INDEPENDENT AUDITOR'S REPORT

To the Trustees of Americo Bancshares, Inc.
Employee Stock Ownership Plan
Wolfforth, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Americo Bancshares, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2018 and 2017, the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and 2017, and the changes in its net assets available for benefits for the year ended December 31, 2018 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, line 4j - Schedule of Reportable Transactions, as of December 31, 2018 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and directly relates to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying and other records used to prepare the financial statements or to the financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

AMERICO BANCSHARES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2018

Note 1 – Description of the plan:

The following description of the Americo Bancshares, Inc. (the "Company") Employee Stock Ownership Plan (the "Plan") provides only general information. The plan document should be referred to for a more complete description of the Plan's provisions.

General

The Company established the Plan, effective January 1, 2014 and the Plan operates as an employee stock ownership plan ("ESOP"). As of December 31, 2015, the Plan was amended and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by a Board of Trustees comprised of three people appointed by the Company's Board of Directors (the "Committee"). Financial Consulting Group is the third party administrator for the Plan.

Direct transfers from the Profit Sharing Plan

In the initial year of the Plan, the Plan purchased company stock using discretionary Employer contributions, and proceeds from a direct transfer to the Trustee of all or portions of participants' accounts in the American Bank of Commerce 401(k) Profit Sharing Plan (the "Profit Sharing Plan"), as elected by each participant. These direct transfers from the Profit Sharing Plan were made pursuant to rules established by the Committee, and were applied on a uniform and non-discriminatory basis. Such direct transfers were accounted for separately and subject to the right of each Participant to direct its investment into company stock. If no such directions were provided by the Participant to the Trustee, the Committee provided the necessary direction. During the plan year ending December 31, 2018, there have been no additional direct transfers from the Profit Sharing Plan.

Loan Acquisitions

The Trustee may incur acquisition loans from time to time to finance the acquisition of Company Stock for the Trust, or to repay a prior acquisition loan. An Acquisition Loan shall be for a specific term, shall bear a reasonable rate of interest, and shall not be payable on demand except in the event of default. An Acquisition Loan may be secured by a collateral pledge of the financed shares so acquired, and any other Plan assets which are permissible security under the provisions of 26 CFR Section 54.4975-7(b). No other assets of the Plan or Trust may be pledged as collateral for an Acquisition Loan, and no lender shall have any recourse against any other Trust assets. As of December 31, 2018, the Plan had not entered into such an agreement.

Eligibility

Any employee of the Company who has completed one year of service, defined as 1,000 hours of service in one calendar year, and is 21 year of age or older will become eligible to participate in the Plan as of the January 1 or July 1 coincident with or following the date the requirements have been satisfied.

Employer contributions

For each plan year, the Company may make non-elective contributions in the form of cash or shares of Company stock, or both, to the Plan from its current or accumulated profits as determined by the Board of Directors within applicable regulatory guidelines.

Administrative expenses

As provided in the plan document, administrative expenses may be paid either by the Plan or by the Company. During the year ended December 31, 2018, the Plan paid expenses totaling $10,082. Other operating expenses incurred during the year were paid by the Company.

Note 1 – Description of the plan (continued):

Payment of benefits

If a participant separates from service prior to normal retirement age of 62 for reasons other than total and permanent disability or death, he or she shall be entitled to the portion of the account that is non-forfeitable in a lump sum as soon as practicable following the close of the plan year in which the separation occurs. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions for other separations of service shall commence not later than one year after the close of the plan year in which the separation occurs and may be paid in a lump sum or substantially equal periodic payments at least annually over a period of five years unless otherwise allowed in the plan document for participant account balances over $800,000.

Voting rights

All company stock in the trust shall normally be voted by the trustee in such manner as it shall determine in its sole direction, however with respect to any corporate matter which involved the voting of company stock as to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business or such similar transactions as may be prescribed in the IRC or regulations promulgated thereunder, each participant will be entitled to direct the trustee as to the exercise of any voting rights attributable to shares of the company stock then allocated to his Employee Stock Ownership stock account, but only to the extent required by sections 401(a)(22) and 409(e)(3) of the IRC and the regulation promulgated thereunder. In that event, the trustee shall vote allocated shares for which it has received no direction and unallocated shares in accordance with the fiduciary standards of Title I of ERISA.

Participant accounts

The Plan is a defined contribution plan under which a separate account is maintained for each participant's share of employer contributions, forfeitures and trust earnings as allocated. Employer contributions and forfeitures are allocated among the participants eligible to receive an allocation in the Plan in proportion to their compensation for the year. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Plan earnings are allocated to each participant's account balance based on the ratio of the participant's compensation for the year as defined by the Plan document.

Vesting

For participants with service prior to January 1, 2014, every three calendar years of service in which 1,000 hours of service is completed will be counted as one year of service. For the purpose of direct transfers of funds from the Profit Sharing Plan, years of service shall include any years that are considered for vesting purposes under the Profit Sharing Plan. The calendar years after January 1, 2014 in which 1,000 hours are completed will be counted as one year of service. The participant shall have a non-forfeitable right to his or her account in accordance with the following schedule:

Years of Service	Non-forfeitable Percentage
Less than two years	0%
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six years or more	100%

Note 1 – Description of the plan (continued):

Put option

In the event Company stock is not publicly traded within the meaning of 26 CFR Section 54.4975-7(b)(1)(iv), the Company shall issue a put option to each participant or beneficiary receiving a distribution of Company stock from the Plan. The put option shall permit the participant or beneficiary to sell the Company stock at its fair market value, as determined annually by an independent appraiser, to the Company. The Company may make payment for the distribution elected under the put option as a lump sum or in substantially equal annual installments with reasonable interest over a period not exceeding five years.

Diversification

Diversification is offered the participants close to retirement so that they may have the opportunity to move part of their investment in employer stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The Plan may satisfy the requirements of the diversification by offering at least three investment options to the participant. In addition, if the participant consents, the Plan may distribute the portion of the employer stock covered by the election.

Forfeitures

For the years ended December 31, 2018 and 2017, forfeited non-vested accounts totaled $4,083 and $8,139, respectively. These amounts, if any, can be used to reinstate previously forfeited account balances, to reduce future employer contributions, to pay administrative expenses, or to be allocated to remaining participant accounts. These amounts were held in cash at December 31, 2018 in order to accumulate for the payment of future administrative expenses.

Note 2 – Summary of significant accounting policies:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments

Investment in the capital stock of the Company, a closely held corporation, is stated at fair market value as determined by an annual independent appraisal. This appraisal is based on a combination of the market and income valuation methods consistent with prior years. The appraiser considers historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Contributions and redemptions of the stock are based on the fair market value of the stock.

Benefit distributions

Benefit distributions are recorded when Plan assets are distributed related to a participant's termination of employment or as otherwise required by the Plan document.

Note 2 –Summary of significant accounting policies (continued):

Risks and uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 3 – Termination of the plan:

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC. Additionally, each affected employee's benefits will become fully vested upon Plan termination.

Note 4 – Investments and income recognition:

Investments are reported at fair market value. Fair market value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements. The fair market values of the stock at December 31, 2018 and 2017 are as follows:

	2018	2017
Americo Bancshares, Inc., common stock		
Number of shares	3,577	3,248
Cost	$ 377,754	$ 326,874
Fair market value	$ 593,782	$ 502,303

During the year ended December 31, 2018 and 2017, the Plan's investments appreciated in value by $40,599 and $102,807, respectively.

Purchases and sales of stock are recorded on a trade-date basis. Interest income and dividend income are recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year based upon the valuation of an independent third party appraiser.

Note 5 – Tax status:

In its latest determination letter dated March 16, 2015, the Internal Revenue Service stated that the Plan's prototype, as then designed, was in compliance with the applicable requirements of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Section 740, *Income Taxes*, requires extensive disclosures about uncertain income tax positions. The requirements under this standard are also applicable to employee benefit plans. The plan administrator evaluates any uncertain tax positions using the provisions of ASC 450, *Contingencies*. Accordingly, a loss contingency is recognized when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management's judgment with respect to the likely outcome of each uncertain tax position.

Note 5 – Tax status(continued):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The amount that is ultimately sustained for an uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. The plan administrator does not believe that the Plan has engaged in any situation that would result in an uncertain tax position. As a result, the plan administrator does not believe that any uncertain tax positions currently exist and therefore, no loss contingency has been recognized in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Concentrations:

The Plan is invested entirely in the stock of Americo Bancshares, Inc. Americo Bancshares, Inc. is a financial banking institution operating in the State of Texas. The value of assets in the Plan is directly related to all economic factors affecting Americo Bancshares, Inc.

Note 7 – Fair value measurements:

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

The fair market value of the Americo Bancshares, Inc. common stock is calculated based upon significant unobservable inputs. The common stock is valued using a third party appraiser and was calculated based upon a valuation performed as of September 30, 2018. Management does not believe that the fair value of the shares has materially changed between September 30, 2018 and December 31, 2018.

Note 7 – Fair value measurements (continued):

The preceding method described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair market values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair market value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2018 or 2017.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair market value as of December 31, 2018:

	Fair Market Value	Level 3
Americo Bancshares, Inc., common stock	$ 593,782	$ 593,782

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair market value as of December 31, 2017:

	Fair Market Value	Level 3
Americo Bancshares, Inc., common stock	$ 502,303	$ 502,303

The table below sets forth a summary of changes in the fair market value of the Plan's level 3 assets for the year ended December 31, 2018:

	2018	2017
Beginning balance	$ 502,303	$ 359,704
Purchase of common stock	50,880	39,792
Net appreciation in fair market value	40,599	102,807
Ending balance	$ 593,782	$ 502,303

Note 8 – Related party and party-in-interest transactions:

The Plan invests in Company common stock. This is a related party and party-in-interest transaction. As described in Note 1, the Plan has a third party administrator as a service provider that is a party-in-interest under ERISA.

Note 9 – Subsequent events:

Management has evaluated subsequent events through September 30, 2019, which is the date on which the financial statements are available to be issued.
