PROFIT-SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Rana USA Inc. 401(k) Profit-Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the published summary Plan booklet for a more complete description of the Plan's provisions.

General:

The Plan became effective on January 1, 2012. The Plan is a defined-contribution plan covering all employees of Rana USA Inc. (the Company) and participating affiliates as denoted in the Adoption Agreement. The purpose of the Plan is to enable eligible employees to save for retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan participation:

An employee of the Company shall become eligible to participate on the first day of the calendar month following the date on which the employee attains the age of 18 and has met the service requirement. As of January 1, 2017, the Plan Sponsor amended the Plan to increase the service requirement for eligibility to one month of service.

Contributions:

Each year, participants may contribute up to the lesser of 90% of pre-tax annual compensation as defined in the Plan or the maximum amount as allowed by the Internal Revenue Code (the Code). Contributions can be made on a regular 401(k) "pre-tax" basis or on a Roth 401(k) "after-tax" basis. Participants may also contribute rollover amounts representing distributions from other qualified plans. As of October 1, 2017, the Plan Sponsor amended the Plan to include a traditional Automatic Contribution Arrangement thereby automatically enrolling all participants who are not deferring any amount and who did not make a timely Affirmative Election to not contribute elective deferrals at a rate of 4% of compensation per pay period. The automatic deferral will increase annually by 1% up to a maximum of 10%.

Employees who elect deferral contributions to the Plan are also eligible for a 50% Company match up to the first 6% of compensation deferred. Matching contributions are determined each payroll period.

In addition, the Company may make an annual discretionary profit-sharing contribution in an amount to be determined at Plan year-end by the Company's Board of Directors. A participant must be employed as of the last day of the Plan year to be eligible for a profit-sharing contribution. There were no discretionary profit-sharing contributions for the year ended December 31, 2018.

1. Description of the Plan (continued)

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings and decreased with the participant's withdrawal and allocations of administrative expenses. A participant directs his or her and the Company's contributions in the various investment options offered by the Plan. Allocations are based on participant's earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

A participant's vested portion of the employer contribution amounts plus earnings thereon credited to his or her account is based on the number of years of service to the Company.

For the years ended December 31, 2018 and 2017, the vested portion is determined in accordance with the following schedule:

Years of service	Vested portion
Less than 2	0%
At least 2 but less than 3	20%
3 or more	100%

Participants will become fully vested in their employer contributions and earnings upon death and total and permanent disability.

Participants are vested immediately in their contributions plus earnings thereon.

Investment options:

The Plan currently offers a variety of mutual funds and a common collective trust fund as investment options for participants.

1. Description of the Plan (continued)

Payment of benefits:

A participant becomes entitled to benefits under the Plan upon normal retirement, death, disability or other termination of employment. Benefit payments are generally paid in a lump-sum as soon as practicable after employment with the Company has ended. Participants who terminate with account balances greater than $5,000 may elect to leave their account balances in the Plan.

Until such time as the funds are distributed, the participant is entitled to receive a pro-rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as an eligible rollover distribution.

Participant loans:

A participant may borrow from their fund accounts amounts not to exceed the lesser of $50,000 or 50% of the vested portion of the balance with the minimum loan amount being $500. The term of all loans shall be 60 months or less (360 months for purchase of principal residence). Participants may only have one loan outstanding at a given time. The loan interest rate is determined by the Plan Administrator based on interest rates charged for similar types of loans by other lenders. Interest rates for outstanding loans ranged from 4.50% to 6.25% and from 4.50% to 5.50% as of December 31, 2018 and 2017, respectively.

Forfeitures:

If a participant terminates employment and is less than 100% vested in the employer account, then he or she may forfeit the nonvested portion of the employer account. A forfeiture will occur in the Plan year that a distribution of the entire vested account balance is received or after five consecutive one-year breaks in service if a distribution is not made. Forfeitures of employer matching contributions are used to reduce the Company's future matching contributions or to reduce administrative expenses. The Company used $39,381 of accumulated forfeitures towards matching contributions during the year ended December 31, 2018. There were $10,611 and $18,142 of forfeiture account balances at December 31, 2018 and 2017, respectively.

2. Summary of significant accounting policies

Basis of accounting:

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at net asset value (NAV) of shares held by the Plan at year-end.

Units of the common collective trust fund are valued based on the net asset value per share as a practical expedient. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative expenses:

All administrative costs, charges and expenses are paid by the Plan to the extent not paid by the Company.

Payment of benefits:

Benefits are recorded when paid.

2. Summary of significant accounting policies (continued)

Notes receivable from participants:

As described in Note 1, the Plan allows for participants to borrow against their vested account balance and the loan is secured by the participant's account balance. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are repaid ratably through regular payroll deductions and loan defaults are treated as distributions. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans determined to be uncollectible. As of December 31, 2018 and 2017, no allowance for uncollectible loans was deemed necessary.

3. Investments (information prepared and certified by Reliance Trust Company (the Custodian))

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in these financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Custodian.

The Custodian certified the fair value of investments of $3,500,385 and $2,911,525 as of December 31, 2018 and 2017, respectively. Notes receivable from participants of $105,734 and $102,356 were also certified by the Custodian at December 31, 2018 and 2017, respectively.

For the year ended December 31, 2018, the Plan's investments (including gains and losses on investments bought, sold and held during the year) depreciated in value in the amount of $(349,485). Dividend income was $109,226 and interest on participant loans was $5,667 for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Plan termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

5. Tax status of the Plan

The Company has received a favorable determination letter from the Internal Revenue Service dated July 16, 2014, stating that the Plan is in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and is being operated in accordance with applicable rules and regulations of the Code and, therefore, believes that the Plan is qualified and related trust is tax-exempt.

6. Party-in-interest transactions

Administrative fees of $8,275 for the year ended December 31, 2018 were paid to the third party administrator. Plan consulting fees of $15,780 for the year ended December 31, 2018 were paid to a third party consultant.

7. Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

Add: other distributions payable		20,629
Net assets available for benefits per Form 5500	**$ 3,606,119**	$ 3,013,881

Plus: excess contributions liability	14,468
Minus: prior year other distributions payable	(20,629)
Minus: prior year excess contributions liability	(91,595)
Net increase in net assets available for benefits per Form 5500	$ 592,238

8. Risks and uncertainties

The Plan provides for various investment options in any combination of interests in registered investment entities. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

9. Fair value measurements

There are three levels of inputs used to measure fair value. The definition of each input is described below:

Level 1	Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

9. Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds:	Valued at the net asset value (NAV) of shares held by the Plan at year-end.
Common collective trust fund:	Valued at the NAV of shares held by the Plan. NAV is determined to be contract value, the value at which participants ordinarily transact. The practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. In addition, the Company reports certain investments using the NAV per share as determined by certain funds known as the practical expedient.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Investments at fair value as of December 31, 2018:

December 31, 2018	**Level 1**	**Total**
Mutual funds	**$ 3,347,545**	**$ 3,347,545**
Common collective trust fund measured at NAV*		**152,840**
Total investments at fair value	**$ 3,347,545**	**$ 3,500,385**

9. Fair value measurements (continued)

Investments at fair value as of December 31, 2017:

December 31, 2017	Level 1	Total
Mutual funds	$ 2,784,861	$ 2,784,861
Common collective trust fund measured at NAV*		126,664
Total investments at fair value	$ 2,784,861	$ 2,911,525

*Certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017:

Investment	**2018**	2017	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund	**$ 152,840**	$ 126,664	N/A	Daily	None

10. Excess contributions refundable

At December 31, 2018 and 2017, payables of $14,468 and $91,595, respectively, were recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

11. Subsequent events

The Plan Administrator has reviewed and evaluated subsequent events from December 31, 2018, the financial statement date, through October 3, 2019, the date the financial statements were available to be issued. Subsequent to year-end, the Plan amended the terms of the Plan to allow participants to have two loans outstanding at any one time. No other events have occurred in this period that would be required to be recognized and/or disclosed in these financial statements as required by generally accepted accounting principles.
