DSI Holding USA, Inc. Profit Sharing and Retirement Plan Notes to the Financial Statements

1. Description of Plan

The following brief description of the DSI Holding USA, Inc. Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution 401(k) plan with salary deferral provisions which was established on July 1, 1991. The Plan's participating employers are DSI Holding USA, Inc., DYWIDAG-Systems International, USA, Inc., DSI Tunneling LLC and DSI USA, LLC (collectively known as the Company). The Plan covers all employees of the Company who have one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may make pretax deferred savings contributions in the form of salary reductions, up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor contribution equal to 3% of compensation for all eligible employees. In addition, the Company makes a matching contribution equal to 100% of the first 2% of a participant's tax deferred savings contribution, not to exceed 2% of eligible compensation. The Company may also make an annual discretionary profit sharing contribution in an amount determined by its Board of Directors. The Company did not make a discretionary profit sharing contribution in 2018.

Participant Accounts – Each participant's account is credited with the participant's contribution, Company safe harbor and matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – The Plan is funded with a group annuity contract (the Contract) issued by American United Life Insurance Company (AUL). Participants can select from a fixed interest investment option and variable investment options through an AUL pooled separate account that reflect their individual investment style and risk tolerance. Under the Contract, it is possible to make transfers between the various options and to redirect the investment of future contributions as specified by the governing Plan document and Contract provisions. The Plan administrator may add additional investment funds or change the investment emphasis within a fund at any time, as deemed appropriate.

Vesting – Participants are vested immediately in their contributions and Company safe harbor, match and discretionary profit sharing contributions, plus actual earnings thereon.

DSI Holding USA, Inc. Profit Sharing and Retirement Plan
Notes to the Financial Statements (cont'd)

1. Description of Plan (cont'd)

Notes Receivable from Participants – Participants may borrow from their fund accounts for safe harbor hardship reasons only. The loan must be a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% - 5.00%, which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Effective October 1, 2018, the plan was amended to no longer allow new loans.

Payment of Benefits – A participant's account balance may be withdrawn upon retirement, death, disability, or termination of employment as defined by the Plan. Benefits are payable in either lump-sum amounts equal to the value of the participant's account, or in installments for required minimum distributions. In-service withdrawals from transfer accounts, distributions after age 59½, and hardship distributions are also allowed by the Plan.

Plan Termination – Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. The termination of the Plan is subject to the provisions of ERISA. In the event of Plan termination, all account balances as of the date of termination shall be payable to the participants and beneficiaries.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are recorded at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

DSI Holding USA, Inc. Profit Sharing and Retirement Plan
Notes to the Financial Statements (cont'd)

2. Summary of Significant Accounting Policies (cont'd)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Fees related to optional educational and fund selection services are charge charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through September 17, 2019, the date the financial statements were available to be issued.

3. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule were obtained from data that has been prepared and certified as complete and accurate by American United Life Insurance Company, the Plan's custodian as of December 31:

	<u>2018</u>	<u>2017</u>
Investments at fair value	\$ 25,593,774	\$ 29,875,501
Fully benefit-responsive investment contract at contract value	8,210,239	8,030,271
Notes receivable from participants	154,130	
Net investment loss	(1,966,818)	
Interest on notes receivable from participants	8,879

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a three-level valuation hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Valuations are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose significant inputs are observable.

Level 3 – Valuations are based on unobservable inputs for the asset or liability that reflect the reporting entity's own data and assumptions that market participants would use in pricing the asset or liability. These unobservable inputs are significant to the fair value measurement.

Following is a description of valuation methodologies used for investments measured at fair value on the statement of net assets available for benefits, and the classification of such investments pursuant to the valuation hierarchy.

Amounts allocated to a variable investment account within an AUL pooled separate account are valued at net asset value (NAV) of accumulation units at year-end. The NAV of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions received by AUL and the daily equivalent of any fee charged by AUL pursuant to the contract. Each investment account is invested by AUL exclusively in shares of a specific mutual fund or other investment entities as directed by the participant. The NAV of the accumulation units, as provided by AUL, is used as a practical expedient to estimate fair value. There are no redemption restrictions or unfunded commitments on these investments.

DSI Holding USA, Inc. Profit Sharing and Retirement Plan
Notes to the Financial Statements (cont'd)

4. Fair Value Measurements (cont'd)

All of the Plan's investments recorded at fair value are valued using NAV, and as such are not classified pursuant to the valuation hierarchy. The Plan's financial instruments measured at fair value on a recurring basis were categorized as follows as of December 31:

	<u>2018</u>	<u>2017</u>
Investments measured at NAV, pooled separate accounts:		
(1) Equity investments	\$ 18,089,626	\$ 21,935,990
(2) Fixed-income investments	2,878,085	2,922,160
(3) Retirement year-based investments	<u>4,626,063</u>	<u>5,017,351</u>
	<u>\$ 25,593,774</u>	<u>\$ 29,875,501</u>

- (1) This class represents investments in actively managed pooled separate accounts that invest primarily in equity securities, which may include common stocks, options, and futures.
- (2) This class represents investments in actively managed pooled separate accounts that invest in a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

5. Fixed Income Investment Option

The Plan offers a traditional fully benefit-responsive fixed interest investment option with AUL which is maintained in AUL's general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed interest investment option issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract may be subject to a market value adjustment upon contract termination. This traditional investment contract had a balance of \$8,210,239 and \$8,030,271 at December 31, 2018 and 2017, respectively.

Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

DSI Holding USA, Inc. Profit Sharing and Retirement Plan
Notes to the Financial Statements (cont'd)

5. Fixed Income Investment Option (cont'd)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary), that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The contract does not permit AUL to terminate the agreement prior to the scheduled maturity date.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without consent of the issuer.

6. Tax Status

The Plan has adopted the American United Life Insurance Company Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service has provided an opinion letter to American United Life Insurance Company dated March 31, 2014, that the Volume Submitter Profit Sharing Plan is acceptably designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the date of the opinion letter; however, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

DSI Holding USA, Inc. Profit Sharing and Retirement Plan
Notes to the Financial Statements (cont'd)

7. Related Party and Party-in-Interest Transactions

The Plan has investments in a fixed interest investment option and a pooled separate investment account managed by American United Life Insurance Company (AUL). As AUL is the custodian and recordkeeper for the Plan, these are party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity, which were not covered by revenue sharing. These payments were made to AUL and ProNvest, Inc., which provides the optional educational and fund selection services. These are also party-in-interest transactions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
