Note 1 - Plan Description

The following description of Fairfield Medical Center Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Fairfield Medical Center (the "Center") who have completed three months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee salary deferral contributions up to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 100 percent of the participant's contribution, not to exceed 2 percent of the compensation deferred by the employee after the employee has completed a year of service (1,000 hours). The Plan also provides for employer nonelective contributions of 5 percent of the employee's compensation after the employee has completed one year of service (1,000 hours).

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Center's contributions, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. During 2018 and 2017, participant balances were directed by the Plan in accordance with the investment policy defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Effective January 1, 2019, the Plan was restated into a 401(k) plan, and participant balances are now fully participant directed into investment options offered by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a reasonable rate.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Center's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Center 100 percent after three years of service or upon death, disability, or reaching the normal retirement age.

Benefit Payments

Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account, a single or joint survivorship annuity, or annual installments over a period no longer than 10 years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, less applicable taxes, or may roll over the vested interest to a qualified plan.

December 31, 2018 and 2017

Note 1 - Plan Description (Continued)

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future center contributions or to pay administrative expenses of the Plan. At December 31, 2018 and 2017, forfeited account balances totaled \$305,478 and \$160,612, respectively.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Park National Bank or its affiliates, and certain plan expenses are paid for by the Center. Park National Bank is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it has not expressed any intent to do so, the Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value.

Investments in "other investments," which are made up of private equity, venture capital, and hedge fund partnerships, are valued at net asset value per share (NAV) (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments. The money market funds are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses were paid by the Center. Other expenses, including the trustee fees, were paid by the Plan.

December 31, 2018 and 2017

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2019, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fairfield National Bank, a Division of The Park National Bank (the "Trustee"), holds the Plan's investments and participant notes receivable, except for other investments, and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year are based solely on information certified by the Trustee.

The Plan's investments in other investments totaling \$10,777,116 and \$18,480,470 at December 31, 2018 and 2017, respectively, and the related investment loss of \$349,002 were not certified by the Trustee.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Fairfield Medical Center Employees' Pension Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 5 - Fair Value Measurements (Continued)

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using information provided by fund managers. Values are based upon applicable market quotations, pricing services, or broker quotations.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018 and 2017:

Note 5 - Fair Value Measurements (Continued)

- (1) The multistrategy hedge fund category invests in a range of investment vehicles that pursue multiple strategies to diversify risks and reduce volatility. The hedge funds invest in U.S. equities, foreign equities, distressed funds, fixed-income funds, bank debt, securitized assets, convertible bonds, and risk arbitrage. There were no unfunded commitments. The funds allow quarterly redemptions with 65 to 90 days' notice.
- (2) The equity long and short hedge fund category invests in hedge funds that invest primarily in publicly traded equity and debt securities. This category also has holdings in credit and bank loan vehicles. There were no unfunded commitments. The funds allow either quarterly or annual redemptions with 90 to 105 days' notice.
- (3) The private equity fund holds investments on the secondary credit market. The objective is to enhance return of performance by creating value in the companies that the private equity fund holds by contributing financial and operational skills.
