Independent Auditors' Report

To the Participants and Plan Administrator of
the FMC Technologies, Inc. Employees' Retirement Program

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FMC Technologies, Inc. Employees' Retirement Program (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to investments information summarized in Note 7, and related income included in the financial statements and supplemental information, which was certified by Northern Trust Company, the trustee of the Plan (Trustee), except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the Plan's investments assets and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2018 and 2017 and for the years then ended, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental information listed in the table of contents as of and for the year ended December 31, 2018 is required by DOL Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental information, other than that derived from the information certified by the Trustee, has been audited by us in accordance with US GAAS and, in our opinion, is presented in compliance with DOL Rules and Regulations for Reporting and Disclosure under ERISA.

**FMC TECHNOLOGIES, INC. EMPLOYEES’
RETIREMENT PROGRAM
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2018 AND 2017**

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the FMC Technologies, Inc. Employees’ Retirement Program (the “Plan”) provides general information. Participants should refer to the Plan document for a complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan covering certain employees of FMC Technologies, Inc. (the “Company” or “Plan administrator”), its retirees and terminated vested employees. The Plan is subject to the provisions of The Employee Retirement Security Act of 1974, as amended (“ERISA”). The Plan’s assets are held in a trust with The Northern Trust Company (the “Trustee”). All of the assets of the Plan are available to pay benefits to participants of the Plan.

The Employee Benefits Committee and Plan Investment Committee are subcommittees of the Compensation Committee of the Board of Directors of the Company. The Employee Benefits Committee has overall responsibility for the operation and administration of the Plan while the investment decisions related to the Plan are made by the Plan Investment Committee.

Plan Amendments

On October 2, 2009, the Board of Directors of the Company amended the Plan to freeze participation in the Plan for all new nonunion employees hired or rehired on or after January 1, 2010, and current nonunion employees with less than five years of vesting service as of December 31, 2009 (“frozen participants”). For current nonunion employees with less than five years of vesting service as of December 31, 2009, benefits accrued under the Plan and earned as of that date were frozen based on credited service and pay as of December 31, 2009.

On December 31, 2017, the Company amended the FMC Technologies, Inc. Employees’ Retirement Program Part I Salaried and Nonunion Hourly Employees’ Retirement Plan and the FMC Technologies, Inc. Salaried Employees’ Equivalent Retirement Plan (the “Plans”) to freeze benefit accruals for all participants of the Plans as of December 31, 2017. After that date, nonunion participants in the Plans no longer accrue any further benefits and participants’ benefits under the Plans are determined based on credited service and eligible earnings as of December 31, 2017.

Effective December 31, 2018, the FMC Technologies, Inc. Employees’ Retirement Program Part II Union Employees’ Retirement Plan was amended to freeze future participation and benefit accruals for all union participants of the Plan.

Eligibility, Vesting and Benefits

The following provisions of the Plan apply to the eligible salaried and nonunion hourly employees of the Company:

The normal retirement age is 65. A participant who terminates employment prior to completing five years of vesting service is not eligible to receive a pension under the Plan. However, an active participant becomes vested at age 65 regardless of the years of service.

The normal annual benefit amount is equal to the sum of [(1) + (2)] times (3) where:

- (1) 1% of final average* annual earnings up to allowable Social Security Covered Compensation
Plus
1.5% of final average* annual earnings in excess of allowable Social Security Covered Compensation
Times
Years of credited service projected to age 65 (maximum of 35 years)
- (2) 1.5% of final average* annual earnings times years of credited service projected to age 65 in excess of 35 years, and
- (3) Ratio of years of credited service as of termination to years of credited service projected to age 65

*average is the highest consecutive 60 months of the last 120 months of eligible earnings

A participant's retirement benefit is increased by \$1.00 for each \$120 of unwithdrawn employee contributions accumulated with interest.

Plan participants hired before January 1, 1984 are eligible for early retirement on or after age 55. Plan participants hired after December 31, 1983 are eligible for early retirement following attainment of age 55 and 10 years of credited service. For early retirement, the benefit is the monthly accrued benefit, reduced by early retirement reduction factors outlined in the Plan.

The Plan provides for surviving spouse benefits in the case of the death of an active participant. In addition, the Plan offers retirees the option to elect joint and survivor annuity payment options to provide benefits to a surviving spouse or beneficiary of a retired participant.

The following provisions of the Plan apply to bargained employees of FMC Technologies Measurement Solutions, Inc. (formerly Smith Meter, Inc.):

The normal retirement age is the earlier of age 62 with 10 years of vesting service or age 65. A participant who terminates employment prior to completing vesting service of 5 years is not eligible to receive a pension under the Plan. The normal monthly benefit amount is \$42.00 times the years of service. Participants are entitled to early retirement following attainment of age 57 and 10 years of credited service. For early retirement, the benefit is the monthly accrued benefit, reduced by early retirement reduction factors outlined in the Plan. Certain union participants are eligible for disability retirement benefits upon becoming permanently and totally disabled after completing 10 years of credited service. The Plan provides for surviving spouse benefits in the case of the death of an active participant. In addition, the Plan offers retirees the option to elect joint and survivor annuity payment options to provide benefits to a surviving spouse or beneficiary of a retired participant.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investments, Valuation and Income Recognition

The Plan's financial statements and supplemental schedules include unaudited information prepared by the Trustee. The Plan has obtained certifications from the Trustee that such information is complete and accurate. Investments are stated at fair value. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the related gains and losses on investments bought and sold during the year, and the unrealized gains and losses on investments held during the year. Dividends are recorded on the record date. Interest income is recorded on the accrual basis.

Administrative Expenses

All permitted administrative expenses are paid from the Plan unless the Company, at its discretion, pays such expenses. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded when paid.

Subsequent Events

The management of the Plan has evaluated subsequent events that have occurred after December 31, 2018, and through October 4, 2019, the date the financial statements were available to be issued.

Recently Issued Accounting Standards

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) No. 2018-13, *“Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement.”* This update modifies the disclosure requirement on fair value measurements in Topic 820. The amendments in this ASU are effective for us January 1, 2020. Early adoption is permitted. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively. All other amendments should be applied retrospectively. We are currently evaluating the impact of this ASU.

NOTE 3. FUNDING POLICY

The Company contributes to the Plan such sums as are actuarially determined to be necessary to provide defined pension benefits to participants, maintain certain acceptable funding levels, and ensure that all contributions are deductible for federal income tax purposes.

The Company’s contributions are designed to satisfy the minimum funding requirements under ERISA and the Pension Protection Act of 2006, as amended. In addition, the Company may decide to make contributions above the minimum funding requirements. The determination of required contributions to be made by the Company during 2018 and 2017 was based upon actuarial valuations as of January 1 of each year. There was no minimum required contribution for 2018 or 2017 under ERISA.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. See Note 4 to these financial statements for additional disclosure related to plan termination.

NOTE 4. PLAN TERMINATION

Although the Company has not expressed any intention to do so, in the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and

the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the services employees have rendered.

Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2018, were as follows:

- a. Interest rate used to compute the present value of accrued benefits was 9.00%.
- b. The assumed average retirement age was 64.
- c. Eighty percent of all male participants and sixty percent of all female participants were assumed to be married in 2018.
- d. Life expectancy rate: RP-2014 Employee and Annuitant Table for males and females projected with generational improvement at scale MP-2014 adjusted to reflect 0% long-term rate of improvement, with a convergence period between initial and long term rate of improvement of 2008-2027 were used.
- e. The actuarial method used to determine the accumulated plan benefits is the Unit Credit method.

The foregoing actuarial assumptions are based on the presumption of the continuation of the Plan. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of January 1, 2018 (the most recent valuation date), consisted of the following:

	January 1, 2018
Vested benefits:	
Participants currently receiving payments	\$ 242,510,327
Other participants	104,726,754
	347,237,081

NOTE 6. INCOME TAXES

The Plan obtained its latest determination letter on July 8, 2014, in which the Internal Revenue Service (“IRS”) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code of 1986, as amended (“Code”). Additional amendments to the Plan have been made and are not covered by the determination letter; however, the Plan administrator and the Plan’s legal counsel believe that the Plan, as amended, is designed and is currently administered in compliance with the applicable requirements of the Code.

GAAP requires the management of the Plan administrator to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The management of the Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there were no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has not recognized interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits for any tax periods in progress related to the Plan.

NOTE 7. FAIR VALUE OF ASSETS

Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the reporting date. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- *Level 1:* Unadjusted quoted prices in active markets for identical assets and liabilities.
- *Level 2:* Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- *Level 3:* Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques applied maximized the use of observable inputs and minimized the use of non-observable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Common and Preferred Stock:* Valued at the closing price reported on the active market on which the securities are traded.
 - *Common/Collective Trusts:* The Plan uses the practical expedient election for the fair value of these investments as the investments are valued at the net asset value of shares held by the Plan at year end. All of the investments in common collective trust funds represent exchange-traded securities with readily observable prices. Common/collective trusts primarily consisted of investments in money market instruments with short maturities.
 - *Registered Investment Companies:* Valued at quoted market prices, which represent the net asset value of the securities held in such funds at year end. Registered investment companies primarily consisted of investments in emerging market bonds at December 31, 2018, as well as investments in international equities and emerging market bonds at December 31, 2017.
 - *Hedge Funds:* The Plan uses the practical expedient election for the fair value of these investments as the investments are valued at the net asset value of shares held by the Plan at year end. All of the investments in hedge funds represent exchange-traded securities with readily observable prices. There are six investment managers consisting of eight hedge funds.
- † Arcus Japan Value Fund has a 45-day notice period with no redemption frequency restrictions. The fund invests primarily in publicly traded equity securities and debt obligations.
- † Argos Argonaut Fund has a 20-day notice period with no redemption frequency restrictions. The fund invests primarily in publicly traded equity securities and debt obligations.

- † Kingstown Partners Offshore Ltd fund has a graduated redemption period over 10 sequential quarters with a 90-day notice period. The hedge fund's investment objective is to deliver superior risk adjusted returns by employing a value-oriented, event-driven strategy. The fund invests across the capital structure in debt and equity investments.
- † SFP Value Realization Fund has a quarterly redemption frequency with a 90-day notice period. The fund invests primarily in publicly traded equity securities and debt obligations.
- † Simcoe Partners Offshore Ltd fund has a quarterly redemption frequency with a 30-day notice period. The fund invests primarily in publicly traded equity securities and debt obligations.
- † Van Biema Value Ltd fund has an annual redemption frequency with a 120-day notice period. The fund invests in approximately 10 to 20 funds that employ a range of value-oriented investment philosophies. The investment strategy of this fund centers on long-term returns with a strong focus on capital preservation.
- † Van Biema Asia Value Ltd, consisting of three funds, has an annual redemption frequency on the calendar year end with a 120-day notice period. The funds invest in approximately 10 to 20 funds that employ a range of value-oriented investment philosophies. The investment strategy of this fund centers on long-term returns with a strong focus on capital preservation.
- *Limited Partnerships:* The Plan uses the practical expedient election for the fair value of these investments as the investments are valued at the net asset value of shares held by the Plan at year end. All of the investments in limited partnerships represent exchange-traded securities with readily observable prices. There are five limited partnerships.
 - † Acacia Capital, LP has a quarterly redemption frequency with a 30-day notice period. This partnership seeks high long-term returns following a value-oriented investment approach. The partnership may invest in a variety of securities, including U.S. and international equities, debt securities and preferred stocks.
 - † MFP Partners, LP has a quarterly redemption frequency with a 60-day notice period. This partnership seeks high long-term returns following a value-oriented investment approach. The partnership may invest in a variety of securities, including U.S. and international equities, debt securities and preferred stocks.
 - † Van Biema Global Value Fund, LP has an annual redemption frequency on the calendar year end with a 120-day notice period. The fund invests in approximately 10 to 20 funds that employ a range of value-oriented investment philosophies. The investment strategy of this fund centers on long-term returns with a strong focus on capital preservation.
 - † vB Select Pan-Asia Fund I, LP has a quarterly redemption frequency with a 60-day notice period. This partnership seeks to achieve its investment objective by purchasing, holding, selling and trading, currencies and financial instruments including U.S. or non-U.S. securities. The investment strategy of this fund is to achieve long-term capital appreciation on an absolute return basis while limiting down-side risk and volatility.
 - † VV Capital Partners, LP has a two year rolling redemption frequency with a 60-day notice period. This partnership seeks high long-term returns following a value-oriented investment

approach. The partnership may invest in a variety of securities, including U.S. and international equities, debt securities and preferred stocks.

- *Other*: Valued at quoted market prices, which represent the net asset value of the securities held in such funds at year end. This category primarily consists of real estate investment trusts and other investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Assets measured at fair value are as follows:

⁽¹⁾ Certain investments that are measured at fair value using net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9. PARTY-IN-INTEREST TRANSACTIONS

All transactions with the Company, Trustee, the Plan's benefit administrator, service providers or participants are considered party-in-interest transactions. Certain Plan assets are invested in funds managed by the Trustee and Grantham, Mayo, Van Otterloo & Co. LLC ("GMO") (an investment advisor of the Plan); therefore, these transactions qualify as party-in-interest transactions. Expenses for accounting, administrative and investment services are charged to the Plan and totaled \$5.8 million and \$6.6 million in 2018 and 2017, respectively.

Methods

Valuation date

First day of plan year

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable discounted using the effective interest rate for the 2017 plan year.

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with TechnipFMC regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with TechnipFMC and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2018. Information on assets was supplied by Northern Trust. Information on contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made where data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. The following assumptions were made for missing or apparently inconsistent data elements:

For newly terminated vested participants where the plan administrator had not yet determined the age 65 accrued benefit reflecting final pay and service information at the time of termination, the accrued benefits were estimated by using historical pay and service received for valuation purposes.

For participants currently receiving a Joint & Survivor annuity, but missing beneficiary's date of birth, their beneficiary's date of birth was determined assuming the wife to be three years younger than husband.

For participants currently receiving a Joint & Survivor annuity, but missing beneficiary's gender, their beneficiary's gender was determined assuming the beneficiary to be female if the participant is male and vice versa for a female participant.

For a group of 16 rehires where the accrued benefit for service related to prior employment was not yet determined by the plan administrator, the age 65 accrued benefit was estimated by using the average accrued benefit for similarly situated participants.

For a group of 3 new participants with missing benefits, the age 65 accrued benefit was estimated by using the average accrued benefit for similarly situated participants.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Rates of increase in compensation Assumed increases were chosen by the plan sponsor and represent an estimate of future experience.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h) and selected by the plan sponsor. Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.

Disabled Mortality Assumptions used for funding purposes are as prescribed by IRC §430(h) and selected by the plan sponsor. Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.

Termination Assumption was set based on historical demographic experience. This is consistent with December 31, 2013 approach with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Disability Assumption was set based on historical demographic experience. This is consistent with December 31, 2013 approach with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Retirement Assumption was set based on historical demographic experience. This is consistent with December 31, 2013 approach with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

SCHEDULE SB ATTACHMENTS

Benefit commencement date for deferred benefits Deferred vested participants are assumed to begin benefits based on rates applied to a number of commencement ages based on an analysis of actual commencement patterns and subsidized early retirement factors for terminated vested participants.

Form of payment The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on historical experience with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Marital Assumptions:

Percent married The assumed percentage married is based on the percentage married in the active population.

Spouse age The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.

The assumed plan-related expenses added to the target normal cost were changed from \$5,019,000 to \$5,348,000.

Change in methods since prior valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on April 4, 2018 with an effective date of January 1, 2018.

Covered employees All salaried employees, non-union hourly employees paid on a salaried basis, or union hourly employees covered by a Collective Bargaining Agreement that specifically provides for plan participation and were vested as of January 1, 2010. Any employee hired after 2009 is excluded from coverage. Benefit accruals for all salaried participants were frozen as of December 31, 2017.

Participation date Covered employees enter the plan upon attainment of 1,000 hours of service within one year of their hire date.

Definitions

Vesting service Elapsed time from date of hire to the nearest month.

Pension service Elapsed time from date of plan participation to December 31, 2017. Note, service subsequent to December 31, 2017 is reflected for determining early retirement eligibility.

Pensionable pay The amount paid in cash to a Participant for a Plan Year, excluding severance pay, certain incentive payments, taxable fringe benefits and other items specifically excluded.

Average earnings The average of the highest five consecutive calendar years of pensionable pay during the ten-year period ending on December 31, 2017.

Normal retirement date (NRD) Age 65

Plan Name: FMC Technologies, Inc. Employees' Retirement Program

Monthly pension benefit

Salaried / Non-Union

One-twelfth of the sum of (a) and (b) multiplied by (c) but not less than the frozen FMC plan benefit as of December 31, 1990:

- a) 1% of final average earnings up to covered compensation plus 1.5% of final average earnings in excess of covered compensation, times pension service projected to age 65 up to a maximum of 35 years.
- b) 1.5% of final average earnings times pension service projected to age 65 in excess of 35 years.
- c) The ratio of actual pension service to expected years of pension service at age 65.

Union hourly – Smith Meter

One-twelfth of the greater of (a) or (b):

- a) Frozen benefit determined under the prior pay-related formula, if applicable.
- b) A dollar multiplier times pension service: Smith Meter – \$42 per month per year of pension service (starting January 1, 2018).

Monthly preretirement death benefit

50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.
