1. PLAN DESCRIPTION

The following is a brief description of the Weitsman 401(k) Retirement Plan (the "Plan"), provided for general informational purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General **–** The Plan was established and became effective April 1, 2018. The Plan is a defined contribution plan as permitted under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is funded by employee contributions and covers all eligible employees of Weitsman Recycling, LLC (the "Company" or "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Certain Plan administrative expenses are paid by the Plan Sponsor.

Contributions – Participants may elect to contribute up to 100% of their eligible Plan defined compensation on an after-tax basis, or if elected by the participant, on a pre-tax basis limited to the IRC maximum. Additionally, participants age 50 or older can elect to make a catch-up contribution limited to the amount imposed by law.

Vesting – Participants are immediately vested in their voluntary contributions and earnings thereon. Participants are fully vested upon disability or death.

Participant Accounts – Each participant's account is credited with the participant's contribution and an allocation of the Plan earnings. Allocations of earnings are based on participant account balances.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Payment of Benefits – Employees are eligible for retirement at age 65. Benefits are determined by the final value of the participant's account at the time of retirement, termination or death. Various payment options are available upon retirement including lump-sum cash or minimum distribution installments.

Forfeitures – Forfeitures, in the event there are any, can be used to reduce administrative expenses. During the nine month period ended December 31, 2018, there were no forfeitures available or used to offset plan expenses.

Withdrawals and Distributions – Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or actual retirement date.

Participants may receive their accumulated benefits upon termination of employment or elect to keep their account in the Plan until the earlier of normal retirement age, death or disability if their account balance exceeds $5,000. If the participant elects to keep their account in the Plan, the account will continue to receive its share of gains and losses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition – The Plan determines the fair value of assets and liabilities which are subject to reporting at fair value based on standards established within generally accepted accounting principles. These standards establish a hierarchy for the determination of fair value, as well as disclosure requirements relative to those assets and liabilities. The hierarchy identified three levels of input. Level 1 inputs are generally quoted market prices for identical assets or liabilities, which are actively traded on an exchange. Level 2 inputs generally consist of market prices for identical assets which are not actively traded or market prices of similar assets or liabilities which are actively traded on an exchange. Level 3 inputs are referred to as unobservable inputs and consist primarily of information derived by management where Level 1 and Level 2 inputs are not available. These may include such things as present value of expected future cash flows or other valuation methodologies. Under the hierarchy, Level 1 inputs are the most preferred followed by Level 2, and Level 3. Level 3 inputs are to be used when neither Level 1 nor Level 2 inputs are available.

An investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2018:

Mutual funds: Valued based on quoted market prices available on an active market, which represent the net asset values of the shares held by the Plan at year-end.

Common collective trusts: The common collective trusts are valued at the net asset values ("NAV") of units held by the Plan at year-end. The common collective trusts have been measured at fair value using the NAV practical expedient as of December 31, 2018, and generally have no redemption restrictions or unfunded capital commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan presents in the statement of changes in net assets Available for Benefits the net depreciation in fair value of investments, which includes unrealized and realized gains and losses on investments that were held or sold during the year.

Purchases and sales are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date and is included in net depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Payment of Plan Benefits – Benefits paid to participants are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management of the Plan has evaluated the effects of all subsequent events through September 30, 2019, the date the financial statements were available to be issued, to determine if events or transactions occurring through that date require potential adjustment or disclosure in the financial statements.

3. PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are issued or managed by Hands Benefits and Trust Company, the trustee, as defined by the Plan. Therefore these transactions qualify as party-in-interest transactions.

4. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures (as discussed in Note 2). The following table sets forth, by level within the fair value hierarchy, the Plan's assets that are measured at fair value, with the exception of the common collective trusts that are measured at fair value using the NAV practical expedient. The fair value for the common collective trusts is provided below to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

Level 1:	
Mutual funds	$ 19,935
Investments measured at net asset value:	
Common collective trusts	6,403
Total investments, at fair value	$ 26,338

5. INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service ("IRS") stating the Plan is qualified under applicable sections of the IRC, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and the related trust net investment income is tax exempt.
