INTERSPORT, INC. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Intersport, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a complete description of the Plan's provisions.

General:

The Plan is sponsored by Intersport, Inc. (the Company) for its employees. Reliance Trust Company serves as the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan became effective on January 1, 2000. The Plan is a defined-contribution plan covering all employees of the Company except for nonresident aliens, as denoted in the Adoption Agreement. The purpose of the Plan is to enable eligible employees to save for retirement.

Contributions:

Each year, participants may contribute the maximum contribution allowed by the Internal Revenue Service (IRS). Contributions can be made on a regular 401(k) "pre-tax" basis or on a ROTH 401(k) "after-tax" basis. The Plan also allows rollover contributions whereby participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The amount of the Company contribution is discretionary and determined annually. During the year ended December 31, 2018, there was no Company contribution.

Participant accounts:

Each participant's account is credited with the participant's contribution, allocation of the employer's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Eligibility:

Prior to August 1, 2018, employees were auto-enrolled into the Plan on the next entry date (first day of each quarter) subsequent to reaching 21 years of age. Employees may opt out of the auto-enrollment. On August 1, 2018, the Plan was amended and the auto-enrollment was removed.

1. Description of the Plan (continued)

Investment options:

Participants direct the investment of their account balance into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds as investment options for participants.

Loans to participants:

Participants may borrow up to the lesser of $50,000 or 50% of their vested interest in the Plan and the loan shall not be less than $1,000. A participant may have up to two loans outstanding at any given time. The term of the loans shall be 60 months or less. The loan interest rate is determined by the Plan Administrator based on interest rates charged for similar types of loans by other lenders.

Payment of benefits:

A participant becomes entitled to benefits under the Plan upon retirement at age 65, permanent disability or resignation from the Company. In-service distributions are also allowed for participants who attain the age of 59 ½ and hardship distributions are permitted. Participants who terminate with an account balance greater than $5,000 may elect to leave their account balances in the Plan. A participant's account balance becomes fully vested upon death or disability. Upon resignation or retirement, participants are entitled to receive the vested portion of their account balance.

Participants' benefits are charged to participants' equity during the period when participants are entitled to receive payment, which generally is the period during which the benefits are paid.

1. Description of the Plan (continued)

Vesting:

Participants vest in their employer discretionary contributions and earnings thereon as follows:

Years of service	Percentage vested
Less than 2	0%
At least 2 but less than 3	20%
At least 3 but less than 4	40%
At least 4 but less than 5	60%
At least 5 but less than 6	80%
6 or more	100%

The employee contributions plus actual earnings thereon are fully vested at all times.

Disposition of forfeitures:

Forfeitures arising during the Plan year will be used to reduce the Company's future employer contribution deposits under the Plan. There were no forfeitures arising during the year ended December 31, 2018. There was no forfeiture balance at December 31, 2018 or 2017.

2. Summary of significant accounting policies

Basis of accounting:

The accompanying financial statements are prepared in accordance with accounting policies generally accepted in the United States of America.

Valuation of investments and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Share of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recognized on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. Summary of significant accounting policies (continued)

Notes receivable from participants:

The Plan allows for participants to borrow against their vested account balance and the loan is secured by the participant's account balance. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are repaid ratably through regular payroll deductions and loan defaults are treated as distributions. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans determined to be uncollectible. As of December 31, 2018 and 2017, no allowance for uncollectible loans was deemed necessary.

Payment of benefits:

Benefits are recorded when paid.

Administrative expenses:

Certain expenses of administering the Plan are paid by the Company.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits as of the end of the Plan year and the reported amounts of changes in net assets available for benefits during the year. Accordingly, actual results could differ from those estimates.

Subsequent events:

The Plan Administrator has reviewed and evaluated subsequent events from December 31, 2018, the financial statement date, through September 19, 2019, the date the financial statements were available to be issued.

3. Income taxes

The IRS has determined and informed the Company by a letter dated December 21, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

4. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Information prepared and certified by Reliance Trust Company (the Trustee)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in these financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Trustee.

The Trustee certified the fair value of investments of $7,807,384 and $8,320,582 as of December 31, 2018 and 2017, respectively. Notes receivable from participants of $61,030 and $56,131 were also certified by the Trustee at December 31, 2018 and 2017, respectively. The interest rate on these receivables ranged from 4.25% to 6.25% in 2018 and 4.25% to 5.25% in 2017.

For the year ended December 31, 2018, the Plan's investments (including gains and losses on investments bought, sold and held during the year) depreciated in value in the amount of $(863,053). Dividend income was $491,421 and interest on participant loans was $2,728 for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. Fair value measurements

The Plan defines fair value and specifies a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

6. Fair value measurements (continued)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Mutual funds: Valued at the NAV of shares held by the Plan at year-end and considered Level 1 investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

December 31,	**2018**	2017
	Level 1	
Mutual funds	**$ 7,807,384**	$ 8,320,582

7. Difference between financial statements and Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2018 and 2017:

Net assets available for benefits per the Form 5500	**$ 7,868,414**	$ 8,376,713

7. Difference between financial statements and Form 5500 (continued)

Total participant withdrawals per Form 5500	$ 1,085,196

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Party-in-interest transactions

For the years ended December 31, 2018 and 2017, certain Plan investments were shares of mutual funds managed by the Trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $650 for the year ended December 31, 2018.

10. Excess contribution payable

At December 31, 2018 and 2017, payables of $24,303 and $27,646, respectively, were recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the IRS.
