1. DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Rockpoint Group, L.L.C. 401(k) Profit Sharing Plan was established on October 1, 2003. The Plan covered eligible employees of Rockpoint Group, L.L.C. Westbrook Real Estate Partners, L.L.C., WHW Investment Management, L.L.C. and Rockhill Management LLC (collectively the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan excludes from participation, among others, employees covered by a collective bargaining agreement, and employees who are nonresident aliens.

As of December 31, 2018, all investments of the Plan were and are held by Charles Schwab Bank (the "Trustee"). The Trustee holds the Plan's assets in a single trust and invests the assets among several investment options designated by the participant.

Participant Eligibility

All eligible employees employed by the Company will be eligible to participate in the plan on the date they are hired. They are entered into the plan on the first day of the following month.

Contributions

The Plan permits participants may elect to defer not less than 1% of eligible compensation and not more than 75% of eligible compensation on a pre-tax basis or after-tax basis under Section 401(k) of the Internal Revenue Code (the "Code"). Contributions were limited to a maximum of $18,500 for the year ended December 31, 2018, or such other limit prescribed by Section 402 of the Code. All contributions are made through payroll deductions. The contribution percentage(s) can be changed or stopped entirely at any time.

Company Match

The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount. All participant must complete a three-month service eligibility condition prior to receiving the discretionary match. Each year, the Company will determine the formula for the discretionary matching contribution. For the Plan year ended December 31, 2018, the Company elected not to make a matching contribution.

Vesting

Participants are 100% vested in the value of their cumulative contributions and earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. The expenses charged to the Plan may be charged pro rata to each participant in relation to the size of each participant's account balance or may be charged equally to each participant.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period not more than your assumed life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants
Participants may borrow against their individual accounts under certain conditions. Participant loans range between a minimum of $1,000 and a maximum of the smaller of $50,000 or 50% of the employee's vested account balance. Participant loans carry an interest rate of prime plus 1% and must be repaid within five years or a period not to exceed fifteen years if such loan is to be used for the purchase of a participant's principal residence. Participants may only have one loan outstanding at any time.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - GAAP
The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with generally accepted accounting principles.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Investments Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation included the plan gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
A significant portion of the administrative expenses of the Plan are paid by the Company.

Use of Estimates in the Preparation of Financial Statements
The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires plan administrators to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, results could differ from those estimates.

3. FAIR VALUE MEASUREMENTS

ASC 820 establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded and are classified within Level 1 of the valuation hierarchy.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued based on the closing price reported on the active market where the individual securities are traded and are classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table presents by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2018 and 2017. As required by ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2018			
	Total	Level 1	Level 2	Level 3

Total Plan investments in the fair value hierarchy	$ 19,614,568	$ 19,614,568	$ -	$ -

	Assets at Fair Value as of December 31, 2017

(a) In accordance with Topic 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code.

5. PARTY-IN-INTEREST TRANSACTION

The Plan has not considered Company contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions.

6. RISK AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risk such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. PLAN TERMINATION

The Company intends to continue the Plan indefinitely; however, it may discontinue its contributions and terminate the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, all participants have a non-forfeitable right to the entire value of their accounts.

8. INFORMATION CERTIFIED BY TRUSTEE

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank (the trustees of the Plan).

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through September 25, 2019, which is the date the financial statements were available to be issued.
