BARTLETT AND COMPANY PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF THE PLAN

The following description of the Bartlett and Company Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. References herein to "Company" include Bartlett Grain Company, L.P.; Bartlett Grain Southwest, L.P.; Bartlett Milling Company, L.P.; Bartlett Cattle Company, L.P.; Bartlett International, Inc.; Bartlett and Company; and its separate lines of business.

Effective August 1, 2018, the Company entered into a business combination with The Savage Companies (Savage). Control of the Company transferred to Savage. It has not been determined whether the Plan will be maintained as a separate Plan or otherwise combined with existing plans sponsored by Savage.

Pursuant to and immediately prior to the change in control, the Company divested of a separate line of business (SLOB) Bartlett Cattle Company, L.P. Plan participants in the divested groups became fully vested upon separation. The Company funded a contribution approximating \$410,000 in September 2018 with respect to the separated participants. Additionally, Bartlett Grain Southwest, L.P. was dissolved.

General – The Plan is a defined contribution plan covering substantially all full-time employees of the Company, exclusive of those employees who are covered by a collective bargaining agreement and those who derive their total compensation from commissions. There are no employee contributions made to this Plan.

Prior to January 2, 2018, the Plan's investments were in the custody of various mutual fund companies, trust companies, and limited partnerships. Plan investments were selected by an investment committee; participants in the Plan did not make individual investment elections. Participant recordkeeping was performed by Company personnel, at no cost to the Plan.

Effective January 2, 2018, the Plan adopted a new agreement which provides for Plan participants to make individual investment elections with respect to their participant account balance. Fidelity Management Trust Company ("FMTC" or "Fidelity") is the trustee of the Plan's participant directed investments. Fidelity Workplace Services LLC, a subsidiary of FMTC, provides recordkeeping services for participants' accounts at Fidelity. Pursuant to this change, Plan investments approximating \$50.3 million were liquidated and transferred to FMTC and invested in accordance with participant elections. Investments approximating \$2.1 million were not liquid at the date of transfer and will be transferred as such become liquid.

The new agreement conforms to a Volume Submitter agreement maintained by FMTC and there were no other significant changes to the Plan, other than allowing participants to direct their investment elections.

Eligibility - Employees are eligible to participate in the Plan upon completion of one hour of service. In order for a participant to receive an employer contribution the participant must be employed on the last day of the Plan year.

Contributions – As provided in the plan agreement, the Company, or each separate line of business ("SLOB") comprising the Company may make a discretionary contribution to the Plan, out of its current or accumulated net income. All contributions by the Company shall be made in

the form of cash or other property as determined by the trustees. The total annual contribution may not exceed the amount allowable as a deduction in the Company's federal income tax return.

Participants' Accounts – Each participant's account is credited on the last day of the Plan's fiscal year for the pro rata share of the participating employer's contribution. Each participant's share of the SLOB's contribution is determined by a formula, which first integrates the allocations with social security contributions and, within certain limitations, allocates the remainder by the percentage that a participant's compensation bears to the aggregate compensation of all such SLOB's participants.

Each participant's account is credited with investments' earnings, and is charged with the participant's withdrawals and distributions, and Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Investment options include money market fund, mutual funds, common collective trust and a self-directed brokerage account. Participants may direct all contributions in any of the investment options offered by the Plan, and may change their investment election at any time.

As income is accumulated on the non-participant directed assets, the cash proceeds are transferred to Fidelity and allocated to participants.

Forfeitures are allocated to participants employed on the last day of the Plan's fiscal year in the proportion that each participant's compensation bears to the total compensation for each SLOB's participants in the profit sharing account. Total forfeited assets allocated to eligible participants at December 31, 2018 were \$509,800.

Plan Investments – Beginning in 2018, participants may direct their contributions and the Company contributions to a variety of mutual funds, a common and collective trust, and a money market fund.

The self-directed brokerage account is offered to all participants in the Plan. This investment option allows participants to invest in numerous types of stocks, bonds, securities and funds. There is no annual fee for the brokerage account, but there are applicable brokerage fees and commissions as determined by Fidelity and that are paid by the participants who invest in this account.

The remaining non-participant directed investments in the Plan are managed by a third-party investment advisor and reviewed by the Plan's trustee over the non-participant directed portion of the Plan. As these assets become liquid, the Plan administrator transfers the funds to the FMTC, participant-directed portion of the Plan.

Vesting – Participants are fully vested in their voluntary contributions made and allowed by the Plan prior to 1996. Vesting in the remainder of their accounts occurs in 20% increments, with 20% earned after 2 years, 40% earned after 3 years, etc. Full vesting is earned after 6 years of service. Participants are deemed fully vested upon retirement (normally at age 65), death, or permanent disability.

Payment of Benefits – Upon retirement, death, permanent disability, or termination of employment, the vested balance in the employee's accounts is paid from the assets of the Plan to the participant or participant's beneficiary in a lump sum or series of payments not to exceed the life expectancy of the participant or beneficiary.

Expenses – Substantially all of the Plan's general and administrative costs are paid by the Company. Record maintenance service costs are paid by the Plan.

Termination of the Plan – Although the Company has not expressed any intent to do so, it has the right to terminate the Plan subject to the provisions of the Employee Retirement Income

Security Act of 1974 (ERISA). In the event of Plan termination, all participants will become fully vested in their account balances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation – The Plan’s financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition – The Plan’s investments are stated at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded when earned. Fees charged by mutual funds, money market funds, and common and collective trusts are deducted from income generated by those investments.

Contributions – Contributions from participating SLOBs are accrued in the period in which they become obligations of the Company by declaration of the Company’s board of directors or general partner.

Benefit Payments – Benefit distributions are reported in the year paid.

Revenue Sharing – Fidelity credits a portion of the fees paid on certain investments back to the Plan, which are allocated to the Plan participants. These amounts are shown as other income.

Subsequent Events – Subsequent events have been evaluated through October 2, 2019, which is the date the financial statements were available to be issued, and there were no events that required adjustments or disclosures to the financial statements.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Mutual Funds, Common Stocks, and Money Market Funds – Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust – The issuer calculates a net asset value based on the market value of its underlying investments, less operating expenses, if any. They are valued daily, can be redeemed daily with no restrictions, and without prior notice. There are no unfunded commitments.

Self-Directed Brokerage Accounts – Valuations of common stocks, mutual funds, money market funds, and unit investment trusts (exchange traded funds) are valued as discussed above.

Limited Partnerships and Pooled Investment Funds – Valued at the fair value of the underlying investments held in the limited partnerships' and investment funds' portfolios, as reported in their audited financial statements.

Life Insurance Policies – Valued at cash surrender value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents financial assets that are measured at fair value on a recurring basis at December 31, 2018 and 2017:

December 31, 2018 and 2017:
