We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of December 31, 2018 and 2017, and for the years then ended, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

403(b) PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

(1) Plan Description

The following description of the Virginia Mason Medical Center 403(b) Plan (the Plan) is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the plan document.

(a) General

The Plan is a defined-contribution plan established by Virginia Mason Medical Center (the Employer or Plan Sponsor) under the provisions of Section 403(b) of the Internal Revenue Code (the IRC), which includes a qualified cash or deferred arrangement, for the benefit of eligible employees of the Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Eligibility

All employees are eligible to participate in the Plan upon date of hire.

(c) Plan Administration

The Plan is administered by the Compensation and Benefits Committee of the Plan Sponsor. Fidelity Management Trust Company (Fidelity) serves as Trustee and Principal Life Insurance Company (Principal) serves as custodian.

(d) Contributions

Participants may elect to contribute up to 80% of pretax eligible compensation, as defined by the Plan, subject to certain limitations under the IRC. Eligible participants who have attained age 50 may elect an additional catch-up contribution up to \$5,500, subject to certain limitations under the IRC. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans.

(e) Vesting and Forfeitures

Participants are fully vested in their account balance.

(f) Participant Accounts

Each participant's account is credited with the participant's contributions and the allocations of plan earnings and losses and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the plan agreement, and investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(g) Benefits

A participant or beneficiary is eligible to receive benefits as follows:

- Upon separation of service
- On reaching age 59 ½

**VIRGINIA MASON MEDICAL CENTER
403(b) PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

- Upon being determined to be disabled
- Upon the death of the participant

The Plan provides for either lump-sum distributions equal to the participant's vested account balance or annuity options for the distribution of benefits. For termination of service with vested benefits of \$1,000 or less, a participant or beneficiary will automatically receive the value of the account as a lump-sum distribution.

(h) Hardship Withdrawals

Under certain conditions, participants, while still employed by the Employer, are permitted to withdraw, in a single sum, a portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, the payment of burial or funeral costs of immediate family members, the payment of natural disaster clean-up on the participant's principal residence, or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

(i) Notes Receivable from Participants

A participant may borrow 50% of his or her account balance up to a maximum of \$50,000. The minimum loan amount is \$1,000. Loans are repayable through ACH electronic loan repayment service over periods ranging up to five years, unless the loans are used to acquire a principal residence, in which case the loan term may not exceed 15 years. Loans are secured by the balance of the participant's account. The interest rate is determined by the plan administrator based on the prime rate plus 1% and is fixed over the life of the note. The interest rates on outstanding loans are 4.25% to 6.25% at December 31, 2018 and 2017 and the loans mature through December 2033.

(j) Administrative Expenses

Administrative expenses include participant loan fees, short term trading fees generated by participant requested transactions, and fees for overnight mailing requested by participants. These fees are paid by the participants who incur them. The Plan Sponsor pays expenses that are not paid by the Plan.

(k) Investment Options

Upon enrollment in the Plan, a participant may direct contributions to any of the registered investment company funds offered by the Plan, a guaranteed investment contract issued by Principal, and investments through the Fidelity BrokerageLink accounts. Participants may change their investment options and transfer amounts between funds at any time.

Fidelity BrokerageLink is a service allowing participants to invest in securities other than their standard plan options. Through Fidelity BrokerageLink, participants may hold a wide variety of registered investment company funds.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Shares of registered investment company funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. Brokeragelink securities include common stocks are valued at quoted market prices. Cash equivalents consist of money market funds securities which are valued at fair value based on reported closing price.

The Fidelity Principal Fixed Interest Plus Annuity Fund (the Principal Fund) consists of a guaranteed investment contract (GIC) with a minimum interest rate. The GIC is fully benefit-responsive and is reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals and administrative expenses if any.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1% or greater than 3%. Such interest rates are reviewed on an annual basis for resetting. There are no unfunded commitments from the Plan.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

For the years ended December 31, 2018 and 2017, the minimum interest rate of the Principal Fund was 1.00%, and the average yield was 1.92% and 1.72%, respectively. Contract value is equal to principal balance plus accrued interest.

**VIRGINIA MASON MEDICAL CENTER
403(b) PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

The net change in the unrealized appreciation from one period to the next, and realized gains and losses on the sale of securities, are recognized as net appreciation in fair value of investments. Investment transactions are recorded on the trade date. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

(d) Notes Receivable from Participants

Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

(e) Risks and Uncertainties

The plan assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Other

Other revenue, net represents revenue received by the trustee in connection with plan services that exceeds the agreed upon compensation. The Plan trustee has a revenue sharing agreement with the Plan wherein the excess of revenues over the agreed upon compensation will be allocated to the accounts of eligible participants. In years where there is no revenue sharing, the ERISA expenses will result in a reduction of Plan net assets. In years where there is revenue sharing, the ERISA expenses will be allocated to participant accounts as negative expenses.

(3) Information Certified by Custodians

The following information included in the financial statements and supplemental schedule was provided and certified by the custodians, Fidelity and Principal, as complete and accurate:

- Investments at fair value
- Investments at contract value
- Notes receivable from participants
- Interest and dividend income
- Interest on notes receivable from participants
- Net (depreciation) appreciation in fair value of investments
- Investment information included in note 7, excluding level designations
- Schedule of assets (held at end of year)

VIRGINIA MASON MEDICAL CENTER
403(b) PLAN

Notes to Financial Statements

December 31, 2018 and 2017

(4) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

(5) Party-in-Interest and Related-Party Transactions

Certain plan investments are managed by Fidelity and Principal. Fidelity and Principal are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

(6) Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC of 1986, as amended. A tax determination letter program is not yet available for 403(b) employee benefit programs through the Internal Revenue Service. The plan administrator believes that the Plan is currently designed and operated in accordance with the IRC and as such is exempt from federal income taxes.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan commenced on January 1, 2009.

(7) Fair Value Measurements

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Registered investment company funds, money market funds, and common stocks are included in this category.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability. The Plan has no investments included in this category.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

**VIRGINIA MASON MEDICAL CENTER
403(b) PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents investments that are measured at fair value on a recurring basis (including items that are required to be measured at fair value) at December 31, 2018:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
