Notes to Financial Statements

1. Description of the Plan

The following description of the Buckingham, Doolittle & Burroughs, LLC 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Buckingham, Doolittle & Burroughs, LLC (the Firm). Participants become eligible to participate in the Plan in accordance with Plan provisions on the first day of the month following the participant's date of hire. Participants are eligible to receive employer matching contributions and profit sharing contributions on the first day of the month after completing one year of service with at least 1,000 hours. Eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to contribute up to 90% of their gross earnings directly to the Plan subject to limitations in the Internal Revenue Code (IRC). The Firm matches employee contributions at an amount equal to twenty-five percent of the first six percent of the participant's gross earnings deferred. A profit sharing contribution of \$604,100 and \$550,000 was declared to the Plan for the years ended December 31, 2018 and 2017, respectively.

Participant contributions to the Plan cease upon retirement or other termination of employment with the Firm. Participants may continue to maintain their account in the Plan after termination only if their account balance is greater than \$5,000. If the terminated participant's account balance is between \$1,000 and \$5,000 and an election is not made to either take a cash distribution or rollover their account into another employer plan or individual retirement account (IRA), an automatic rollover will be made on their behalf to an IRA provider chosen by the Plan Administrator (Buckingham, Doolittle & Burroughs, LLC). If the terminated participant's account balance is less than \$1,000, a mandatory lump-sum distribution will be made unless the participant elects to have their account rolled over into another employer plan or an IRA.

Participant accounts

Each participant's account is credited with the participant's contribution, the computed Firm contribution and Plan earnings, and is charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest automatically in their contributions. Participants are fully vested in Firm contributions after six years of credited service, upon death, total and permanent disability, or upon reaching age 65.

Buckingham, Doolittle & Burroughs, LLC
401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

Notes receivable from participants

Loans are permitted to be made to active participants and must be for a minimum of \$1,000 up to the lesser of one half of the participant's vested account balance or \$50,000. The loans are secured by the participant's vested interest in the Plan. The loan repayment period may not be less than one year and may not exceed five years unless the loan is used to purchase a participant's principal residence for which the period may not exceed thirty years. Interest is charged at a reasonable rate as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances.

Payment of benefits

Upon termination of service, death, disability, or retirement, participants are eligible to receive an amount equal to the vested portion of their account balance to be distributed in accordance with Plan provisions.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. The balance of forfeitures of participants of non-vested employer contributions was \$1,182 and \$1,573 at December 31, 2018 and 2017, respectively. Forfeitures used to reduce employer contributions and certain Plan expenses for the year ended December 31, 2018 were \$6,105.

Plan expenses

The Plan pays substantially all Plan expenses.

Reclassifications

Certain amounts in the 2017 financial statements and footnotes have been reclassified to confirm with the current year presentation.

2. Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements and supplemental schedule are prepared on the accrual basis of accounting.

Valuation of investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on average cost. Interest income is recorded on the accrual basis. Dividend income includes capital gains and is recorded on the ex-dividend date. Net appreciation and

Buckingham, Doolittle & Burroughs, LLC

401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Events occurring after the reporting date

The Plan has evaluated events and transactions that occurred between December 31, 2018 and October 7, 2019, the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Effective January 1, 2019, the Plan terminated the non-discretionary match and implemented a discretionary match. During 2019, the Plan was amended to remove the restrictions on Generational funds allowing for profit sharing contributions to be transferred to other funds offered by the Plan at the participants discretion.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures (ASC 820) enables the reader of the financial statements to assess the inputs used to develop fair value measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. ASC 820 requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Buckingham, Doolittle & Burroughs, LLC

401(k) Profit Sharing Plan and Trust

Notes to Financial Statements

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full contractual term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Generational funds: The net asset value is based on the underlying assets owned by the fund less liabilities. The non participant directed funds are valued at the net assets value (NAV) of the units held by the Plan at year end. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The investment objective of the underlying investments is to simulate the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments.

Common collective trust: Valued at the net assets value (NAV) of the units held by the Plan at year end. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The investment objective of the underlying investments is to simulate the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self directed brokerage accounts: The underlying investments, which primarily consist of interest bearing cash, individual common stocks, bonds and registered investment companies are valued at the closing price reported on the open market and are classified within Level 1 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

4. Investments/Notes Receivable from Participants (unaudited)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants, net appreciation in fair value of investments, and interest and dividend income, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company. As elected by the Plan administrator, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

5. Nonparticipant-directed investments

Information about the net assets and significant components of the changes in net assets related to the nonparticipant-directed investments is as follows:

<i>December 31,</i>	2018	2017
Net Assets:		
Generational funds	\$ 24,292,286	\$ 26,093,814
<i>Year Ended December 31,</i>	2018	
Changes in net assets:		
Net depreciation		\$(1,359,245)
Contributions		617,422
Administrative fees		(55,728)
Benefits paid to participants		(1,003,977)
		\$ (1,801,528)

6. Tax status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving this determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they also believe that the Plan was qualified and tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

7. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
