NOTES TO FINANCIAL STATEMENTS

The Mifsud Group, LLC 401(k) Plan

1 Description of Plan

The following description of The Mifsud Group, LLC 401(k) Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan includes the following related entities collectively known as the "Company": The Mifsud Group, LLC, TMG Performance Products, LLC and Montana Metal Products, L.L.C.

The Plan, which began January 8, 2009 and was restated on January 5, 2016, is a defined contribution plan covering all employees who meet the employee classification, hour and age requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective September 1, 2018, the Plan was amended to allow eligible participants to convert any part of their pre-tax employee deferral and vested employer match balance that is not part of an outstanding loan balance, to designated Roth Contributions.

Eligibility:

All employees are eligible, except for employees covered by a collective bargaining agreement, leased employees, and telemarketers, temporary and part time employees. An employee must be age eighteen or older and employed for one month.

Contributions:

Employee Contributions - Participants may elect up to 100% of their compensation to be contributed to the Plan by the Company. Newly eligible participants employed by The Mifsud Group, LLC and TMG Performance Products, LLC are automatically enrolled in the Plan with a deferral percentage of 3%, unless they affirmatively elect otherwise. Catchup and Roth 401(k) contributions are allowed for all participants meeting the requirements. Effective January 1, 2018, the Plan was amended, to include Montana Metal Products, L.L.C. eligible participants in the automatic enrollment option at 3%, unless they affirmatively elect otherwise.

Employer Contributions - The Company may make contributions to each eligible participant's account by matching a percentage of the participants' elective deferral for the Plan year. The Company contributed 50% of the participants' elective deferral, not to exceed 1.5% of the participants' compensation.

Employer Discretionary Contributions - The Company may also make additional profit-sharing contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year. The Company made no additional profit-sharing contributions to the Plan during 2018 or 2017.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Investments held in common collective trusts are valued based on their underlying investments using a variety of methodologies including pricing services, dealer quotes, and net asset per share calculated on a specific valuation date. Participants can transact with the common collective trust daily and there are no unfunded commitments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Certain administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

2 Summary of Significant Accounting Policies, Continued

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 3, 2019, which is the date the financial statements were available to be issued.

3 Tax Status

On March 31, 2014, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2018 and 2017, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability

The Mifsud Group, LLC 401(k) Plan

4 Fair Value Measurements, Continued

- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices.

Common Collective Trust:

The fair value of the common collective trust is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on quoted market prices or commercial quotation services. The common collective trust is classified in the Level 2 category of the valuation hierarchy.

Participant transactions (purchases and sales) may occur daily. Withdrawals by participants for purposes of benefit payments or transfer to a noncompeting option are processed within 30 days of receipt of written notification. Transactions other than those initiated by a participant for specific purposes of a sale, purchase, transfer or benefit payment require 12 months advanced written notice.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 4,199,717	\$ -	\$ -	\$ 4,199,717
