of the Plan, if the participant has not elected to receive a lump sum cash distribution or have the balance rolled over into an IRA of his/her choosing. Also at its discretion, the Plan may elect to distribute vested account balance of less than $1,000.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to participant contributions. The Plan distributed the 2018 and 2017 accrued excess contributions to the applicable participants in April 2019 and March 2018, respectively.

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the investment in the guaranteed investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The guaranteed investment contract is a fully benefit-responsive investment contract which is reported at contract value. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 8 for further discussion of the guaranteed investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation or depreciation in investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated events through the date of the independent auditors' report, which is the date these financial statements were available to be issued.

NOTE 3. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their accounts.

NOTE 4. TAX STATUS

The Plan, through its adoption of a volume submitter plan from OneAmerica Financial Partners, Inc., has obtained an opinion letter from the IRS dated March 31, 2014 stating that the plan is qualified under Section 401(a) of the IRC and that any employer adopting this plan will be considered to have a plan qualified under the IRC. Once qualified, the plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and believes that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 5. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan's investments were held by American United Life Insurance Company ("OneAmerica"), the custodian of the Plan, as of December 31, 2018 and 2017. All investments are participant-directed. All investment information disclosed in the accompanying financial statements and supplemental schedule (Schedule H, Part IV, Line 4i), including investments held at December 31, 2018 and 2017, and net realized and unrealized depreciation in fair value of investments (including dividend income) and interest income for the year ended December 31, 2018, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the custodian of the Plan.

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

The Company provides administrative services for the Plan at no cost to the Plan. Certain Plan operating expenses are paid by the Company. Certain investments are managed by the custodian of the Plan. These transactions qualify as exempt party-in-interest transactions.

NOTE 7. FAIR VALUE MEASUREMENTS

Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 7. FAIR VALUE MEASUREMENTS (Continued)

Level 2

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement for the asset or liability at the measurement date. These inputs reflect Plan management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and in the inputs to the model.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2018 and 2017.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 5,287,499	$ -	$ -	$ 5,287,499
Total investments at fair value	$ 5,287,499	$ -	$ -	$ 5,287,499

	December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 5,241,339	$ -	$ -	$ 5,241,339
Total investments at fair value	$ 5,241,339	$ -	$ -	$ 5,241,339

There were no transfers between Levels 1 and 2, and no transfers in or out of Level 3 investments between December 31, 2017 and 2018.

NOTE 8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains one investment option in a guaranteed investment contract, the American United Life ("AUL") Fixed Account (the "Contract"), which is a traditional investment contract. The underlying investment options of this contract are considered to be fully benefit-responsive and therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The average interest rate credited to participants during the year ended December 31, 2018 was 1.03%. The crediting rate is reviewed on a quarterly basis for resetting. As of December 31, 2018, the guaranteed rate was 1.75%.

The determination of credited interest rates, as determined by AUL, reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder. The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

NOTE 8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Fixed Account does not permit AUL to terminate the agreement prior to the scheduled maturity date.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the accompanying financial statements.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

Add: Excess contributions payable	54,653	67,629

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2018:

Increase in net assets available for benefits per the financial statements		$ 104,912

Less:	Excess contributions payable at December 31, 2017	(67,629)
	Net income per the Form 5500	$ 91,936

NOTE 11. SUBSEQUENT EVENT

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
