Note 1 – Description of the Plan

The following description of Our Gang Savings Incentive Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended, is a defined contribution plan, which was established in May 1969 to provide retirement benefits to employees of Polly's, Inc. and its subsidiaries and affiliated entities (collectively, the Company). Employees are eligible to participate in the Plan with respect to making salary reduction contributions, receiving discretionary profit sharing contributions and receiving discretionary matching employer contributions if they attained age 18 and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Fidelity Management Trust Company (Fidelity) is the trustee of all plan assets and Fidelity Investments is the recordkeeper of all plan assets.

Contributions

Participants can elect to contribute up to a certain percentage of their pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 or older by the end of the calendar year are eligible to make catch-up contributions. The Plan also allows for Roth elective deferrals. Participants may also contribute amounts representing distributions from other eligible retirement plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company's contributions to the Plan are discretionary and determined each year by the Company's Board of Directors. Such contributions can be made in the form of a matching or profit sharing contribution. The Company contributed $75,374 in matching contributions for the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions as well as an allocation of plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000, up to 50% from their vested account balance, up to a maximum of $50,000. Loans are secured by the balance in the participant's account and bear interest at rates determined by the plan administrator to be commensurate with local prevailing rates. Principal and interest are applied ratably through payroll deductions.

Payment of Benefits

A participant's plan benefits will be distributed at retirement, death, disability, or termination of employment. The entire vested account balance will be paid in a single distribution or other distribution method that participants may elect.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings on such contributions. Company discretionary matching contributions begin vesting after a participant's second year of service and are fully vested after four years of service. Company discretionary profit sharing contributions vest at 20% per year after a participant's second year of service and are fully vested after six years of credited service.

Forfeitures

Forfeited non-vested accounts are retained in the Plan and used first to pay Plan expenses then to reduce future Company contributions. As of December 31, 2018, $5,622 of forfeitures are available to pay Plan expenses or reduce employer contributions.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), except for benefits paid to participants, which are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments held during the year and includes the Plan's gains and losses on investments bought and sold during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Excess contributions payable represent amounts payable to participants and the Company for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) and are recorded as a liability with a corresponding reduction to participant contributions and employer contributions, respectively. The Plan distributed the 2018 excess contributions prior to August 1, 2019. The Plan distributed the 2017 excess contributions prior to March 15, 2018.

Administrative Expenses

The Company pays some of the administrative expenses of the Plan. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 – Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to be complete and accurate by the trustee:

	2018	2017
Investments at Fair Value		
Shares of registered investment companies	$ 8,564,009	$ 9,240,788
Notes Receivable from Participants	64,316	77,955
Investment Income (Loss)		
Dividend income	387,953	
Interest income	34,077	
Net depreciation in fair value of investments	(822,269)	
Interest Income on Notes Receivable from Participants	3,296	

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies (mutual funds): valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is quoted at market prices in active markets for identical assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as of December 31, 2018			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies (mutual funds):	$ 8,564,009	$ 8,564,009	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Assets at Fair Value as of December 31, 2017			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies (mutual funds):	$ 9,240,788	$ 9,240,788	$ -	$ -

Note 5 – Party in Interest Transactions

Fidelity manages certain Plan investments. Fidelity is the trustee as defined by the Plan and Fidelity Investments is the recordkeeper of the Plan and, therefore, these transactions qualify as party in interest transactions. These transactions are considered exempt under Section (3)(14) of ERISA.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to provisions of ERISA. In the event of termination of the Plan, the accounts of each participant shall become fully vested.

Note 8 – Income Tax Status

The Plan obtained an opinion letter from the IRS on March 31, 2014. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator believes the tax positions taken will, more likely than not, be sustained under examination by the applicable tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
