NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 1 - Description of the Plan

The following description of the ProHEALTH Medical Management, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by ProHEALTH Medical Management, LLC ("the Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). All employees (excluding employees subject to collective bargaining agreements, per diem employees, and certain non-resident aliens) are eligible to enter the Plan as soon as administratively feasible following their hire date. There are no age or service requirements.

The UnitedHealth Group Employee Benefits Plans Administrative Committee is the plan administrator ("Plan Administrator") and is responsible for oversight of the Plan, except with respect to investment matters. The UnitedHealth Group Employee Benefits Plans Investment Committee ("Investment Committee") determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Effective October 22, 2018, the Plan was amended to become a single employer plan and the employees of ProHEALTH Care Associates, LLP, ProHEALTH Ambulatory Surgery Center, Inc., Mobile Medical Services, P.C., and unrelated companies ProHEALTH Dental Management, LLC, ProHEALTH Dental, PLLC, ProHEALTH Care Associates of New Jersey, LLP, New York Proton Center, and New York Proton Management were transferred to a newly formed ProHEALTH Care 401(k) Plan.

The Plan's investments were moved to the UnitedHealth Group 401(k) Savings Plan Master Trust ("Master Trust") effective October 22, 2018. The Master Trust is administered by Fidelity Management Trust Company ("the Trustee"). The Master Trust includes certain assets of the Plan and assets of other defined contribution plans of the subsidiaries of UnitedHealth Group Inc. ("Participating Plans") in a single trust. Each Participating Plan has an interest in specific assets of the Master Trust based on participant account balances.

Contributions

Each year, the participants may contribute an amount up to the maximum dollar amount permissible under the Internal Revenue Code ("the Code"). Elective contributions include pre-tax deferrals, Roth deferrals or rollover contributions. Participants who have attained age 50 before the end of the plan year may make additional catch-up contributions, subject to limitations imposed by the Code.

The Company has the option to provide an employer contribution to Plan participants that is discretionary. There were no discretionary contributions made to the Plan during the year ended December 31, 2018.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, if any, and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ProHEALTH Medical Management, LLC 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 1 - Description of the Plan (cont.)

Vesting

Participants are immediately vested in their salary reduction, rollover contributions, and earnings thereon. Discretionary profit sharing contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Notwithstanding the vesting schedule above, employer discretionary contributions, if any, will become fully vested (100%) upon attainment of normal retirement age (age 65), the participant's death, the participant's disability, partial plan termination with respect to the participant, or complete termination of the Plan.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, or termination of employment, as defined in the Plan document. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment. A participant with an account balance in excess of \$1,000 may elect to defer payment until minimum distribution rules apply under the Code. Participant account balances of less than \$1,000 will be paid automatically in a lump sum payment.

The Plan also provides for hardship withdrawals to participants meeting certain requirements as described in the Plan agreement. Upon written request, participants may withdraw all or a portion of their rollover contributions.

There are no amounts owed to the participants who had elected to withdraw from the Plan, but had not been paid as of December 31, 2018 and 2017.

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. The loans are secured by the balance in the participant's account. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans bear interest based on the prime interest rate quoted by Reuters on the first business day of each month plus one (1) percentage point. Principal and interest are paid ratably through payroll deductions. Participants may have up to two outstanding loans at any time.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully-benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments and Plan's interest in Master Trust investment loss include the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2018 or 2017.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants in 2019.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments and Plan's interest in Master Trust investment loss.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2019, the date the financial statements were approved and available to be issued.

NOTE 3 - Information Prepared and Certified by Trustee and Former Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018 and 2017. Accordingly, the Trustee and AXA Equitable Life Insurance Company ("the former Custodian") have certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2018, and the related investment activity and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018, except for the fair value of the interest in insurance company general account. The former Custodian has certified the contract value of the interest in insurance company general account as of December 31, 2017.

NOTE 4 – Plan's Interest in Master Trust

The investments held in the Master Trust represent the participant-directed investments of the Participating Plans. Each Participating Plan has a divided interest in specific investment assets held in the Master Trust. The value of each Participating Plan's interest in the Master Trust is based on the beginning of the year value of each plan's interest in the Master Trust balance plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to each Participating Plan based upon each plan's relative interest in the assets held in the Master Trust.

The following table presents the net assets of the Master Trust and the Plan's interest as of December 31, 2018.

NOTE 4 – Plan's Interest in Master Trust (cont.)

The Master Trust does not buy or sell any of the common stock of UnitedHealth Group, Inc. as a direct investment of the trust. However, due to external investment management of the funds, the Master Trust may indirectly buy, sell or hold UnitedHealth Group common stock. The aggregate amount of the shares is not considered material to the Master Trust.

The Master Trust had the following investment income for the year ended December 31, 2018.

	<u>2018</u>
	Master Trust
	Balances
Net depreciation in fair value of investments	\$ (787,329,262)
Interest and dividends	<u>80,721,573</u>
Total investment loss	<u>\$ (706,607,689)</u>
Plan's interest in Master Trust investment loss	<u>\$ (1,119,377)</u>

NOTE 5 – Fair Value of Financial Instruments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Unadjusted quoted prices for identical assets in active markets that the Plan can access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for the asset.

ProHEALTH Medical Management, LLC 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 5 – Fair Value of Financial Instruments (cont.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Common collective trust: Valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Cash and cash equivalents: The carrying value of the cash and cash equivalents approximates fair value as maturities are less than three months.

Common stock: Valued at the closing price reported on the active markets on which the individual securities are traded.

Debt securities: Fair value of debt securities are based on quoted market prices, where available. A price is obtained for each security primarily from a third-party pricing service ("pricing service"), which generally uses quoted or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, and, if necessary, makes adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, benchmark yields, credit spreads, default rates, prepayment speeds, and nonbinding broker quotes.

Fair values of debt securities that do not trade on a regular basis in active markets but are priced using other observable inputs are classified as Level 2.

Interest in insurance company general account: The fair value of the Guaranteed Interest Option (GIO), which is a general obligation of AXA Equitable Life Insurance Company ("AXA") is based on discounted cash flows using rates for similar investments at the discount rate and taking into consideration the restrictions on plan transfers out of the account. The Plan's investment in the GIO is classified as a Level 2 measurement in the fair value hierarchy, based on inputs other than quoted prices that are observable for the asset.

Life insurance policies: Life insurance policies are valued at cash surrender value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 5 – Fair Value of Financial Instruments (cont.)

Pooled separate accounts: Valued based upon the unit values of such pooled accounts held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist of mutual funds, each of which follows a separate investment strategy. Due to the nature of these pooled accounts, there are no unfunded commitments or redemption restrictions.

The table below presents the balances of assets and liabilities measured at fair value on a recurring basis by level within the hierarchy.

Investments Measured Using the NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share as a practical expedient as of December 31, 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only for the Master Trust.

<u>Investment</u>	<u>Fair Value ⁽¹⁾</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency ⁽²⁾</u>	<u>Redemption Notice Period ⁽³⁾</u>
December 31, 2018				
Common collective trust	\$ 11,229,317	\$ —	Immediate	Various

(1) The fair value of investments are based on the fair values of the underlying investments in the funds.

(2) Certain events may cause funds held in the common collective trust to be deferred, including, but not limited to, the following:

- (i) Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
- (ii) An emergency situation in which the disposition of assets would be seriously prejudicial to Plan participants.
- (iii) Breakdown in the means of communication normally employed to determine fair market value of an investment.
- (iv) Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2018.

(3) Certain common/collective trusts require redemption notice periods for plan withdrawals at the discretion of the trustee.

NOTE 6 – Fully Benefit-Responsive Investment Contracts

The Master Trust provides a stable value investment fund to participants that is comprised of a separate account guaranteed investment contract and four security-backed investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and expenses. The following represents the disaggregation of contract value between types of investment contracts held by the Master Trust.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 6 – Fully Benefit-Responsive Investment Contracts (cont.)

Security-backed investment contracts and separate account guaranteed investment contracts are issued by insurance companies or other financial institutions, backed by a portfolio of fixed income funds and pooled separate accounts. The portfolio is either owned directly by 1) the Master Trust (security-backed investment contract) or 2) owned by the contract issuer and segregated in a separate account for the benefit of the Master Trust (separate account guaranteed investment contract). The issuer guarantees that all qualified participant withdrawals will be at contract value and that the crediting rate applied will not be less than 0%. Cash flow volatility (for example, timing of the benefit payments) as well as asset underperformance can be passed through to the Master Trust through adjustments to future contract crediting rates. Crediting rates are typically reset quarterly to account for the difference between the contract value and the fair value of the underlying portfolio.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed investment contracts and separate account guaranteed investment contracts have the risk of default or lack of liquidity of the underlying portfolio assets. The credit risk of each issuer is evaluated and monitored through the portfolio manager's credit analysis. The credit analysis includes, but is not limited to, asset quality and liquidity, management quality, surplus adequacy, and profitability. The Master Trust requires that the issuers of each contract have a minimum quality rating as of the contract effective date and that all underlying portfolio assets be rated investment grade at the time of purchase.

Security-backed investment contracts and separate account guaranteed investment contracts generally are automatically renewing contracts that contain termination provisions, allowing the Master Trust or the contract issuer to terminate with notice, at any time, at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero.

In addition, if the Master Trust defaults on its obligations under the contract (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined by ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Master Trust will receive the fair value as of the date of termination.

Each contract recognizes certain "events of default" which can invalidate the contract's coverage. Among these are investments outside of the range of instruments which are permitted under the investment guidelines contained in the investment contract, fraudulent or other material misrepresentations made to the issuer, changes in control of the investment adviser not approved by the contract issuer, changes in certain key regulatory requirements, or failure of the Master Trust to be tax qualified.

Certain events might limit the ability of the Master Trust to transact at contract value with the contract issuer. Withdrawals associated with these events, which are not in the ordinary course of the Master Trust operations, are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. These events may be different under each contract. Examples of such events include the following:

- Material amendments to the Master Trust's structure of administration;
- Failure of the Master Trust to qualify under Section 401(a) of the Code or the failure of the Master Trust to be tax-exempt under Section 501(a) of the Code;
- Premature termination of the contracts;
- Complete or partial termination of the Master Trust, including a merger within another plan;

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 6 – Fully Benefit-Responsive Investment Contracts (cont.)

- Redemption of all or a portion of the interests in the Master Trust at the direction of the Company, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the Master Trust (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit or affiliate, or the Company's establishment of another tax qualified defined contribution plan;
- Changes to the Master Trust's prohibition on competing investment options; and
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Master Trust's normal operations.

No events are probable of occurring that might limit the ability of the Master Trust to transact at contract value with the contract issuers and that also would limit the ability of the Master Trust to transact at contract value with the participants.

NOTE 7 – Administration of Plan Assets

The Master Trust assets are administered under a contract with the Trustee. Previously, the Plan's assets were administered under a contract with the former Custodian. The Trustee and the former Custodian invest funds received from contributions, investment sales, interest, and dividend income and make distribution payments to participants.

NOTE 8 – Related Party and Party-in-interest Transactions

Certain of the Plan's investments were managed by the former Custodian. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in fair value of investments.

Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as exempt party-in-interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 9 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 10 – Tax Status

Prior to October 22, 2018, the Plan was maintained on a volume submitter document sponsored by Heritage Administrative Services, LLC, which was subject to a favorable opinion letter from the IRS dated March 31, 2014. The Plan was amended and restated on an individually designed plan document effective October 22, 2018. The Company believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Code, and therefore believes the Plan is qualified and the related trust is tax exempt.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2018 and 2017 and for the Year Ended December 31, 2018

NOTE 10 – Tax Status (cont.)

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 11 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2018 and 2017, the Plan had investments of \$5,774,560 and \$20,778,417, concentrated in three and two investments, respectively, that each accounted for more than 10% of Plan assets.

NOTE 12 – Delinquent Participant Contributions

For the year ended December 31, 2018, the Company did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. Untimely remittances identified on the Schedule of Delinquent Participant Contributions, which totaled \$231,400 were not yet corrected in 2018. Additionally, the Company intends to compensate participants for lost earnings resulting from the delay in contributions.
