Metal Powder Products 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Metal Powder Products 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Metal Powder Products, LLC ("Employer" or "Company"), who are age 18 or older and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established as of January 1, 2014, when the assets within the Revere Industries, LLC 401(k) Plan that were associated with participating Metal Powder Products employees were spun off and transferred into the Plan. On December 31, 2018, NetShape Technologies 401(k) Plan was merged into the Plan.

Contributions: Participants may contribute a percentage of their annual pre-tax compensation, as defined, up to the maximum amount allowed by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a qualified matching contribution equal to 100% of each Participant's elective deferrals not exceeding 3% of the Participant's Compensation, plus 50% of each Participant's elective deferrals in excess of 3% but not in excess of 5% of the Participant's Compensation. In addition, the Company may make additional discretionary nonelective contributions to the Plan. There were no discretionary contributions made in 2018.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution, the Company's discretionary contribution, if any, plan earnings and administrative expenses. Allocations are based on participant contributions, participant earnings or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions and the Company's qualified matching contributions plus the actual earnings thereon. Vesting in the Company's nonelective contributions plus actual earnings thereon is based upon years of continuous service and begins after two years of service. A participant is 100% vested over five years of credited service. Participants who participated in the NetShape Technologies, Inc. 401(k) Plan are 100% vested in regular matching contributions as part of the provisions set out in the plan merger.

Investment options: Upon enrollment in the Plan, participants direct the investment of their contributions into a variety of investment options, as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Active participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. One outstanding loan is permitted per participant at any time. The maximum loan term allowed is five years unless used to purchase the participant's principal residence. The loans bear interest at 1% over the Prime Rate published in the Wall Street Journal. At December 31, 2018, interest rates ranged from 4.25% to 6.25%. Principal and interest are payable each pay period, primarily through payroll deduction.

Note 1. Plan Description (Continued)

Payment of benefits: Upon termination of employment for any reason including retirement, the participant may elect to receive a lump-sum amount equal to the vested value of his or her account. In addition, participants may make withdrawals upon reaching the age of 59.5 or a financial hardship, as defined by the plan agreement, has been incurred. Benefit amounts under \$1,000 are automatically distributed to participants upon termination.

Forfeited accounts: Forfeitures of the employer's nonelective contributions will be used for the payment of plan expenses or to reduce future nonelective employer matching contributions. At December 31, 2018 and 2017, forfeited non-vested accounts were zero. For the year ended December 31, 2018, the Plan used \$17 of the forfeited accounts.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully-benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administration of plan assets: Administrative expenses for the trustee's fees and other expenses were paid by the Plan.

Subsequent events: Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Great West Trust Company, LLC (Great West)

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Great West, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information, except for comparing such information to which it appears throughout the financial statements and supplemental schedule related to the following assets.

Great West certified the following investment balances as of December 31, 2018 and 2017:

	2018	2017
Mutual funds	\$ 7,908,768	\$ 9,984,682
Fixed annuities	983,425	948,951
Collective trust (Note 6)	329,624	-
	<u>\$ 9,221,817</u>	<u>\$ 10,933,633</u>

Great West also certified as to the completeness and accuracy of \$1,292,255 of net depreciation in fair value of investments and \$619,810 of interest and dividends related to the aforementioned investments for the year ended December 31, 2018.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Metal Powder Products 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Cash: Valued at cost which approximates fair value.

Shares of mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,908,768	\$ -	\$ -	\$ 7,908,768
Collective trust	329,624	-	-	329,624
Total	<u>\$ 8,238,392</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,238,392</u>

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,984,682	\$ -	\$ -	\$ 9,984,682
Collective trust	-	-	-	-
Total	<u>\$ 9,984,682</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,984,682</u>

Note 5. Fully Benefit-Responsive Investment Contracts

The Plan has a fully benefit-responsive guaranteed investment contract (GIC) with Great West Life & Annuity (GWLA). GWLA maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Limitations on the ability of the GIC to transact at contract value: Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. GWLA may not terminate the contract at any amount less than the contract value.

Metal Powder Products 401(k) Plan

Notes to Financial Statements

Note 5. Fully Benefit-Responsive Investment Contracts (Continued)

Average yields: GWLA is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with GWLA. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2018
Average yields:	
Based on annualized earnings ⁽¹⁾	1.10%
Based on interest rate credited to participants ⁽²⁾	1.10%

⁽¹⁾ Computed by dividing the annualized one-day actual earnings on the contract on the last day of the plan year by the fair value on the investments on the same date.

⁽²⁾ Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

Note 6. Plan Merger

The Board of Directors of Metal Powder Products Holdings LLC, the Plan's sponsor, voted on September 5, 2018, to merge the NetShape Technologies Inc. 401(k) Plan into the Plan effective December 31, 2018. All of the NetShape Technologies Inc. 401(K) Plan assets, which approximated \$14,900,000, were transferred to the Metal Powder Products 401(k) Plan on December 31, 2018. The merger does not impact participant benefits as the benefit provisions were incorporated in the Metal Powder Products plan.

Note 7. Party-in-Interest Transactions

The Key Guaranteed Portfolio Fund is managed by Great West Life & Annuity (GWLA) Insurance Company. Great West Trust Company, LLC is the directed trustee for GWLA and, therefore, these transactions qualify as exempt party-in-interest transactions. During the plan year ended December 31, 2018, Great West received fees paid by the plan for its services provided to the Plan totaling \$3,068.

Certain accounting and administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan for such services.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is exempt from taxation at the financial statement date.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2018, there are no uncertain positions taken by or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
