Note 1—Plan description

The following description of Passion Growers, LLC 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is maintained for the employees of Passion Growers, LLC and subsidiary, Top Team, LLC (collectively referred to as the "Company" or the "Employer").

General – The Plan is a defined contribution plan sponsored by the Company for the benefit of its employees who have one year of service and are age 21 or older. The Plan, as amended, was formed and adopted in January 1, 2017, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company management has the overall responsibility for the operation and management of the Plan. The Company management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Employee Contributions – Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, without exceeding limitations prescribed by the Internal Revenue Code ("IRC"). Participants may begin making contributions to the Plan after becoming eligible to participate. The entry dates to the Plan are the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or following the satisfaction of the eligibility requirements. Participants may contribution Roth elective deferrals. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan.

Employer Contributions – The Employer can make discretionary matching contributions based on the employee elective contributions and compensation during 2018. The Employer elected to match 100% of the participant's elective deferral contribution up to 3% of the participant's annual contribution, plus 50% of the participant's elective deferral contribution over 3% up to 5% of the participant's annual compensation. During 2018, matching contributions were approximately $211,000.

Participant Investment Account Options – The Plan currently offers various mutual funds as investment options for participants. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions as well as allocation of (a) the Company's contribution, (b) Plan earnings (losses), (c) forfeitures, and (d) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their elective contributions as well as any rollover contributions, plus or minus any earnings or losses thereon. Participants are automatically 100% vested in the matching contributions made by the Employer.

Payment of Benefits – Participants are allowed in-service withdrawals of their participants' vested interest in his or her account upon attainment of retirement age or in the event of a financial hardship. Upon termination of employment, a participant is entitled to the entire participant account balance, which includes all of the vested Employer's contributions allocated to the participant's account and all gains or losses attributable thereto. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Note 1—Plan description (continued)

Hardship Distribution – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant. Participant voluntary contributions are suspended for six months after receipt of a hardship distribution.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments held by the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Three levels of inputs that may be used to measure fair value are:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 2—Summary of significant accounting policies (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no significant changes in the methodologies used during the years ended December 31, 2018 and 2017.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are included within Level 1 of the fair value hierarchy.

Money Market Account – This investment is a cash equivalent and is valued using amortized cost to the extent that periodic fair value approximates market value. The amortized cost is provided by the administrator of the fund. The amortized cost is classified within Level 2 of the valuation hierarchy because unit prices are quoted on an active market and are made up of mostly cash or high-quality money market funds which are based on the value of $1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of distributions to participants may be charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits – Benefits are recorded when they have been processed and paid by the Plan.

Note 3—Investment information certified by the Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Charles Schwab Bank, the "Trustee" of the Plan, as complete and accurate, except for comparing such information to the information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

	December 31,	
	2018	2017
Investments at fair value:		
Mutual funds	$ 814,629	$ 361,970
Money market account	18,125	7,227
	$ 832,754	$ 369,197

	Year Ended December 31, 2018
Net depreciation in fair value of investments	$ 73,382
Interest and dividend income	$ 16,035

Note 4—Fair value measurements

The following summarizes the Plan's investments based upon the fair value hierarchy discussed in Note 2:

December 31, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Money market fund *	$ -	$ 18,125	$ -	$ 18,125
Mutual funds *	814,629	-	-	814,629
	$ 814,629	$ 18,125	$ -	$ 832,754

December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Money market fund *	$ -	$ 7,227	$ -	$ 7,227
Mutual funds *	361,970	-	-	361,970
	$ 361,970	$ 7,227	$ -	$ 369,197

*Amounts are unaudited. See Note 3.

Note 5—Party-in-interest transactions

Certain Plan investments and the related transactions as of December 31, 2018 and 2017, and for the year ended December 31, 2018, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan incurred administrative expenses related to the Plan operations totaling approximately $1,600 for the year ended December 31, 2018. Fees were based on customary and reasonable rates for such services.

Note 6—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Note 7—Income tax status

The IRS has determined that the non-standardized 401(k) plan is designed in accordance with applicable sections of the IRC and informed the Trustee of such in a letter dated March 31, 2014. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 8—Risks and uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9—Subsequent events

The Plan's management evaluated subsequent events through October 2, 2019 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.

Note 1—Plan description

The following description of Passion Growers, LLC 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is maintained for the employees of Passion Growers, LLC and subsidiary, Top Team, LLC (collectively referred to as the "Company" or the "Employer").

General – The Plan is a defined contribution plan sponsored by the Company for the benefit of its employees who have one year of service and are age 21 or older. The Plan, as amended, was formed and adopted in January 1, 2017, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company management has the overall responsibility for the operation and management of the Plan. The Company management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Employee Contributions – Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, without exceeding limitations prescribed by the Internal Revenue Code ("IRC"). Participants may begin making contributions to the Plan after becoming eligible to participate. The entry dates to the Plan are the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or following the satisfaction of the eligibility requirements. Participants may contribution Roth elective deferrals. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan.

Employer Contributions – The Employer can make discretionary matching contributions based on the employee elective contributions and compensation during 2018. The Employer elected to match 100% of the participant's elective deferral contribution up to 3% of the participant's annual contribution, plus 50% of the participant's elective deferral contribution over 3% up to 5% of the participant's annual compensation. During 2018, matching contributions were approximately $211,000.

Participant Investment Account Options – The Plan currently offers various mutual funds as investment options for participants. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions as well as allocation of (a) the Company's contribution, (b) Plan earnings (losses), (c) forfeitures, and (d) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their elective contributions as well as any rollover contributions, plus or minus any earnings or losses thereon. Participants are automatically 100% vested in the matching contributions made by the Employer.

Payment of Benefits – Participants are allowed in-service withdrawals of their participants' vested interest in his or her account upon attainment of retirement age or in the event of a financial hardship. Upon termination of employment, a participant is entitled to the entire participant account balance, which includes all of the vested Employer's contributions allocated to the participant's account and all gains or losses attributable thereto. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Note 1—Plan description (continued)

Hardship Distribution – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant. Participant voluntary contributions are suspended for six months after receipt of a hardship distribution.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments held by the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Three levels of inputs that may be used to measure fair value are:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 2—Summary of significant accounting policies (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no significant changes in the methodologies used during the years ended December 31, 2018 and 2017.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are included within Level 1 of the fair value hierarchy.

Money Market Account – This investment is a cash equivalent and is valued using amortized cost to the extent that periodic fair value approximates market value. The amortized cost is provided by the administrator of the fund. The amortized cost is classified within Level 2 of the valuation hierarchy because unit prices are quoted on an active market and are made up of mostly cash or high-quality money market funds which are based on the value of $1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of distributions to participants may be charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits – Benefits are recorded when they have been processed and paid by the Plan.

Note 3—Investment information certified by the Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Charles Schwab Bank, the "Trustee" of the Plan, as complete and accurate, except for comparing such information to the information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

	December 31,	
	2018	2017
Investments at fair value:		
Mutual funds	$ 814,629	$ 361,970

	Year Ended December 31, 2018

Note 4—Fair value measurements

The following summarizes the Plan's investments based upon the fair value hierarchy discussed in Note 2:

December 31, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Money market fund *	$ -	$ 18,125	$ -	$ 18,125
Mutual funds *	814,629	-	-	814,629
	$ 814,629	$ 18,125	$ -	$ 832,754

December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

	$ 361,970	$ 7,227	$ -	$ 369,197

*Amounts are unaudited. See Note 3.

Note 5—Party-in-interest transactions

Certain Plan investments and the related transactions as of December 31, 2018 and 2017, and for the year ended December 31, 2018, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan incurred administrative expenses related to the Plan operations totaling approximately $1,600 for the year ended December 31, 2018. Fees were based on customary and reasonable rates for such services.

Note 6—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Note 7—Income tax status

The IRS has determined that the non-standardized 401(k) plan is designed in accordance with applicable sections of the IRC and informed the Trustee of such in a letter dated March 31, 2014. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 8—Risks and uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9—Subsequent events

The Plan's management evaluated subsequent events through October 2, 2019 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.

Note 1—Plan description

The following description of Passion Growers, LLC 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is maintained for the employees of Passion Growers, LLC and subsidiary, Top Team, LLC (collectively referred to as the "Company" or the "Employer").

General – The Plan is a defined contribution plan sponsored by the Company for the benefit of its employees who have one year of service and are age 21 or older. The Plan, as amended, was formed and adopted in January 1, 2017, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company management has the overall responsibility for the operation and management of the Plan. The Company management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Employee Contributions – Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, without exceeding limitations prescribed by the Internal Revenue Code ("IRC"). Participants may begin making contributions to the Plan after becoming eligible to participate. The entry dates to the Plan are the first day of the Plan year or the first day of the seventh month of such Plan year coinciding with or following the satisfaction of the eligibility requirements. Participants may contribution Roth elective deferrals. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of all contributions into various investment options offered by the Plan.

Employer Contributions – The Employer can make discretionary matching contributions based on the employee elective contributions and compensation during 2018. The Employer elected to match 100% of the participant's elective deferral contribution up to 3% of the participant's annual contribution, plus 50% of the participant's elective deferral contribution over 3% up to 5% of the participant's annual compensation. During 2018, matching contributions were approximately $211,000.

Participant Investment Account Options – The Plan currently offers various mutual funds as investment options for participants. Each investment option has its own investment strategy, which can be obtained through the prospectus of the respective fund. Participants may change their investment options at their discretion.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions as well as allocation of (a) the Company's contribution, (b) Plan earnings (losses), (c) forfeitures, and (d) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their elective contributions as well as any rollover contributions, plus or minus any earnings or losses thereon. Participants are automatically 100% vested in the matching contributions made by the Employer.

Payment of Benefits – Participants are allowed in-service withdrawals of their participants' vested interest in his or her account upon attainment of retirement age or in the event of a financial hardship. Upon termination of employment, a participant is entitled to the entire participant account balance, which includes all of the vested Employer's contributions allocated to the participant's account and all gains or losses attributable thereto. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Note 1—Plan description (continued)

Hardship Distribution – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant. Participant voluntary contributions are suspended for six months after receipt of a hardship distribution.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan's administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments held by the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Three levels of inputs that may be used to measure fair value are:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Note 2—Summary of significant accounting policies (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value. There have been no significant changes in the methodologies used during the years ended December 31, 2018 and 2017.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are included within Level 1 of the fair value hierarchy.

Money Market Account – This investment is a cash equivalent and is valued using amortized cost to the extent that periodic fair value approximates market value. The amortized cost is provided by the administrator of the fund. The amortized cost is classified within Level 2 of the valuation hierarchy because unit prices are quoted on an active market and are made up of mostly cash or high-quality money market funds which are based on the value of $1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recognized when earned. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses – Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of distributions to participants may be charged directly to the participant's account and included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits – Benefits are recorded when they have been processed and paid by the Plan.

Note 3—Investment information certified by the Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Charles Schwab Bank, the "Trustee" of the Plan, as complete and accurate, except for comparing such information to the information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

	December 31,	
	2018	2017
Investments at fair value:		
Mutual funds	$ 814,629	$ 361,970

	Year Ended December 31, 2018
Net depreciation in fair value of investments	$ 73,382
Interest and dividend income	$ 16,035

Note 4—Fair value measurements

The following summarizes the Plan's investments based upon the fair value hierarchy discussed in Note 2:

	$ 361,970	$ 7,227	$ -	$ 369,197

*Amounts are unaudited. See Note 3.

Note 5—Party-in-interest transactions

Certain Plan investments and the related transactions as of December 31, 2018 and 2017, and for the year ended December 31, 2018, were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan incurred administrative expenses related to the Plan operations totaling approximately $1,600 for the year ended December 31, 2018. Fees were based on customary and reasonable rates for such services.

Note 6—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Note 7—Income tax status

The IRS has determined that the non-standardized 401(k) plan is designed in accordance with applicable sections of the IRC and informed the Trustee of such in a letter dated March 31, 2014. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 8—Risks and uncertainties

The Plan provides for various investment options which are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9—Subsequent events

The Plan's management evaluated subsequent events through October 2, 2019 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.
