Ziosk Retirement Plan
Notes to Financial Statements
December 31, 2018 and 2017

1. DESCRIPTION OF THE PLAN

The following description of the Ziosk Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document and related adoption agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2014, and is a defined contribution retirement plan covering all eligible employees of TableTop Media LLC DBA Ziosk (the "Company", "Plan Sponsor" or "Employer"). The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC). In addition, the Plan's financial statements have been prepared in compliance with ERISA and with accounting principles generally accepted in the United States of America (US GAAP).

Eligibility

All employees of the Company who have attained the age of 21 and completed six (6) months of eligibility service, as defined, are eligible to enroll in the Plan, make 401(k) salary deferrals, and receive Employer matching contributions, and (if applicable) discretionary profit sharing contributions. Plan entry is on the first day of the calendar month coincident with or next following the date eligibility requirements are met.

Plan administration

The Plan Sponsor is responsible for the administration and operation of the Plan. Matrix Trust Company (the "Trustee") is the directed trustee for the Plan. The Trustee is responsible for the custody and management of the Plan's assets and for executing investment transactions. Employee Fiduciary, LLC (the "record keeper") is the Plan's record keeper and is responsible for maintaining participant account records and transactions.

Employee contributions

Participants may elect to contribute a portion of their compensation to the Plan, subject to calendar year contribution limits set forth by the IRC. Participant contributions may be made on a pre-tax basis or after tax as Roth contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions which are also subject to IRC limits. Participants may also contribute amounts (rollovers) representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

1. DESCRIPTION OF THE PLAN (continued)

Employer contributions

Annually, the Employer makes a safe harbor qualified automatic contribution arrangement (QACA) matching contribution equal to: (i) 100% of a participant's deferrals that are not in excess of 1% of the participant's compensation, plus (ii) 50% of the amount of a participant's deferral that exceed 1% of a participant's compensation but that do not exceed 6% of the participant's compensation. The Employer may make additional profit sharing contributions at the option of the Employer's board of directors. Contributions are subject to IRC limitations. No profit sharing contributions were made in 2018.

Participant accounts

Each participant's account is credited with the participant's contributions, Employer QACA matching contributions, allocations of discretionary contributions, if any, and investment earnings, and charged with an allocation of investment losses and fees designated by the Plan. Allocations of investment earnings or losses are based on a participant's account balance as a percentage of the total of participants' account balances in each investment or the change in unit or share value of the individual investments.

Vesting

The vesting schedule for the Employer QACA matching contributions and discretionary profit sharing contributions (if any) is as follows:

Years of Service	Percentage
1	50 %
2	100 %

Payment of benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Benefits are payable in a lump-sum upon termination of employment due to death, disability (as defined by the plan document), or normal retirement. For termination of employment for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or transfer the balance to another qualified employee retirement plan. The Plan allows, upon a participant's termination of employment, to distribute vested account balances of less than $5,000 to the participant in a lump sum without the participant's consent.

In addition to the foregoing, participants are permitted to request in-service distributions from their vested Plan accounts at any time after having attained age 59 1/2. Also, participants may request a distribution of their employee contribution account upon incurring a financial hardship, as defined by the Plan. Participants may not make contributions to the Plan for six months after the receipt of a hardship distribution.

1. DESCRIPTION OF THE PLAN (continued)

Forfeitures

Forfeitures of terminated participants' non-vested account balances are used to pay Plan expenses or reduce Employer contributions. Forfeited accounts available for the Employer to pay Plan expenses or reduce future Employer contributions total $1,417 and $14,423, as of December 31, 2018 and 2017, respectively. Forfeitures of $3,240 were used to pay Plan expenses in 2018 and $12,705 were used to reduce Employer contributions.

Administrative expenses

Administrative expenses are generally paid by the Employer, but may, at the discretion of the plan administrator be paid by the Plan. The Plan is not required to reimburse the Company for expenses paid on its behalf. Transaction fees for certain participant-initiated activities are charged to the specific account of the participant initiating any such transaction.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with US GAAP and present the Plan's net assets available for benefits and changes therein.

Use of estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that those changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment valuation and income recognition

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes gains and losses for investments purchased and sold during the year.

Payment of benefits

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Contributions and receivables

Contributions from participants are recorded based on the date the contributions have been separated from a participant's pay by the Employer, which is the pay date. The Plan records receivables for participants' contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Employer QACA matching contributions and employer discretionary profit sharing contributions, if any, are recorded in the year they are earned and to coincide with the year which the Employer records the contribution to the general ledger and takes the tax deduction for the contribution. The Plan records receivables for Employer contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Contributions representing participant rollovers from other qualified defined benefit or defined contributions plans are recorded when received.

Subsequent events

Management of the Plan has evaluated subsequent events through September 27, 2019, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

Accounting standards require that fair value be determined based on the price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market, in an orderly transaction between market participants. Such fair value is a market-based measurement, not an entity-specific measurement. US GAAP establishes a three-level valuation hierarchy based upon observable and unobservable inputs. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

3. FAIR VALUE MEASUREMENTS (continued)

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time, and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Mutual fund investments are valued at the net asset value of shares held by the Plan at year end which are quoted in an active market, and along with common stocks and money market funds in the self-directed brokerage accounts, are classified within level 1 of the valuation hierarchy.

Self-directed brokerage accounts include investments in interest bearing cash accounts and common stock which are classified as level 1 investments. Common stock traded in active markets on national securities exchanges are valued at closing prices on the last business day of the period presented.

As of December 31, 2018, and 2017, there were no restrictions on redemption or unfunded commitments for any of the significant investment types.

3. FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets by general type at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds, at fair value	$ 4,093,791	$ -	$ -	$ 4,093,791
Self-directed brokerage accounts, at fair value	261,242	-	-	261,242
	$ 4,355,033	$ -	$ -	$ 4,355,033

The following table sets forth by level, within the fair value hierarchy, the Plan's assets by general type at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Fair Value
Mutual funds, at fair value	$ 3,523,626	$ -	$ -	$ 3,523,626
Self-directed brokerage accounts, at fair value	128,927	-	-	128,927
	$ 3,652,553	$ -	$ -	$ 3,652,553

4. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of annual reporting permitted by Section 2520.103-8 of ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the Plan's investment information, and related activity, certified by the Trustee as accurate and complete, except for comparing such information to corresponding information included in the Plan's financial statements and supplemental schedule.

The Trustee certified that the following information included in the accompanying financial statements is complete and accurate as of December 31:

	2018	2017
Mutual funds, at fair value	$ 4,093,791	$ 3,523,626
Self-directed participant accounts, at fair value	261,242	128,927
	$ 4,355,033	$ 3,652,553

4. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED) (continued)

The Trustee has certified that the following information included in the accompanying financial statements is complete and accurate for the year ended December 31, 2018:

	2018
Interest and dividends	$ 76,022
Net depreciation in fair value of investments	(354,734)
	$ (278,712)

5. TAX STATUS

The Plan has adopted a volume submitter profit sharing plan (the "Volume Submitter Plan") originated by the record keeper. The IRS has issued an opinion letter in relation to the Volume Submitter Plan dated March 31, 2008, stating that the form of the Volume Submitter Plan was acceptable under section 401(a) of the IRC for use by employers for the benefit of their employees. The Plan Sponsor believes the Plan and related trust are currently designed and being operated in accordance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts as defined by the Plan document.

7. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by and fees paid to the Trustee and its affiliates (both direct and indirect fees) qualify as party-in-interest transactions.

The Plan's agreement with the Trustee allows the Trustee to receive and retain earnings (i.e. float income) on funds received or credited to the Plan's account before they are invested, allocated, or applied in accordance with the Plan's instructions or on funds withdrawn, collected, or deducted from the Plan's account before actual disbursements are made to recipients.
