NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Capitol Ultrasonics Company 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Capitol Ultrasonics Company, LLC (the Company and the Employer) who are age twenty-one or older and have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to the maximum amount of pre-tax compensation allowed by law, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes an amount equal to 100% of the participants' elective deferral up to 3% of the participants' base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company. During the year ended December 31, 2018, the Company did not make an additional profit sharing contribution to the Plan. Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts: Each participant's account is credited with the participant's and the Company's matching contribution as well as allocations of the Company's profit sharing contribution and Plan earnings. Participants are charged with an allocation of administrative expenses that are charged to the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account plus actual earnings thereon is based on years of active service as follows:

Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

CAPITOL ULTRASONICS COMPANY 401(K) PLAN
BATON ROUGE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan (continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, reduced by the excess of the participant's highest outstanding principal loan balance during the 12-month period ending on the date of the loan over the participant's current outstanding principal loan balance on the date of the loan. The loans are secured by the vested balance in the participant's account and bear interest based on current market rates, as defined by the Plan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, a distribution in the form of an annuity, or a combination of both. In-service distributions are permitted after a participant reaches the age of 59 ½ and is 100% vested in the plan. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeitures: Amounts that are forfeited due to a participant's termination of employment prior to vesting in company contributions made on the participant's behalf are used to pay Plan expenses or reduce future matching employer contributions. During the year ended December 31, 2018, forfeitures used to offset employer contributions were \$6,200. Unallocated forfeited balances remaining in plan assets as of December 31, 2018 and 2017, were \$27,948 and \$6,254, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at estimated fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

CAPITOL ULTRASONICS COMPANY 401(K) PLAN
BATON ROUGE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant does not make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 and 2017 excess contributions to the applicable participants prior to March 15, 2019 and 2018, respectively.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses while expenses for items such as record keeping are allocated to participants. Investment-related expenses are included in net depreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

CAPITOL ULTRASONICS COMPANY 401(K) PLAN
BATON ROUGE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

3. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Pooled separate accounts: Each pooled separate account invests its assets solely in the shares or units of an underlying mutual fund, and the investment objective of each subaccount corresponds to the investment objective of the underlying fund. The value of each pooled separate account is determined using various inputs, such as the net asset value (NAV) of the shares of the underlying mutual fund held at year end adjusted for administrative expenses and other charges. These investments have not been classified in the fair value hierarchy table. As of December 31, 2018 and 2017, there are no unfunded commitments related to these investments and the investor may redeem these assets daily.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds that are valued on the basis of readily determined market prices.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

3. Fair Value Measurements (continued)

Assets at Fair Value as of December 31, 2017

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Self-directed brokerage accounts	\$ 99,513	\$ -	\$ -	\$ 99,513
Pooled separate accounts (a)				6,862,208
Total assets at fair value				<u>\$ 6,961,721</u>

(a) The pooled separate accounts are measured using NAV as a practical expedient. These investments have not been classified in the fair value hierarchy table. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Group Annuity Contract with Insurance Company

The Plan entered into a fully benefit-responsive guaranteed investment contract with Transamerica Life Insurance Company (Transamerica) totaling \$115,141 and \$61,216 at December 31, 2018 and 2017, respectively. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, and there is no stated minimum or maximum interest rate. The crediting rate is reviewed on a semi-annual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract.

BATON ROUGE, LOUISIANA
NOTES TO FINANCIAL STATEMENTS

4. Group Annuity Contract with Insurance Company (continued)

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without consent of the issuer.

5. Income Tax Status

The Plan is a qualified cash or deferred arrangement established under Section 401(k) of the Internal Revenue Code and is exempt from income taxes under Section 401(a) of the Internal Revenue Code (IRC). The Plan has executed an adoption agreement using Prototype Non-Standardized Profit Sharing Plan and relies on the determination letter dated March 31, 2014, issued for the standard plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability nor disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants would be 100% vested in Employer contributions.

7. Related Party Transactions

The Plan invests securities managed by Transamerica. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA. The Plan paid administrative fees to Transamerica which totaled \$12,254 for the year ended December 31, 2018, and is included in the statement of changes in net assets available for benefits.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Information Prepared and Certified by Transamerica

Pursuant to 29 CFR 2520.103-8, the Plan qualified for a limited scope audit. Except for the investments in self-directed brokerage accounts, information relating to investment assets, investment transactions, investment earnings, notes receivable from participants, and the schedule of assets (held at end of year) was certified as complete and accurate by Transamerica as of December 31, 2018 and 2017, and for the year ended December 31, 2018.

10. Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, September 12, 2019, and determined that no additional disclosures were necessary. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.
