ICF Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Description of the Plan

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF Retirement Savings Plan (the "Plan"), to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Eligibility and Contributions

Upon employment, employees are eligible to participate in the Plan, with exception of employees covered by a collective bargaining agreement, nonresident aliens, bona fide residents of Puerto Rico, and leased employees. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

The Company matches participants' pre-tax and after-tax contributions at the rate of 100 percent of a participant's 401(k) contributions that are attributable to the first 3 percent of the participant's compensation plus 50 percent of the participant's contributions that are attributable to the next 2 percent of the participant's compensation.

All employer contributions are deposited into investment funds according to the participant's investment selections for his or her contributions.

Vesting

Participants vest immediately in their pre-tax and after-tax contributions, rollover contributions, employer matching contributions, and any earnings thereon.

Notes Receivable from Participants

Plan participants may borrow from the Plan up to the lesser of 50 percent of their vested account balances or \$50,000. The minimum loan amount is \$500. No more than one general purpose loan and one principal residence loan may be outstanding at any time. Principal and interest on the loans are paid back to the Plan through payroll deductions. Interest is based on prime plus 1 percent. The interest rates on loans outstanding as of December 31, 2018 and 2017 ranged from 4.25 percent to 6.25 percent, respectively. Generally, the loans must be repaid within five years, unless the loan was used for the purchase of a primary residence, in which case the term may be ten years. At December 31, 2018 and 2017, the Plan's outstanding notes receivable from participants were \$4,159,346 and \$3,983,467, respectively.

Distributions

Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment as defined by the plan agreement and Section 401(k) of the Internal Revenue Code ("IRC").

Upon termination of service, if the vested value of the participant's account is \$1,000 or less, the participant's benefits will be paid in a lump-sum unless the Vanguard Fiduciary Trust Company (the "Trustee" or "Vanguard") is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than \$1,000, but less than or equal to \$5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account with the Trustee unless the Trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than \$5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of ten years, or to leave the account in the Plan. If no request is made and the account is greater than \$5,000, the participant's account will remain in the Plan.

Administrative Expenses

A portion of the administrative costs associated with the Plan are paid by the Company. Recordkeeping and investment management fees are netted against net appreciation (depreciation) in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Participant Accounts

The Plan maintains an account for each participant. Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and plan earnings. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis. The account balances may be charged for fees related to transactions and loans.

2. Summary of Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for further information regarding fair value.

Net appreciation (depreciation) of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investments if purchased during the year. Fees netted against net appreciation (depreciation) in fair value of investments represent fees charged by the Trustee and sponsoring mutual fund companies for services provided in connection with recordkeeping and investment management.

The Plan invests in common collective trusts that determine fair value using the net asset value ("NAV") of the funds. The NAV is determined by each fund's trustee using the fair values of the underlying securities.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

December 31, 2018 and 2017

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 23, 2019, the date the accompanying financial statements were available to be issued.

3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

ICF Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds are based on quoted market prices of the shares held by the Plan at year-end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

The Vanguard Retirement Savings Trust III is a stable value common collective trust with Vanguard. This trust invests primarily in intermediate-term investment contracts issued by insurance companies ("GICs"), investment contracts issued by commercial banks ("BICs"), synthetic investment contracts comprising underlying assets and a "wrapper" contract issued by a third party, and cash equivalents represented by units in Vanguard's money market portfolios, all of which are subject to the credit quality standard established by the Vanguard Fiduciary Trust Company.

During 2017, the Plan transferred its investments in the Vanguard Institutional Target Retirement mutual funds into a lower cost share class, the Vanguard Target Retirement common collective trusts. The collective trusts are valued at the NAV of units of bank collective trusts. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Accordingly, this fair value measurement is excluded from the fair value hierarchy.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2018				
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

4. Investments, Unaudited

The Plan's investments and notes receivable from participants are held by the Trustee in a trust for the Plan. The investment assets, transactions, income, and notes receivable from participants as presented in the accompanying financial statements and supplemental schedule were certified to be complete and accurate by the Trustee as of December 31, 2018 and 2017 and for the year ended December 31, 2018.

The following is a disclosure of individual investments, as a percentage of net assets available for benefits that represent a significant concentration as of December 31, 2018 and 2017:

	2018	2017
Vanguard Institutional Index Fund	14 %	14 %

5. Related Party and Party-In-Interest Transactions

Certain plan investments are managed by Vanguard and therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees paid by the Plan for investment management services to Vanguard also are party-in-interest transactions.

Fees incurred by the Plan for the investment manager services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants remain fully vested in their account balances.

7. Tax Status

The Plan is based on a prototype plan which received an opinion letter on May 28, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.
