NOTES TO FINANCIAL STATEMENTS

FIBER INSTRUMENT SALES, INC. 401(k) PROFIT SHARING PLAN

December 31, 2018 and 2017

NOTE A--DESCRIPTION OF THE PLAN

The following description of the Fiber Instrument Sales, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Fiber Instrument Sales, Inc., The Light Connection, Inc., Force Guided Relays International, Inc., Energy Efficient Products, Inc., Molding Solutions, Inc., Horsht, LLC, Mini Motel, Inc., FIS Blue, Inc., Cowsht, Inc. and Fermer Precision, Inc. (collectively referred to as the "Company" or the "Plan Sponsor") who are age twenty-one or older and have completed one year of service. A one year service requirement is also required to receive Company matching and discretionary profit sharing contributions. An employee is eligible to participate in the elective deferral, Company matching and Company discretionary profit sharing features of the Plan on the first day of January or the date six months later, coinciding with or next following the date the employee meets the one year service requirement. Effective March 19, 2018, the Plan was amended to reduce the service requirement to six months and require employees to be full-time, as defined by the Plan, in addition to attaining the age requirement as previously described, to participate in the Plan. The Plan is subject to the provisions of ERISA. The Trustees are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions: Participants may contribute tax-deferred and after-tax (Roth) dollars into the Plan ("elective deferral contributions") based on the lesser of 100% of annual compensation or $18,500 and $18,000 in 2018 and 2017, respectively. Contributions are subject to limitations determined by the Internal Revenue Service (IRS). Additionally, if a participant has or is projected to attain age 50 before the end of the Plan year, the participant may make "catch-up" contributions as determined by the IRS. Total contributions to a participant's account cannot exceed the lesser of 100% of a participant's annual compensation or $55,000 ($61,000 including catch-up contributions) for 2018 and $54,000 ($60,000 including catch-up contributions) for 2017. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company's matching contribution amounted to 25% of employee contributions (including catch-up contributions), limited to 5% of the participant's eligible compensation for the Plan years 2018 and 2017. Matching contributions totaled $124,885 and $123,703 for 2018 and 2017, respectively. The Company's discretionary profit sharing contribution was equal to 2% of eligible compensation, as defined by the Plan. Discretionary profit sharing contributions totaled $139,921 and $150,532 for 2018 and 2017, respectively.

NOTE A--DESCRIPTION OF THE PLAN--Continued

Participant Accounts: Each participant's account is credited with elective deferral contributions, Company matching contributions, Company discretionary profit sharing contributions and Plan earnings and charged with Plan losses. Plan earnings and losses are allocated based on account balances. Plan administrative expenses are deducted from Plan earnings and losses before those earnings and losses are credited to participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Receivables--Notes From Participants: Participants may borrow from their vested accounts a minimum of $1,000. The maximum amount of all loans outstanding cannot exceed the lesser of 50% of the vested account balance or $50,000 reduced by the highest outstanding loan balance at any time in the previous twelve months. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator (currently ranging from 3.25-5.25%). Participants are permitted to have only one loan outstanding at a time. Principal and interest are paid ratably through weekly payroll deductions over a period not to exceed five years, unless the loan is for the purpose of acquiring a principal residence, then the maximum period shall be fifteen years.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If a participant's vested account balance is $1,000 or less, the Plan may elect to automatically make a mandatory distribution following the participant's termination date.

Forfeited Accounts: At December 31, 2018 and 2017, forfeited non-vested accounts totaled $59,614 and $46,747, respectively. These accounts are used to reduce employer non-elective contributions and employer matching contributions, in a nondiscriminatory manner at the discretion of the Plan Administrator.

NOTE B--SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation and appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Receivables--Notes From Participants: Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on receivables--notes from participants is recorded on the accrual basis. Related fees are expensed when incurred. No allowance for credit losses has been recorded at December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Events Occurring After Report Date: The Plan Administrator has evaluated events and transactions that occurred between December 31, 2018 and September 30, 2019, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. There were no such events or transactions identified by the Plan Administrator.

Royal Alliance has not certified to the completeness and accuracy of these investments or to the activity generated from these investments for the years ending December 31, 2018 and 2017.

NOTE D--INVESTMENTS--ROYAL ALLIANCE (NOT CERTIFIED)--Continued

The following table presents the investments held at Royal Alliance in self-directed brokerage accounts at December 31, 2018 and 2017, at fair value:

	December 31, 2018	December 31, 2017

Common stocks	95,237	92,736
	$ 1,574,569	$ 1,611,806

NOTE E--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE E--FAIR VALUE MEASUREMENTS--Continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Interest-bearing cash: The fair value of interest-bearing cash approximates carrying value due to the nature of the instrument.

- Shares in registered investment companies: Valued at the daily closing price as reported by the registered investment companies. The registered investment companies are open-ended and are registered with the Securities and Exchange Commission. Registered investment companies are required to publish their daily net asset value and transact at that price. The shares held in registered investment companies are deemed to be actively traded.

- Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value December 31, 2018

NOTE F--RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party in interest transactions.

John Hancock and Royal Alliance are the Plan's custodians, as defined by the Plan and, therefore, transactions with these parties qualify as party in interest transactions. Fees paid by the Plan for investment management and contract administration services are customary for the services provided. Fees paid by the Plan for these services totaled $6,814 and $5,100 for the years ending December 31, 2018 and 2017, respectively.

Recordkeeping expenses are paid directly by the Plan Sponsor and amounted to $1,600 for the years ending December 31, 2018 and 2017. These expenses have been excluded from these financial statements.

John Hancock provides certain administrative services to the Plan pursuant to a Service and Expense Agreement between the Company and John Hancock. John Hancock receives revenue from the registered investment company service providers for services John Hancock provides to these funds. This revenue is used to offset certain amounts owed to John Hancock for its administrative services to the Plan. During the years ending December 31, 2018 and 2017, the excess revenues received by the Plan amounted to $7,708 and $6,878, respectively.

The Plan Administrator believes all party in interest transactions qualify for either statutory or administrative exemption from the prohibited transaction rules under ERISA.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

NOTE H--TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by Omega, Inc. The prototype plan has received a favorable determination letter dated March 31, 2014 from the IRS as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore, believe that the Plan is qualified and the related trust is tax-exempt. The Plan also allows for certain individuals to invest their retirement funds in self-directed brokerage accounts. The Plan Administrator believes that with regard to these investment options, the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE I-- DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2018 contributions totaling $2,000 were not remitted to the Plan within the time period prescribed by DOL regulations. The Plan Sponsor has calculated and remitted lost earnings to the Plan in accordance with applicable regulations.

NOTE J--RISKS AND UNCERTAINTIES

The Plan invests in various investment funds. The investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

FIBER INSTRUMENT SALES, INC. 401(k) PROFIT SHARING PLAN

December 31, 2018 and 2017

NOTE A--DESCRIPTION OF THE PLAN

The following description of the Fiber Instrument Sales, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Fiber Instrument Sales, Inc., The Light Connection, Inc., Force Guided Relays International, Inc., Energy Efficient Products, Inc., Molding Solutions, Inc., Horsht, LLC, Mini Motel, Inc., FIS Blue, Inc., Cowsht, Inc. and Fermer Precision, Inc. (collectively referred to as the "Company" or the "Plan Sponsor") who are age twenty-one or older and have completed one year of service. A one year service requirement is also required to receive Company matching and discretionary profit sharing contributions. An employee is eligible to participate in the elective deferral, Company matching and Company discretionary profit sharing features of the Plan on the first day of January or the date six months later, coinciding with or next following the date the employee meets the one year service requirement. Effective March 19, 2018, the Plan was amended to reduce the service requirement to six months and require employees to be full-time, as defined by the Plan, in addition to attaining the age requirement as previously described, to participate in the Plan. The Plan is subject to the provisions of ERISA. The Trustees are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Contributions: Participants may contribute tax-deferred and after-tax (Roth) dollars into the Plan ("elective deferral contributions") based on the lesser of 100% of annual compensation or $18,500 and $18,000 in 2018 and 2017, respectively. Contributions are subject to limitations determined by the Internal Revenue Service (IRS). Additionally, if a participant has or is projected to attain age 50 before the end of the Plan year, the participant may make "catch-up" contributions as determined by the IRS. Total contributions to a participant's account cannot exceed the lesser of 100% of a participant's annual compensation or $55,000 ($61,000 including catch-up contributions) for 2018 and $54,000 ($60,000 including catch-up contributions) for 2017. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company's matching contribution amounted to 25% of employee contributions (including catch-up contributions), limited to 5% of the participant's eligible compensation for the Plan years 2018 and 2017. Matching contributions totaled $124,885 and $123,703 for 2018 and 2017, respectively. The Company's discretionary profit sharing contribution was equal to 2% of eligible compensation, as defined by the Plan. Discretionary profit sharing contributions totaled $139,921 and $150,532 for 2018 and 2017, respectively.

NOTE A--DESCRIPTION OF THE PLAN--Continued

Participant Accounts: Each participant's account is credited with elective deferral contributions, Company matching contributions, Company discretionary profit sharing contributions and Plan earnings and charged with Plan losses. Plan earnings and losses are allocated based on account balances. Plan administrative expenses are deducted from Plan earnings and losses before those earnings and losses are credited to participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contribution portion of their accounts plus actual earnings thereon is as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Receivables--Notes From Participants: Participants may borrow from their vested accounts a minimum of $1,000. The maximum amount of all loans outstanding cannot exceed the lesser of 50% of the vested account balance or $50,000 reduced by the highest outstanding loan balance at any time in the previous twelve months. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator (currently ranging from 3.25-5.25%). Participants are permitted to have only one loan outstanding at a time. Principal and interest are paid ratably through weekly payroll deductions over a period not to exceed five years, unless the loan is for the purpose of acquiring a principal residence, then the maximum period shall be fifteen years.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If a participant's vested account balance is $1,000 or less, the Plan may elect to automatically make a mandatory distribution following the participant's termination date.

Forfeited Accounts: At December 31, 2018 and 2017, forfeited non-vested accounts totaled $59,614 and $46,747, respectively. These accounts are used to reduce employer non-elective contributions and employer matching contributions, in a nondiscriminatory manner at the discretion of the Plan Administrator.

NOTE B--SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodians. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation and appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Receivables--Notes From Participants: Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on receivables--notes from participants is recorded on the accrual basis. Related fees are expensed when incurred. No allowance for credit losses has been recorded at December 31, 2018 and 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Events Occurring After Report Date: The Plan Administrator has evaluated events and transactions that occurred between December 31, 2018 and September 30, 2019, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements. There were no such events or transactions identified by the Plan Administrator.

NOTE C--INVESTMENTS--INFORMATION CERTIFIED BY JOHN HANCOCK LIFE INSURANCE COMPANY OF NEW YORK (UNAUDITED)

The Plan also has investments held at Royal Alliance in self-directed brokerage accounts totaling $1,574,569 and $1,611,806 as of December 31, 2018 and 2017, respectively. Net (depreciation) and appreciation in fair value of investments totaled $(145,499) and $181,650 and interest and dividends totaled $67,642 and $51,975 as of December 31, 2018 and 2017, respectively. Royal Alliance has not certified to the completeness and accuracy of these investments or to the activity generated from these investments for the years ending December 31, 2018 and 2017.

NOTE D--INVESTMENTS--ROYAL ALLIANCE (NOT CERTIFIED)--Continued

The following table presents the investments held at Royal Alliance in self-directed brokerage accounts at December 31, 2018 and 2017, at fair value:

	December 31, 2018	December 31, 2017
Investments, at fair value:		
Interest-bearing cash	$ 62,652	$ 49,807
Shares in registered investment companies	1,416,680	1,469,263
Common stocks	95,237	92,736
	$ 1,574,569	$ 1,611,806

NOTE E--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE E--FAIR VALUE MEASUREMENTS--Continued

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

- Interest-bearing cash: The fair value of interest-bearing cash approximates carrying value due to the nature of the instrument.

- Shares in registered investment companies: Valued at the daily closing price as reported by the registered investment companies. The registered investment companies are open-ended and are registered with the Securities and Exchange Commission. Registered investment companies are required to publish their daily net asset value and transact at that price. The shares held in registered investment companies are deemed to be actively traded.

- Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	Investments at Fair Value December 31, 2018			
	Level 1	Level 2	Level 3	Total

NOTE F--RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party in interest transactions.

John Hancock and Royal Alliance are the Plan's custodians, as defined by the Plan and, therefore, transactions with these parties qualify as party in interest transactions. Fees paid by the Plan for investment management and contract administration services are customary for the services provided. Fees paid by the Plan for these services totaled $6,814 and $5,100 for the years ending December 31, 2018 and 2017, respectively.

Recordkeeping expenses are paid directly by the Plan Sponsor and amounted to $1,600 for the years ending December 31, 2018 and 2017. These expenses have been excluded from these financial statements.

John Hancock provides certain administrative services to the Plan pursuant to a Service and Expense Agreement between the Company and John Hancock. John Hancock receives revenue from the registered investment company service providers for services John Hancock provides to these funds. This revenue is used to offset certain amounts owed to John Hancock for its administrative services to the Plan. During the years ending December 31, 2018 and 2017, the excess revenues received by the Plan amounted to $7,708 and $6,878, respectively.

The Plan Administrator believes all party in interest transactions qualify for either statutory or administrative exemption from the prohibited transaction rules under ERISA.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

NOTE H--TAX STATUS

The Plan adopted a non-standardized form of a prototype plan sponsored by Omega, Inc. The prototype plan has received a favorable determination letter dated March 31, 2014 from the IRS as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and therefore, believe that the Plan is qualified and the related trust is tax-exempt. The Plan also allows for certain individuals to invest their retirement funds in self-directed brokerage accounts. The Plan Administrator believes that with regard to these investment options, the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE I-- DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2018 contributions totaling $2,000 were not remitted to the Plan within the time period prescribed by DOL regulations. The Plan Sponsor has calculated and remitted lost earnings to the Plan in accordance with applicable regulations.

NOTE J--RISKS AND UNCERTAINTIES

The Plan invests in various investment funds. The investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
