Report on the Financial Statements

We were engaged to audit the accompanying financial statements of SPX US Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2018 and 2017 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by JPMorgan Chase Bank, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2018 and 2017 that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2018 and reportable transactions for the year ended December 31, 2018 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Note 1 - Plan Description

The following description of the SPX US Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective August 31, 2015, the Plan was amended, and the accrued benefits of all participants were frozen, except individuals whose participation in the Plan is governed by a collective bargaining agreement.

Effective December 31, 2017 and January 31, 2018, the Plan was amended, and the accrued benefits of all participants of the Weil-McLain Union and the SPX Transformer Solutions Union, respectively, were frozen. The impact of the December 31, 2017 amendment is reflected in the actuarial present value of accumulated plan benefits as of December 31, 2017, as reported in Note 8. The impact of the January 31, 2018 amendment is not reflected in the actuarial present value of accumulated plan benefits as of December 31, 2017.

General

The Plan is a defined benefit plan that provides for retirement, death, and disability benefits for all eligible employees of SPX Corporation (the "Company") and those of its subsidiaries that adopt the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Operations

Under a trust agreement, JPMorgan Chase Bank, N.A. (the "Trustee") was appointed trustee of the Plan. In accordance with the powers and duties of the Trustee, as designated by the Company, the Trustee administers the Plan in accordance with the orders of the SPX Corporation Retirement and Welfare Plan Administrative Committee and invests the Plan's assets and the income therefrom, as directed by the Plan's investment manager. Administrative fees incurred in administering the Plan are paid from the assets of the Plan.

Eligibility and Vesting

As noted above, the Plan is frozen to new participants and no further benefits are accrued for any participants. Beginning on January 31, 2018, no further benefits are accrued for all participants. Salaried and nonunion hourly employees became fully vested upon the completion of three years of service, and individuals hired on or after January 1, 2001 were not eligible to participate. Employees governed by a collective bargaining agreement became fully vested upon the completion of five years of service, and individuals hired on or after December 31, 2010 were not eligible to participate.

Pension Benefits

The Plan provides for payment of normal retirement, early retirement, disability retirement, and death benefits to its participants, as calculated under the provisions of the Plan.

Under the terms of the Plan, effective July 1, 1997, benefits for the former IARP Plan's general salaried and management employees of the Company are governed under a cash balance plan. In addition, former employees of General Signal Corporation, which merged into the Plan on December 31, 1998, are also governed by this cash balance plan. The cash balance account consists of any initial account balance at July 1, 1997 or December 31, 1998, as applicable; employer contribution credits; interest credits; and any applicable transition credits. Employer contribution credits are equal to 4 percent of the participants' compensation, as defined by the Plan, for each calendar year. Interest credits are based on the participants' cash balance accounts at December 31 of the prior calendar year multiplied by the average five-year U.S. Treasury rate of each business day of November of the prior calendar year. Transitional credits are available to participants who meet certain requirements, as defined in the Plan.

December 31, 2018 and 2017**Note 1 - Plan Description (Continued)**

Eligible employees governed under terms of the former Bargaining Unit Plan are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, as described in the Plan. For these employees, the individual pension benefit is equal to credited service multiplied by the monthly pension basic benefit in effect on the date the employee terminates service, as set forth in the Plan and union agreements. Special provisions for retirement at other than the normal retirement age are described in the Plan and union agreements.

Funding

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. There were no required contributions in 2018 and 2017.

Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefits Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Note 2 - Summary of Significant Accounting Policies***Investment Valuation***

If available, quoted market prices are used to value investments. When quoted market prices are not available, various valuation techniques are utilized and observable inputs are prioritized to determine fair value. The insurance contracts are valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The common/collective trusts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. The mutual funds, government securities, and corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. Investments in partnerships, 103-12 investment entity, and hedge funds are valued at NAV per share (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for fund activity and other applicable valuation adjustments. For investments valued at NAV, there are no redemption restrictions or unfunded commitments. All other investments, including short-term investments consisting primarily of a money market mutual fund, are valued based on quoted market prices. See Note 6 for additional information.

Benefit Payments

Benefits are recorded when paid.

December 31, 2018 and 2017**Note 2 - Summary of Significant Accounting Policies (Continued)*****Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to the following:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are calculated based on the specific provisions outlined in the plan agreement.

Actuarial Assumptions

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2017 are summarized as follows:

Actuarial cost method	Unit credit cost method
Assumed rate of return	4.00 percent
Mortality and disability basis	RP-2014 Mortality Tables for males and females adjusted by 11.7 percent for actual experience projected using the generational MP-2017 improvement scale
Retirement basis	The participants will retire upon becoming eligible for normal retirement
Retirement age	A scale ranging from 2.5 percent between the ages of 55 and 59 and 100 percent at age 67

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 13, 2019, which is the date the financial statements were available to be issued.

December 31, 2018 and 2017**Note 2 - Summary of Significant Accounting Policies (Continued)*****Reclassification***

In 2018, it was determined that an investment classified as a global equity common/collective trust, valued at \$4.7 million as of December 31, 2017, should have been classified as 103-12 investment entity. The investment valuation did not change from being valued at NAV. It was also noted that an investment previously classified as a fixed-income common/collective trust, valued at \$12.1 million as of December 31, 2017, should have been disclosed as a mutual fund. Previously, this investment was valued at NAV and not included in the fair value hierarchy, but should have been classified as a Level 2 investment in the fair value hierarchy. Accordingly, the 2017 fair value disclosures have been restated for these changes.

Note 3 - Unaudited Information

JPMorgan Chase Bank, N.A. (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information certified by the Trustee. Additionally, the Plan invests in certain investments managed by the Trustee.

Note 4 - Securities Lending

On December 6, 2006, the SPX Corporation Retirement and Welfare Plan Administrative Committee entered into a separate agreement with the Trustee. The agreement authorizes the Trustee to lend securities held in the Plan's accounts to third parties (the "Borrower"). Under the terms of the agreement, the Trustee must obtain collateral from the Borrower, generally cash or acceptable securities, having market value of 102 percent of the loaned securities for U.S. securities and 105 percent of the loaned securities for non-U.S. securities. Both the collateral and the securities loaned are marked to market on a daily basis, with additional collateral obtained or refunded as necessary. The agreement term is indefinite; however, in the event that the loaned securities are not returned by the Borrower, the Trustee will, at its own expense, either replace the loaned security or, if unable to purchase those securities on the open market, credit the Plan's accounts with cash equal to the fair value of the loaned securities. Investment income, excluding any realized or unrealized gains or losses from securities lent, was approximately \$11,000 and \$31,000 during the years ended December 31, 2018 and 2017, respectively.

The collateral received pursuant to securities lending transactions is reflected as a liability in the statement of net assets available for benefits at December 31, 2017. There was no noncash collateral received as of December 31, 2017. To the extent that a loan of securities is secured by collateral, such collateral is invested in pooled investments managed by the Trustee. At December 31, 2017, these pooled investments were primarily invested in short-term investments, including money market mutual funds and interest-bearing cash valued at outstanding balances. The Plan bears the risk of loss (reward of gain) with respect to unfavorable (favorable) changes in the fair value of the invested collateral. If applicable, this difference in value of the investments purchased with the cash collateral received and the amount due to the Borrower upon return of securities on loan is recorded as an unrealized gain (loss) and is included in the statement of changes in net assets available for benefits in net realized and unrealized gains (losses) on investments for 2018 and 2017.

December 31, 2018 and 2017**Note 4 - Securities Lending (Continued)**

Although the Plan's securities lending activities are collateralized as described above, and although the terms of the securities lending agreement with the Trustee require the Trustee to comply with government rules and regulations related to the lending of securities held by ERISA plans, the securities lending program involves both market and credit risk. In this context, market risk refers to the possibility that the Borrower of securities will be unable to collateralize the loan upon a sudden material change in the fair value of the loaned securities or the collateral, or that the Plan's investment of collateral received from the Borrower of the Plan's securities may be subject to unfavorable market fluctuations. Credit risk refers to the possibility that counterparties involved in the securities lending program may fail to perform in accordance with the terms of their contracts.

Effective April 30, 2018, the Plan completed all securities lending transactions, with the Plan paying approximately \$406,000 to settle all outstanding transactions.

Note 5 - Net Transfers from Other Plans

Effective December 31, 2018, the participants of the Clyde Union Company Retirement Plan (the "Clyde Plan") were merged into the Plan, resulting in the transfer of assets of \$737,172 relating to the Clyde Plan. After the merger of the Clyde Plan into the Plan, and the related transfer of investments under such merged plan to the trustee/recordkeeper of the Plan, participants and beneficiaries in such merged plan shall participate in the Plan under the terms and conditions of the Plan. The Plan's projected benefit obligation will increase by approximately \$975,000 as a result of the merger, which is not reflected in the accumulated plan benefit as of December 31, 2017.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (3) This class represents investments in private equity funds related primarily to venture capital.

December 31, 2018 and 2017

Note 7 - Derivative Financial Information

During 2018 and 2017, one of the Plan's investment managers was permitted to invest plan assets in derivative securities. The derivatives used by this manager are highly liquid exchange-traded fixed-income futures securities. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits and changes in net assets available for benefits; however, the credit risk associated with these contracts is considered minimal, as they are traded on organized exchanges and settled daily. The use of these derivatives securities is for gaining market exposure to the U.S. Treasury bond market.

There is no collateral held by the Plan in connection with the derivative agreements.

The notional amount represents the contract amount, not the amount at risk. The notional amount of the future contracts was approximately \$53,000,000 and \$127,000,000 at December 31, 2018 and 2017, respectively. Gross assets and gross liabilities associated with the future contracts were approximately \$257,000 and \$149,000, respectively, at December 31, 2018. Gross assets and gross liabilities associated with the future contracts were approximately \$131,000 and \$97,000, respectively, at December 31, 2017. Derivatives are presented on a net basis. Net gains (losses) related to futures were approximately \$484,000 and \$(943,000) for the years ended December 31, 2018 and 2017, respectively. The related gains and losses are recorded in net realized and unrealized gains on investments.

Note 8 - Benefit Obligations

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from Willis Towers Watson. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of and for the year ended December 31, 2017, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 71,835,688
Other vested participants	198,835,265
Total vested benefits	270,670,953

Nonvested benefits	162,138
--------------------	---------

Total actuarial present value of accumulated plan benefits	<u>\$ 270,833,091</u>
--	-----------------------

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2017 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 273,074,850
Increase (decrease) during the year attributable to:	
Benefits accumulated	398,819
Actuarial gains	116,040
Interest due to the decrease in the discount period	10,623,052
Changes in actuarial and other assumptions	1,310,775
Benefits paid	(15,794,749)
Plan amendments	1,104,304
Net decrease	<u>(2,241,759)</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 270,833,091</u>

For the year ended December 31, 2017, the change in actuarial and other assumptions was primarily due to the change in the mortality improvement scale from MP-2016 to MP-2017.

December 31, 2018 and 2017

Note 9 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The assumed plan-related expenses added to the target normal cost were changed from \$2,970,000 for the prior valuation to \$2,600,000 for the current valuation to account for lower expected expenses to be paid from the trust.

The lump sum election percentage for USPP non-union terminated vested participants was updated from 80% to 60% to reflect recent experience.

Schedule SB, Line 25 Change in Method

Changes in Assumptions and Methods

Change in methods since prior valuation

The method of determining Actuarial Value of Assets last year was to set the Actuarial Value of Assets equal to the Market Value of Assets. This year the method of determining Actuarial Value of Assets was updated to smooth gains and losses over two 12-month periods. Since a "fresh start" approach was elected as part of this method change, the current valuation sets Actuarial Value of Assets equal to Market Value of Assets phasing the 12-month smoothing in over the next two years.

The above change in method is deemed to be automatically approved in accordance with Revenue Procedure 2017-56.

Cash Balance Interest Crediting Rate

The actual known interest rate in the first year of valuation (2.05% in 2018) and the 5-year average of actual rates in the second year and thereafter (1.63% in 2019 and beyond).

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC Section 415. Plan compensation is limited to the maximum presently allowed under IRC Section 401(a)(17). No provision is made for future increase in the maximum annual benefit or compensation limit.

Conversion Basis for Lump Sum Form of Payment

Lump sums were valued using the PPA valuation interest rates and mortality tables.

Form of Payment

In the USPP cash balance plan, participants are assumed to elect a lump sum unless another option is significantly more valuable.

Other USPP non-union active and terminated vested participants are assumed to elect a lump sum 80% and 60% of the time, respectively.

For the other benefit structures, participants are generally assumed to elect a life annuity.

Marriage

90% of all active participants are assumed to be married at retirement or death before retirement. The female spouse is assumed to be three years younger than the male spouse.

Employees

It was assumed that there will be no new or rehired employees.

Valuation date

First day of plan year.

Funding Target

Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost

Present value of benefits expected to accrue during the year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Asset Method

Average of the fair market value of assets on the valuation date and the 12 and 24 months preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the plan year).

The asset method described above was first elected on January 1, 2018. The fresh-start approach was elected as part of the asset method and therefore the actuarial value of assets as of January 1, 2018 is equal to the market value of assets, including present value of receivables.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the actual known interest rate in the first year of valuation and the 5-year average of actual rates in the second year and thereafter. Our long term estimate of the 30-year Treasury rate is 1.63%, based on a combination of current conditions, past history, including relationships to other assumptions such as CPI, and future economic expectations.
Lump sum conversion rate	<p>Lump sum benefits are valued using a long term assumption for the plan's lump sum conversion rate that is not significantly inconsistent with what would be reasonable and consistent with other economic assumptions used, other than the discount rate.</p> <p>Lump sum benefits are valued assuming that the current lump sum conversion rate remains unchanged in the future.</p>

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by group (i.e. bargaining versus non-bargaining) due to expected differences in termination rates between these groups.</p>
Disability	Disability rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement

Retirement rates were based on a published pension table for a population believed to have similar characteristics to the plan's population, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Assumed retirement rates differ by group (i.e. executive versus non-executive) because of expected differences in retirement rates between these groups.

Benefit commencement date for deferred benefits:

■ Deferred vested benefit

Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement.

Form of payment

The percentage of retiring participants assumed to take lump sums who are eligible for them is based on observed experience.

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Sources of Data and Other Information

The plan sponsor and plan administrator furnished participant data as of 1/1/2018. Information on assets, contributions and plan provisions were also supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

Plan Name: SPX US Pension Plan
EIN / PN: 38-1016240/003
Plan Sponsor: SPX Corporation
Valuation Date: January 1, 2018

SCHEDULE SB ATTACHMENTS

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement based on RP-2000 projected with Scale AA.

The assumed plan-related expenses added to the target normal cost were changed from \$2,970,000 for the prior valuation to \$2,600,000 for the current valuation to account for lower expected expenses to be paid from the trust.

The lump sum election percentage for USPP non-union terminated vested participants was updated from 80% to 60% to reflect recent experience.

Change in methods since prior valuation

The method of determining Actuarial Value of Assets last year was to smooth gains and losses over three 8-month periods. This year a fresh start approach was adopted, with the current valuation using Market Value of Assets phasing 12-month smoothing in over the next two years.

Credited Service

Credited Service is used to determine benefit amounts under the plan. For each calendar year of employment, if a participant works at least 1,750 hours, one year of credited service is granted. For a year in which less than 1,750 hours are worked, a partial year of credited service is granted as follows:

Hours	Credited Service
1,750 or more	1.0
1,575 to 1,749	0.9
1,400 to 1,574	0.8
1,225 to 1,300	0.7
1,050 to 1,224	0.6
875 to 1,049	0.5
700 to 874	0.4
525 to 699	0.3
350 to 524	0.2
Less than 350	0.0

Except for military leave and certain leaves for union business, credited service does not accrue during unpaid leaves of absence.

Credited service is frozen as of October 31, 2015.

A one-time pension enhancement was provided to Goldsboro active participants who were accruing benefits on August 31, 2015. The benefit enhancement includes extra benefit service accruals through 2017. All participants in this group were granted full service accruals through 2017 for purposes of this enhancement.

Vesting (Continuous) Service

Elapsed time. Continuous service is used to determine eligibility for benefits under the plan. It is measured from date of hire to date of termination. Participants that terminate and are rehired within 12 months have the period of absence recognized as continuous service.

Summary of Principal Plan Provisions – Main IARP

Effective Date

The plan was originally effective July 1, 1997. The last amendment reflected herein is effective January 31, 2018 and adopted December 18, 2017.

Coverage and Participation

Salary, nonunion hourly employees and union Waukesha employees, except those employed as wage employees at Contech or Acutex, of SPX Corporation. Employees hired after December 31, 2000 are not covered by this plan.

An employee shall become eligible to participate on his date of hire if he is employed as of the first anniversary of employment or date of coverage under this plan if later.

Credited Service

A participant is granted Credited Service equal to continuous service as a salaried employee based on complete years and days divided by 365 rounded up to the nearest one hundredth of a percent. After June 30, 1997 additional Credited Service will accrue only for Grandfathered participants. Certain acquisitions may have granted service for periods with a prior employer. This must be by amendment.

Credit service was frozen as of August 31, 2015 for non-union participants and as of January 31, 2018 for Waukesha union participants.

Vesting (Continuous) Service

An employee shall be granted one year of Continuous Service for each complete year of employment with the Company from date of hire. For partial years, days are divided by 365 and rounded up to the nearest one hundredth of a percent. Certain acquisitions may have granted service for periods with a prior employer. This must be by amendment.

Compensation

Cash Balance compensation includes regular earnings, vacation, holiday, overtime pay and certain bonuses paid the year before termination. It also includes amounts contributed to the 401(k) plan and the cafeteria plan. It does not include severance pay, fringe and welfare benefits, moving expenses, deferred compensation and certain bonuses paid in the year in which termination occurs.

Normal Retirement Benefit

Normal Retirement Eligibility: Age 65 with 5 years of Vesting Service

Benefit Formula: For all active participants on July 1, 1997 (December 31, 1998 for the General Signal Corporate or Hourly Plan), the Accrued Benefit was converted to an initial pension account balance. The plan will update this cash balance account each December 31:

- With interest at 5-year treasuries as of the month of November preceding the plan year; and
- With principal credits equal to 4% of pay up to the wage base and 8% of pay over the wage base.
- With additional principal credits for certain key employees.

Grandfathered or participants with transition benefits are entitled to receive at least the minimum benefit as described under the individual plan agreements.

For non-union participants, a one-time pension enhancement was provided to active participants who were accruing benefits on August 31, 2015 and were not participants in the Top Management Plan. The benefit enhancement was equal to the participant's expected pay credits for cash balance participants or expected service for Grandfathered Plan participants through 2017. No pay increases are included.

For Waukesha union participants eligible for this benefit, a one-time pension enhancement was provided to active participants who were accruing benefits on January 31, 2018. The benefit enhancement is equal to the participant's expected pay credits for cash balance participants through January 31, 2018.

Normal Form of Benefit: The standard form of payment is a Life Annuity if unmarried and a 50% Joint & Survivor Annuity, if married. The 50% Joint & Survivor Annuity is the Life Annuity actuarially reduced.

Late Retirement Benefit

The greater of the accrued benefit to actual retirement date and the accrued benefit at normal retirement actuarially increased to late retirement date. If a vested deferred participant applies after normal retirement date, retroactive annuity start date rules apply.

Accrued Benefits

The Accrued Benefit is the Account Balance as of the date of determination and the actuarial equivalence of this Account Balance in the form of a monthly benefit payable immediately. The Grandfathered Accrued Benefit is the benefit determined under the various Grandfathered and transition benefit provisions as of the date of determination payable at the Normal Retirement Age.

Grandfathered Minimum Accrued Benefits

Benefits accrued prior to conversion to a cash balance plan are protected. SPX participants with 10 years of service and 50 age-plus-service points on June 30, 1997 will receive the greater of their cash balance benefit or the benefit formula in effect at conversion.

General Signal participants on January 1, 1999 who had completed 5 years of Vesting Service and attained age 45 by that date are eligible for the Transition Benefit if retirement occurs at or after age 55.

The Transition Benefit shall be an alternate benefit, determined as follows:

- A. The Participant's Transition Account Balance at Early Retirement Age, which is at or after age 55, shall be converted to an Actuarially Equivalent annuity, payable at Normal Retirement Age. The Participant's Transition Account Balance is the same as the regular cash balance account, with the exception that effective January 1, 1999, certain employees are entitled to Special Transition Principal Credits equal to 7% of pay up to the wage base and 11% of pay over the wage base.
- B. The monthly amount payable (determined above) to the Participant at Normal Retirement Age shall be reduced by $\frac{1}{4}$ percent per month for each month prior to the participant's 62nd birthday that the participant's Early Retirement Date occurs.
- C. The Participant may request payment of his/her benefit in any optional form otherwise available under the Plan. The amount of any optional form of benefit shall be the Actuarial Equivalent of the amount determined above, expressed as a single life annuity. If the Participant requests a lump sum payment, the Actuarial Equivalent of the amount payable at the Participant's Early Retirement Age shall be determined and, if larger than the Participant's Account Balance, shall be paid instead of the account balance.

Normal Retirement Eligibility: First month coinciding with or next following 65th birthday and 5 years of vesting service.

Benefit Formula: Accrued benefit at normal retirement date.

Normal Form of Benefit: Life annuity if single; 50% Joint and Survivor if married.

Accrued Benefits

As of any applicable date, a participant's accrued benefit is the sum of the larger of 1 or 2 and 3, where

1. The sum of (a) and (b) below:
 - a. The sum of 1 % of Final Average Earnings plus 1/2% of the excess of the Final Average Earnings over \$6,600, all multiplied by Credited Service up to May 1, 1988;
 - b. The sum of 1% of the Final Average Earnings plus 1/2% of the excess of the Final Average Earnings over Covered Compensation, all multiplied by Credited Service after April 30, 1988; and
2. The difference between 40% of the Final Average Earnings and 60% of the participant's Primary Insurance Amount under the law in effect on the date of determination. If the participant is under 55 years old, the 40% factor will be adjusted by multiplying it by the ratio of credited service actually earned to the amount of credited service the participant could earn if he continued to work until normal retirement. This minimum benefit was frozen as of December 31, 1988 (i.e., participants were treated as if they terminated on December 31, 1988 for purposes of calculating this minimum benefit).
3. The frozen accrued benefit as of December 31, 1990 from the Retirement Annuity Plan for Employees of Layne & Bowler, Inc., if the employee was a participant in such prior plan on December 31, 1990.

A one-time pension enhancement was provided to active participants who were accruing benefits on August 31, 2015. The benefit enhancement increased the participant's accrued benefit 3% per annum through 2017.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
