Savings Plan for Union Employees of Unilever

Notes to Financial Statements

December 31, 2018 and 2017

1. Description of the Plan

The Savings Plan for Union Employees of Unilever (the “Plan”) is a defined contribution plan that is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan’s sponsor is Conopco, Inc. (the “Company”). Assets of the Plan along with assets from the UNICare Savings Plan, an affiliated plan, sponsored by Unilever United States, Inc., the parent of the Company (“Unilever US”), are maintained in the Unilever United States, Inc. Master Trust (the “Master Trust”). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the summary plan description for more complete information.

Eligibility

All employees at the Hammond, Indiana plant represented by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy and Allied Industrial and Service Workers International Union Local 7-0336 (“Hammond plant”) are eligible to become participants of the Plan after the completion of 90 days of continuous service.

Unilever sold the Baking, Cooking, Spreading (BCS) business to KKR effective July 1, 2018. A new company, Upfield, was formed, and former BCS employees became Upfield employees effective July 2, 2018. BCS employees terminated employment under Unilever on July 1, 2018 and had the choice of leaving their balances in the UNICare Savings Plan (if the balance was over \$1,000), rolling their balances into an IRA or the new Upfield Savings Plan, or taking a distribution payable to themselves. There was no transfer of assets into the new Upfield Plan. This impacted both non-Union employees and Union employees at the New Century (Olathe) Kansas factory.

All employees located at the Chicago, Illinois plant represented by the United Food and Commercial Workers International Union AFL-CIO, CLC Local 399 or the International Union of Operating Engineers AFL-CIO Local 100A (“Chicago plant”) who are at least 18 years old are eligible to become participants of the Plan after the completion of 45 days of service.

All employees at the Independence, Missouri plant represented by the International Brotherhood of Teamsters Local 838 (“Independence plant”) are eligible to become participants of the Plan after the completion of one year of service.

All employees at the St. Albans, Vermont plant represented by the International Brotherhood of Electrical Workers Local 300 (“St Albans plant”), scheduled to work twenty or more hours a week are eligible to participate in the Plan upon date of hire. Employees who are not regularly scheduled to work twenty or more hours a week can participate in the Plan after completing one year of service, if determined they have completed at least 1,000 hours in a given year.

All employees at the Suffolk, Virginia plant represented by the United Food & Commercial Workers International Union Local 40, scheduled to work twenty or more hours a week are eligible to participate in the Plan upon date of hire.

Contributions

Plan participants are permitted to make voluntary contributions to the Plan through payroll deductions. Before-tax contributions, representing 401(k) contributions are deposited in a “before-tax account” and after-tax contributions, where applicable, are deposited in an “after-tax account.” Before-tax contributions are limited to \$18,500 and \$18,000 for 2018 and 2017,

Savings Plan for Union Employees of Unilever

respectively. Participants who will be age 50 or older by the end of the Plan year are eligible to make before-tax catch-up contributions limited to \$6,000 for both 2018 and 2017, respectively.

The permitted contributions vary for each collective bargaining unit at the discretion of the Company and range from 1%-16% to 1%-20% of eligible compensation through payroll deductions on a before-tax basis and after-tax basis, respectively, or a combination of both provided that the maximum participant contribution to the before-tax and after-tax accounts do not exceed 16% to 20% of eligible compensation.

The Company matches contributions made by participants for some employees, based on the terms of the applicable collective bargaining agreement. Company matching contributions vary for each collective bargaining unit at the discretion of the Company and range from 100% of 4% to 100% of 5% of eligible earnings participants elect to contribute.

All collective bargaining employees at the St. Albans plant hired on or after April 1, 2007, at the Hammond plant hired on or after January 12, 2007, at the Suffolk plant hired on or after January 1, 2007, at the Chicago plant represented by the United Food and Commercial Workers International Union AFL-CIO, CLC Local 399 hired on or after November 22, 2008, and at the Chicago plant represented by the International Union of Operating Engineers AFL-CIO Local 100A hired on or after December 16, 2008 are eligible to receive non-elective contributions of 4% of compensation after one year of service.

Under the provisions of the UNICare Retirement Plan, participants who retire from that plan may roll over their lump sum distribution to the Plan.

UNICare Retirement Plan, an affiliated plan, was frozen effective June 30, 2017, and there were no more benefit accruals under that plan for all non-union employees, and some union employees (Suffolk, Ben & Jerry's, Independence Unions). Instead, all impacted Union employees now receive a 4% Company Non-Elective contribution in the Savings Plan for Union Employees of Unilever. All non-union employees, and Suffolk and Ben & Jerry's Union employees receive 100% company matching contribution up to 5% on their base pay. Independence Union employees continued to receive a company match of 50% of the first 8% that the employee contributes. However, effective February 1, 2018, Independence Union employees started receiving a company match of 100% of the first 4% that the employee contributes.

Based on 2016 union negotiations, Chicago Union employees started receiving a company match of 100% of the first 4% that the employee contributes effective April 1, 2016. The pension plan for the Chicago Union employees, an affiliated plan, was frozen effective August 31, 2018, and there were no additional benefit accruals under this plan for Chicago union employees. Instead, effective September 1, 2018, all impacted Chicago union employees now receive a 4% Company Non-Elective contribution in the Savings Plan for Union Employees of Unilever.

Notes to Financial Statements

December 31, 2018 and 2017

Transfer of Assets to Plan

In August 2016, the hourly employees at the Suffolk, Virginia factory voted to unionize. During October 2017, the related participants' balances in the amount of \$23,724,491 were transferred from the UNICare Saving Plan, an affiliated plan to the Savings Plan for Union Employees of Unilever. There was no change to the Savings Plan formulas already communicated prior to their vote to unionize. Effective July 1, 2017, all Suffolk union employees received a 100% company match up to 5% of base pay, plus a 4% Company Non-Elective contribution on base pay plus bonus pay, after one year of service.

Participant Accounts

Each participant's account is credited with: (a) the participant's contribution; (b) the Company's contribution; and (c) an allocation of Plan earnings (losses) and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participants are fully vested in all of their before-tax and after-tax contributions as well as the earnings thereon.

Participants are immediately vested in company matching contributions. Non-elective contributions vest after three years of service, upon attainment of age 65, death from active status or disability for all participants receiving non-elective employer contributions.

The balance of forfeitures was \$65,958 and \$41,266 as of December 31, 2018 and 2017, respectively. Amounts forfeited by non-vested participants who terminated employment during the years ended December 31, 2018 and 2017 were \$118,977 and \$21,531, respectively. Forfeitures reduced Company matching contributions and Company non-elective contributions in the amount of \$95,358 and \$133,080 for the years ended December 31, 2018 and 2017, respectively.

Payment of Benefits

Provisions for the withdrawal of contributions of active participants vary for each collective bargaining unit in accordance with the collective bargaining unit agreement and include in-service withdrawals of the after-tax account, prior plan profit sharing account, portion of Company matching account on deposit for two years, before-tax account for reasons of hardship provided the withdrawal does not exceed the amount of the hardship, and before-tax account and Company matching account following attainment of age 59.5.

Upon termination of employment, participants are entitled to all of their vested balances and must receive their full balance upon reaching the age of 65.

Retired employees may elect to leave their account balances in the Plan until they attain age 70.5, at which time Internal Revenue Service (the "IRS") regulations require minimum distributions to be made. Failure to make a voluntary election to defer payment will result in a total distribution of vested Plan balances at age 65.

Investments

Participants have the option to direct contributions towards a wide variety of funds in the Master Trust including capital preservation, fixed income, balanced, equity and the Unilever N.V. Stock Fund. The fund line-up includes custom Target Date Funds, six core investment funds and Fidelity Brokerage Link. The funds offered by the Plan are as follows:

Funds were liquidated in an orderly manner and remaining stock fund balances were transferred into the target – date fund closest to each employee’s expected retirement date (assuming retirement at age 65). This was completed prior to December 31, 2017.

Notes Receivable from Participants

At the request of Plan participants, notes receivable from participants are permitted up to the lesser of \$50,000 reduced by the largest outstanding loan balance in the previous 12 months or one-half of the participants’ vested interest in their accounts less any outstanding loans. Loans bear interest at a fixed rate determined at the time of origination based on the Reuters published prime rate plus one percent. Loans relating to the acquisition or construction of a participant’s principal residence are to be repaid within fifteen years. All other loans are required to be repaid within five years.

For participants that were transferred from the Ben and Jerry's Homemade Plan in 2006, loans relating to the acquisition or construction of a participant's principal residence are to be repaid within thirty years. All other loans are required to be repaid within five years.

Effective October 1, 2014, the loan policy and/or Administrative Services Agreement were amended to permit 1) terminated participants to continue to repay a plan loan, and 2) the full or partial prepayment of a plan loan at any time.

Administration

The Plan provides that the Benefits Administration Committee is responsible for the general administration of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Valuation of Plan Investments and Income Recognition

The assets of the Plan have been commingled in the Master Trust with the assets of the UNICare Savings Plan for investment and administrative purposes. The investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. The Plan's investment in the Master Trust is primarily stated at fair value and is based on the beginning of the year value of the Plan's interest in the Master Trust plus contributions and allocated investment income (loss) less distributions and allocated expenses. However, certain fully benefit-responsive investment contracts are stated at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on the sale of investment securities are determined on the average cost method. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the investment income (loss) for the Plan's interest in the Master Trust, which consists of its allocated share of investment income and (loss), realized gains and losses, and the change in unrealized appreciation and depreciation from the Master Trust.

Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses as incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are recorded as distributions based on the terms of the Plan.

Benefit Payments

Benefit payments are recorded when paid and include deemed distributions of \$116,336 and \$13,364 for the years ended December 31, 2018 and 2017, respectively.

Savings Plan for Union Employees of Unilever

Notes to Financial Statements

December 31, 2018 and 2017

Administrative Expenses

Investment management fees for all funds are included as a reduction of investment income. Certain other professional fees are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, if any, at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Through the Master Trust, the Plan provides for various investment options in any combination of stocks, commingled funds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the December 31, 2018 and 2017 Statements of Net Assets Available for Benefits.

The Master Trust is exposed to credit loss in the event of non-performance by the companies with whom guaranteed investment contracts are placed. However, the Plan does not anticipate non-performance by these companies and believes that the risk to the Master Trust portfolio from credit loss is not material due to the diversified nature of assets held.

Effects of New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This update requires disclosure of the dollar amount of the plan's interest in each type of investment held by a master trust, as well as the master trust's other assets and liabilities on a gross basis and the dollar amount of the plan's interest in each balance. This update is effective for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented and with early adoption permitted. The Company does not expect this update to have a material impact on the Plan's financial statements.

The Plan is not aware of any other new accounting standards that were required to be adopted in 2018, or yet to be adopted, that would impact the Plan's 2018 or prospective financial statements.

3. Tax Status of the Plan

The Plan last received a favorable tax determination letter dated April 23, 2014. The Plan has been amended subsequent to the receipt of the IRS determination letter, however the Plan Administrator believes that the plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires the Plan's administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Plan's administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition

Savings Plan for Union Employees of Unilever

Notes to Financial Statements

of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Fidelity Management Trust Company, the Trustee of the Plan has certified the completeness and accuracy of all investments and related activity and notes receivable from participants, included in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2018.

5. Investments Held by the Master Trust

At December 31, 2018 and 2017, the Master Trust is comprised of the investment assets of the Plan and the UNICare Savings Plan, an affiliated plan of Unilever US. The Plan has a 5.7% and a 4.9% interest in the investments of the Master Trust as of December 31, 2018 and 2017, respectively. The UNICare Savings Plan comprises approximately 94.3% and 95.1%, respectively, of the investments held by the Master Trust as of December 31, 2018 and 2017. Investment assets of the Master Trust, held by Fidelity Management Trust Company, the Trustee, related earnings (losses) and expenses are allocated to the plans participating in the Master Trust based upon the total of each individual plan's share of the Master Trust.

The Plan's approximate share of various investments held by the Master Trust at December 31, 2018 and 2017 were as follows:

	2018	2017
Short-term investment funds	8.4%	9.1%
Self-directed brokerage accounts	6.5%	7.6%
Commingled funds	5.6%	5.8%

Investment valuation and income recognition of Master Trust

Master Trust investments, with the exception of synthetic guaranteed investment contracts, are stated at fair value. The Investment Committee reviews the valuation and performance of the investment options on an annual basis. There are no redemption restrictions or unfunded commitments for any Master Trust investments.

Investment income (loss) for the Master Trust includes net appreciation (depreciation) of investments, as well as interest and dividends from investments. The net appreciation (depreciation) of investments held in the Master Trust consists of the realized gains (losses) and the unrealized appreciation (depreciation) on these investments.

Investment Contracts

As of December 31, 2018 and 2017, following are synthetic guaranteed investment contracts, of the Master Trust, which are fully benefit-responsive:

Investments, at contract value	2018	2017
Transamerica (IGT Jennison AAA Intermediate Fund and IGT PIMCO AAA or Better Intermediate Fund)	\$ 43,119,541	\$ 43,501,245
State Street Bank (IGT Jennison AAA Intermediate Fund)	39,156,066	39,366,944
Voya (IGT Voya Short Duration)	20,566,015	20,911,355
Voya (IGT PIMCO AAA or Better Intermediate Fund)	14,878,302	15,064,983
Voya (IGT Jennison AAA Intermediate Fund)	9,454,357	9,520,601
Pacific Life Insurance (IGT Invesco Short-term Bond Fund)	39,914,699	40,549,346
RGA (IGT Invesco Short-term Bond Fund)	<u>40,354,884</u>	<u>40,982,849</u>
	<u>\$ 207,443,864</u>	<u>\$ 209,897,323</u>

The Master Trust entered into fully benefit-responsive investment contracts, such as synthetic guaranteed investment contracts ("GICs"), with various third party financial institutions. These fully benefit-responsive investment contracts are held through the INVESCO Interest Income Fund (the "Fund"). Contract values represent contributions made to the investment contract plus earnings, less participant withdrawals and administrative expenses.

A synthetic GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive wrapper contracts issued by third party financial institutions which are backed by underlying assets owned by the Master Trust. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying fixed income investments, typically over the duration of the investments through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest.

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract

Savings Plan for Union Employees of Unilever

Notes to Financial Statements

December 31, 2018 and 2017

- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts' interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying fixed income portfolio. Over time, the crediting rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying investments. Because changes in the market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The amortization of the embedded market value gains (losses) are reflected in future interest crediting rates higher (lower) than if they otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants' principal and accrued interest will be protected.

Events That Limit the Ability of the Master Trust to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the Master Trust, a material adverse change to the provisions of the Master Trust, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Master Trust's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the Master Trust. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted, or published for the commingled funds, prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Savings Plan for Union Employees of Unilever

Notes to Financial Statements

December 31, 2018 and 2017

- Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Mutual Funds

A mutual fund's Net Asset Value ("NAV") is based on the value of underlying assets owned by the fund minus its liabilities and then divided by the number of shares outstanding calculated as of the close of business of the New York Stock Exchange. The mutual fund's assets normally are fair valued for the purpose of computing the fund's NAV. Since the NAV is a quoted price in a market that is active, they are classified within Level 1 of the valuation hierarchy.

Unilever N.V. Stock Fund

Unilever N.V. Stock Fund (the "Fund") consists primarily of shares of Unilever N.V. common stock and a de minimus amount of cash. The unit value of the Fund is derived from the fair value of the common stock based upon quoted market prices in an active market plus cash as applicable and is classified within Level 1 of the valuation hierarchy.

Commingled Funds

These investments are investment vehicles valued using the NAV provided by the administrator of the fund. The values of the underlying assets owned by the fund are valued at quoted market prices in an active market. Each common/collective trust fund provides for daily redemptions by the Plan at reported NAVs with no advance notice requirement. The NAV is a quoted price in a market that is not active and classified within Level 1 of the valuation hierarchy.

Short-term Investment Funds

The short-term investment funds, which include money market funds, are valued at quoted market prices in an active market, which represent the NAVs held by the Plan at year end and are classified within Level 1 of the valuation hierarchy.

In accordance with the guidance relating to fair value measurements, the following tables represent the Master Trust's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2018 and 2017. For the years ended December 31, 2018 and 2017, all of the following financial assets were measured within Level 1 of the valuation hierarchy.

6. Transactions with Related Parties and Parties-in-Interest

The Unilever N.V. Stock Fund invested in shares of Unilever N.V. stock. This fund was designed as a means for employees to participate in the potential long-term growth of Unilever N.V. The Master Trust no longer holds shares of Unilever N.V. stock. The Master Trust also earned dividend income from the common stock of approximately \$1.9 million for the year ended December 31, 2017. Since all stock was sold in 2017, there was no dividend income for the year ended December 31, 2018. The Master Trust had sales and purchases of Unilever N.V. Stock of approximately \$70.3 million and \$0 in 2017. Following June 30, 2015, participants can no longer invest in this option.

Certain Master Trust investments consist of units in investment funds managed by Fidelity, the Trustee. Fidelity owns these investment funds, and is a party-in-interest as defined by ERISA. In the opinion of the Plan administrator, fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services. The administration fees paid by the Plan during 2018 and 2017 disclosed on the Statements of Changes in Net Assets Available for Benefits were paid to Fidelity.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of the Plan termination, the participant's rights to their accrued benefits are non-forfeitable. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. Delayed Deposits of Employee Contributions

During 2017, the Plan inadvertently delayed making certain deposits for employee withholdings as soon as they could be reasonably segregated. For the year ended December 31, 2017, such delayed deposits totaled approximately \$11,000. The Company funded the lost earnings and filed the related excise tax returns in 2018.

9. Reconciliation of Financial Statements to Form 5500
