NEON, Inc. 401(k) Plan

Notes to Financial Statements (in Liquidation)

December 31, 2018 and 2017

Note 1 – Description of the Plan

The following description of the NEON, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

Freezing of the Plan. Effective January 1, 2017, the Company's Board of Directors resolved to freeze the Plan, provided that the repayment of any outstanding loans shall continue to be processed through payroll withholding after such date. Also, effective January 1, 2017, employees of the Company became eligible to participate in the Battelle Employees' Savings Plan ("Battelle Plan").

As further discussed in Note 4, effective July 25, 2017, the Plan's investment in the Key Guaranteed Portfolio Fund was frozen. As such, no transfers into this investment option was permitted for the period from July 25, 2017 through July 24, 2018.

Termination of the Plan and Transfers to Battelle Plan. Effective December 31, 2017 ("Termination Date"), the Company's Board of Directors terminated the Plan. In connection with the Plan's termination the following:

- New Plan loans are no longer available on or after the Termination Date. If a participant does not repay the entire outstanding loan balance prior to the distribution of benefits or the expiration of any grace period for late payments as provided under the Internal Revenue Code ("IRC"), the participant's vested interest in the Plan shall be reduced by the remaining outstanding balance of the loan (to the extent such vested interest is used as security for the loan) and the remaining vested interest shall be maintained for the participant. Furthermore, if permitted by the Battelle Plan recordkeeper and its plan administrator, an active participant who is eligible to participate in the Battelle Plan shall have any outstanding loan notes transferred from the Plan to the Battelle Plan as part of a trust-to-trust transfer of Plan assets.
- Participants who have incurred a severance of employment from NEON and its affiliates, including but not limited to Battelle Memorial Institute, may elect a distribution in accordance with the terms of the Plan document. Each participant eligible to receive a distribution shall receive a distribution form. If the participant fails to return a completed distribution form within 60 days of the date the distribution form is provided, the Plan will directly roll over the participant's account balance to an Individual Retirement Account ("IRA") chosen by the Plan Administrator in accordance with the automatic rollover rules of the Plan document and such distribution will be treated as a Mandatory Distribution. However, if the participant's account balance is \$1,000 or less, a cash distribution will be made as soon as administratively feasible after such 60 day period.
- Participant's who continue to be an employee of NEON or its affiliates, including but not limited to Battelle Memorial Institute, will have their account balance transferred to the Battelle Plan, pursuant to a nonelective trust-to-trust transfer, as soon as administratively feasible after the receipt of a favorable determination letter from the IRS on the Plan's qualified status as terminated (see Note 6) and after the assets invested in the Key Guaranteed Portfolio Fund can be liquidated in 2018 without any financial penalty (see Note 4). The termination of the Plan shall not constitute a distributable event for such participants who participate in the Battelle Plan, as an alternative defined contribution plan under applicable Treasury regulations.

Note 1 – Description of the Plan (continued)

General. The Plan was a defined contribution plan, which went into effect July 1, 2009, that was generally available to employees of the National Ecological Observatory Network, Inc. dba Battelle Ecology, Inc. (the "Company," "Employer," or "Plan Sponsor") who are age 18 or older. Eligible employees could enter the Plan immediately after meeting the eligibility requirements. The Plan excluded non-resident aliens, residents of Puerto Rico, part time/temporary/seasonal employees (unless meeting certain services requirements), visiting scientists, and interns. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan were not guaranteed by the Pension Benefit Guaranty Corporation.

Contributions. Prior to January 1, 2017, the date the Plan was frozen, the following types of contributions were allowable under the Plan:

- Pre-Tax and Roth Deferral Contributions – Participants had the option to contribute a percentage of their annual compensation, as defined in the Plan document, as a pre-tax deferral contribution or after-tax Roth deferral contribution, subject to limitations. Catch up contributions were also allowed for participants age 50 or older.
- Safe Harbor Non-Elective Employer Contributions – The Employer made safe harbor non-elective Employer contribution to eligible participants in an amount equal to 6% of each participant's compensation.
- Rollover Contributions – Certain amounts distributed to participants from other qualified employee benefit plans were allowed to be rolled into the Plan.

All contributions were allocated to the Plan's investment funds at the direction of the participants.

Participant Accounts. Each participant's account was credited with the participant's contributions (pre-tax deferrals, Roth deferrals and rollovers, if any) and an allocation of (a) the Employer's contribution (safe harbor non-elective), (b) fund earnings or losses, and (c) administrative and investment expenses. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Investment Options. Participants had the option to direct their investments into a fully benefit-responsive investment contract or various registered investment companies.

Notes Receivable from Participants. Upon incurring a financial hardship, as defined, participants had the option to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. Loan terms ranged from 12 months up to a maximum of 5 years. A longer term was available if the loan was being used to acquire a principal residence. The loans were secured by the balance in the participant's account and bore a reasonable rate of interest equal to the Prime Rate plus 1% at the date the loan was granted. Principal and interest payments were paid ratably through payroll deductions.

Vesting. Participants were 100% vested at all times in all accounts.

Note 1 – Description of the Plan (continued)

Payment of Benefits. Benefits to participants or beneficiaries generally were payable as a lump sum equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Participants also had the option to rollover their account balance into another qualified retirement plan or IRA. Additionally, participants had the option to request in-service withdrawals of certain portions of their accounts upon attaining age 59½, upon a deemed service distribution, or upon incurring a financial hardship, as defined.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates. The Plan's financial statements have been prepared on the liquidation basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value which approximates fair value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments. Benefits are recorded when paid.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Included in administrative expenses are recordkeeping, investment management, withdrawal charges, and other fees. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 3 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018 and 2017. The following is a description of the valuation methodologies used for assets measured at fair value:

- Registered investment companies ("RICs") are valued at the quoted net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

Fair Value Measurements at December 31, 2017				
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
RICs	\$ 16,189,321	\$ -	\$ -	\$ 16,189,321
Total Assets at Fair Value	\$ 16,189,321	\$ -	\$ -	\$ 16,189,321

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no significant transfers in or out of levels 1, 2 or 3.

Note 4 – Investment Contract with Insurance Company

In 2009, the Plan entered into a traditional benefit-responsive investment contract, the Key Guaranteed Portfolio Fund, with Great-West Life & Annuity Insurance Company ("Great-West"). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value which approximates fair value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4 – Investment Contract with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract, which approximates fair value, at December 31, 2018 and 2017, was \$0 and \$328,619, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. The methodology for calculating the crediting interest rate is based on the earnings of Great-West's underlying assets in their entire medium-long term new portfolio compared to the minimum crediting interest rate, 0% as stated in the contract, and prevailing market conditions. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include:

1. Declaration of a Contribution Cessation Date: Either Great-West or the Plan Sponsor may request a Contribution Cessation Date upon a 90 day written request to the other party. In the event a Contribution Cessation Date is declared by either party (i) no further contributions will be made under the terms of the investment contract and (ii) no new participant accounts will be established. Furthermore, on the Contribution Cessation Date, the Plan Sponsor may elect a Cessation Option in which (i) the Plan Sponsor may direct Great-West to maintain participant's accounts until it is applied to a Payment Option or distributed to a participant or beneficiary or (ii) Great-West will pay the Plan Sponsor the contract value of the investment contracts, however, Great West reserves the right to defer the payment of this amount for a period of 12 months from the Contribution Cessation Date.
2. Contract Termination: Either Great-West or the Plan Sponsor may terminate the investment contract upon a 90 day written request to the other party. In the event of contract termination, a Contract Termination Charge may apply in addition to other contract charges and fees. Contract Termination Charges will apply if the investment contract is terminated prior to Great-West's recovery of any and all Start-Up Costs incurred by Great-West.
3. Plan Termination: In the event of Plan termination, a Contract Termination Charge, as described above, may apply in addition to other contract charges and fees.

During 2017, the Plan administrator declared a Contribution Cessation Date effective July 25, 2017, and elected a Cessation Option which provided for Great-West to transfer all funds currently deposited in the investment contract into the Plan's Qualified Default Investment Alternative ("QDIA"), which is the Vanguard Target Retirement fund based on the participant's age at the time of transfer. Such transfers occurred on July 26, 2018, 12 months from the Contribution Cessation Date, at contract value, without a contract termination charge. During the period from July 25, 2017 through July 24, 2018, no transfers into the investment contract were permitted.

Note 5 – Certified Information

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan have certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits (in Liquidation) as of December 31, 2018 and 2017;
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits (in Liquidation) as of December 31, 2018 and 2017;
- Investment amounts, as shown in Notes 3 and 4;
- Investment income (loss), as shown in the Statement of Changes in Net Assets Available for Benefits (in Liquidation) for the year ended December 31, 2018;
- Interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits (in Liquidation) for the year ended December 31, 2018;

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 6 – Tax Status

On March 30, 2018, the Plan administrator requested an IRS determination letter on the termination of the Plan. On July 25, 2018, the Plan administrator received a favorable IRS determination letter on the Plan's termination.

The Company has adopted a Great-West Trust Company, LLC ("Great-West Trust") Prototype Standardized Profit Sharing Plan Document ("prototype plan"). The prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014, which stated that the prototype plan is qualified under the applicable sections of the IRC. The Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related trust is tax exempt as of December 31, 2018 and 2017. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Party-In-Interest Transactions

The Company provided to the Plan certain accounting and administrative services for which no fees were charged.

Certain Plan investments were shares/units of registered investment companies and a fully benefit-responsive investment contract offered by Great-West Trust and Great-West. As Great-West Trust and Great-West are the custodians of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintained notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 8 – Nonexempt Prohibited Transaction

During 2017, the Company had a nonexempt prohibited transaction related to loan repayments not remitted to the trust in a timely manner as listed on Schedule H, Line 4a: Schedule of Delinquent Participant Contributions. The principal amount of the late loan repayments have been remitted into the Plan's trust and in March 2018 the Company remitted lost earnings into the Plan's trust in order to correct this nonexempt prohibited transaction.

Note 9 - Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 20, 2019, which is the date the financial statements were available to be issued.
