NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Savings and Retirement Plan for Civista Bancshares, Inc. and Affiliates (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan is a self-directed, defined contribution salary deferral 401(k) plan in which employees of Civista Bancshares, Inc. and Affiliates (the “Company”) will become eligible to participate on the first day of employment. The Plan includes a 401(k) before-tax savings feature, which permits participants to defer compensation under Section 401(k) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Compensation Committee is responsible for oversight of the Plan and determines the Plan’s valuation policies, utilizing information provided by investment advisors and trustee.

Contributions: Plan participants may contribute a portion of their annual eligible compensation to the Plan. The Plan allows participants to contribute a percentage of their wages up to the maximum allowed by law and allows participants who have attained age 50 by the end of the year to make catch-up contributions, in accordance with Code Section 414(v). Participants may also make rollover contributions, which represent distributions from other qualified plans. The Company makes a matching contribution of 100 percent of the first 3 percent, and 50 percent of the next 2 percent, that the participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company’s Board of Directors. During the year ended December 31, 2018, the Company made a \$615,366 profit sharing contribution to the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant’s account is credited with the participant’s own contribution, an allocation of the Company’s discretionary matching contribution, and an allocation of the investment earnings or loss for the funds in which the participant chooses to invest. Allocations are based on participant earnings, deferrals, and account balances, as defined by the Plan. Participants may change their investment allocation at any time. The benefit to which a participant is entitled is the benefit that can be provided from the balance of the participant’s vested account. Certain Plan expenses may be paid by the employer; however, in the event of absent payment by the employer, the expenses are allocated every quarter to participants’ accounts existing on the allocation date, in the same proportion that the balance of the participant account bears to the sum of all accounts.

Vesting: Participants are immediately 100 percent vested in their compensation deferral contributions, rollover contributions, and any investment earnings or loss on such contributions. The contributions made by the Company to the Plan on behalf of the participants are fully vested after completion of three years of credited service. Participants with less than three years of credited services are not vested in the Company’s contribution to the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: Forfeitures of employer matching contributions are used to offset future employer matching contributions or administrative expenses of the Plan. As of December 31, 2018 and 2017, forfeitures totaled \$5,182 and \$17,548, respectively. During the year ended December 31, 2018, forfeitures totaling \$17,548 were used to reduce the employer matching contributions.

Notes Receivable from Participants: Participants may borrow from their vested account amounts ranging from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50 percent of their vested account balance. Loan transactions are treated as a transfer between the participant's investment funds and the participant's loan fund. Loan terms generally range from one to five years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's vested account and bear interest at a rate equal to the prime rate plus 1 percent. Principal and interest are paid ratably through biweekly payroll deductions.

Benefits and Withdrawals: Distributions of a participant's interest will be made upon death, permanent disability, retirement, or termination. A participant is entitled to 100 percent of his or her account balance upon retirement, death, or disability. If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled. A participant may receive his or her distribution in the form of a lump sum. A participant may also request a distribution from the participant's vested account to meet an immediate financial hardship, pursuant to guidelines by the IRC.

Investments: Participants may direct the investment of assets in their individual accounts into various investment funds that have been approved by the Compensation Committee. Such assets are invested in mutual funds or common/collective funds offered by Hand Benefits & Trust Company (Trustee).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies and principles that significantly affect the determination of net assets and changes in net assets are summarized below.

Basis of Accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. As of December 31, 2018, the interest rates on notes receivable ranged from 4.25 percent to 6.25 percent, while the maturity dates ranged from January 2, 2019 to October 8, 2027. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) is recorded as a liability, with a corresponding reduction to contributions. There were no contributions payable as of December 31, 2018 or 2017.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in a combination of mutual funds or common/collective investment funds. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - INCOME TAX STATUS

The Plan adopted a Non-Standardized Prototype Plan Document. The IRS has informed the Non-Standardized Prototype Plan Document sponsor, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 4 - INVESTMENTS

The Plan Administrator has obtained certifications from the Hand Benefits & Trust Company that information provided to the Plan Administrator by the Trustee related to the Plan's investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule, related to the investments.

The Trustee also certified to the completeness and accuracy of \$3,363,800 of net depreciation in fair value of investments (including investments bought, sold, and held during the year) and \$1,349,990 of dividends related to the aforementioned investments for the year ended December 31, 2018.

NOTE 5 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions and earnings thereon.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under the DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Participant loans held by the Plan reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. During 2018, certain expenses of maintaining the Plan, including administrative expenses and custodial fees, are paid by the Plan, which amounted to \$64,294. Certain other fees related to accounting expenses of the Plan are paid on the Plan's behalf by the Company and amounted to \$10,000 during 2018.

NOTE 7 - FAIR VALUE MEASUREMENTS

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels defined by U.S. generally accepted accounting principles are as follows:

- Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.
- Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 7 - FAIR VALUE MEASUREMENTS (Continued)

Common/Collective Funds

Valued at the NAV of shares held by the Plan at year-end and adjusted for any cash held for liquidity purposes and any fees imposed by the fund. The NAV per unit is determined by dividing the net assets by the number of units outstanding on the day of valuation. In accordance with the terms of the Plan of Trust, the NAV of the fund is determined daily. Units are issued and redeemed daily, at the daily NAV. Also, the net investment income and realized and unrealized gains on investments are not distributed. The fair value of the Federated Capital Preservation Fund, which primarily holds investments in fully benefit-responsive contracts, is calculated by the issuer using a discounted cash flow model, which considers (i) recent fee bids as determined by recognized dealers, (ii) discount rate, and (iii) the duration of the underlying portfolio securities. This investment attempts to stabilize NAV of its shares at \$10.00 by valuing its portfolio securities using the amortized cost method. A market-based NAV per share is calculated on a periodic basis. The issuer does not guarantee that the NAV will always remain \$10.00 per share. The fair value of the Plan's investment in the Federated Capital Preservation Fund is based on its proportionate ownership of the underlying investments. There are no imposed restrictions as to the redemption of these investments. However, Plan-level initiated transactions require a 12-month redemption notice in order to withdraw at full book rate.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient are not required to be categorized in the fair value hierarchy tables. The total fair value of these investments is included in the tables below, to permit reconciliation of the fair value hierarchy to amounts presented in the Statements of Net Assets Available for Benefits.

(a) Participants may redeem units of the Federated Capital Preservation Fund for the purpose of funding a bona fide benefit payment, making a participant loan, honoring an employee-directed transfer of the employee's interest in the Plan to another investment election that is a noncompeting investment, or paying Trustee fees. Participants may make withdrawals from the Federated Capital Preservation Fund for other purposes with, generally, only 12 months' advance written notice to the Trustee.

(b) Participants may redeem units of the HB&T BlackRock for the purpose of funding a bona fide benefit payment, making a participant loan, honoring an employee-directed transfer of the employee's interest in the Plan to another investment election that is a noncompeting investment, or paying Trustee fees. Participants may make withdrawals from the HB&T BlackRock for other purposes with, generally, only 12 months' advance written notice to the Trustee.

NOTE 8 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The Plan discloses the fair value of its financial instruments. Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract that creates an obligation or right to receive or deliver cash or another financial instrument from/to a second entity on potentially favorable or unfavorable terms. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation or sale. If a quoted market price is available for a financial instrument, the fair value would be calculated based upon the market price per trading unit of the instrument. Investments, notes receivable from participants, and contributions receivable from employer and participants would be considered financial instruments. At December 31, 2018 and 2017, the carrying amounts of these financial instruments approximate fair value.

NOTE 9 – ROLLOVER CONTRIBUTIONS

On September 14, 2018, the Company acquired United Community Bancorp and approved an amendment to terminate the United Community Bank 401(k) Profit Sharing Plan effective September 7, 2018. All participants in the United Community Bank 401(k) Profit Sharing Plan became 100 percent vested in that plan upon termination and were provided the option to have their account balance rolled into any qualified plan (including the Plan) or Individual Retirement Account, receive a lump-sum distribution, or be paid through an annuity contract. An aggregate of \$93,439 was rolled into the Plan during the year ended December 31, 2018, and is included in rollovers on the statement of changes in net assets available for benefits.

NOTE 10 - SUBSEQUENT EVENTS

The Plan assessed events occurring through October 3, 2019, the date the financial statements were issued. No subsequent events occurred requiring accrual or disclosure.
