Transition employees will receive credit for years of service credited under the predecessor plan.

1. Description of Plan (continued)

401k Contributions and Vesting for all but New York Post Union Employees

Each year, Plan participants are entitled to contribute, subject to certain Internal Revenue Service (IRS) regulations, pretax contributions from 1% to a maximum of 70% of their compensation, as defined. The Plan also permits catch-up contributions up to the IRS maximum ($6,000 in 2018).

The Plan adopted a Safe Harbor compliant structure. The employer matching contribution on eligible employee deferrals is 100% of the first 1%, plus 50% of the next 5% of eligible compensation contributed. The Company also makes a 2% non-elective contribution of eligible compensation for all participants, except those Harper Collins employees receiving a RAP contribution. Certain grandfathered Dow Jones employees receive a non-elective contribution up to 4% based on date of hire.

HarperCollins RAP participants receive an employer non-elective contribution which is calculated annually. The calculation of the employer non-elective contribution is based on an employee's years of service and age. In order to receive the employer discretionary contribution, a participant must be (i) an employee on the last payroll date of the Plan year, (ii) deceased during the Plan year, (iii) retired on or after normal retirement age during the Plan year, (iv) retired on or after early retirement age during the Plan year, or (v) determined to have a disability during the Plan year.

Participants' voluntary contributions and actual earnings thereon become vested immediately. Participants' interest in the employer matching contribution shall follow a two-year cliff vesting. Participants' interest in the employer non-elective contribution shall follow a two-year cliff vesting, except RAP non-elective contributions which follow a three-year cliff vesting.

401k Contributions and Vesting for New York Post Union Employees

Each year, Plan participants are entitled to contribute, subject to certain IRS regulations, pretax contributions from 1% to a maximum of 70% of their compensation, as defined. The Plan also permits catch-up contributions up to the IRS maximum ($6,000 in 2018).

The Company contributes a profit-sharing contribution to each eligible employee's account based on each specific participating union's bargaining agreement. Some of the unions are based on an amount per shift up to a maximum per week and per year. Other unions use a percentage of eligible pay up to an annual maximum. These contributions are independent of the employee's deferral election and are immediately vested, along with the earnings thereon.

1. Description of Plan (continued)

Participant Accounts

A separate account is maintained by the trustee for each participant to record his or her pretax and the employer's matching contribution and Plan earnings.

Forfeitures

Forfeitures (normally unvested interests of terminated participants' matching contribution accounts) are used to reduce future matching contributions or to pay administrative expenses. Forfeitures used during the year ended December 31, 2018 totaled approximately $763,000 and $343,000 for reduction of employer matching contributions and payment of administrative expenses, respectively. The total unallocated forfeitures amount in the Plan at December 31, 2018 and 2017 totaled approximately $409,000 and $381,000, respectively.

Notes Receivable from Participants

Participants may borrow from the Plan a minimum of $1,000 and a maximum amount not to exceed the lesser of $50,000 or 50% of the participant's vested account balance, except for transferred assets from the RAP. The loans are payable over a period not to exceed five years or, if the proceeds are used to purchase the participant's principal residence, the fixed rate loans are payable over a period not to exceed 20 years, and bear interest at prime plus 1%. The loans are secured by the pledge of the participant's interest in the Plan.

At December 31, 2018, interest rates ranged from 4.25% to 9.50%, with various maturities through December 2037. Participants are required to repay outstanding loan balances when they leave the Company, or the loan balances will be treated as taxable distributions to the participants. Participants may prepay their loans at any time without penalty.

Payment of Benefits

Plan participants or beneficiaries are eligible to receive a benefit payment equal to their vested account balance upon termination of employment, retirement, death or permanent disability, as stipulated in the Plan document. Such benefits shall be made in a lump-sum payment, a qualified rollover to an IRA or another employer's tax qualified retirement plan or an installment payment

1. Description of Plan (continued)

for retirees, subject to certain restrictions as defined in the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administrative Expenses

Recordkeeping fees and loan setup fees of the Plan were charged to the participants' accounts. All other administrative fees were paid by the Company.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in 1% increments among various investment options offered by the Plan. Additionally, participants may redirect their investment balances among these various investment options.

Plan Termination

Although it has not expressed any intent to do so, the Company may terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event of Plan termination, the accounts of all participants affected shall become fully vested and non-forfeitable. Assets remaining in the trust fund will be distributed to the participants and beneficiaries in proportion to their respective account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans are measured at unpaid principal balance, plus accrued but unpaid interest.

Plan's Participation in the Master Trust

The assets of the Plan are commingled for investment purposes in the Master Trust with the assets of the Move 401(k) Plan as of December 31, 2018 and 2017.

Under the terms of the Master Trust agreement, participating plans do not have a right or title to any specific assets of the Master Trust, but the plans have an undivided beneficial interest (i.e., accumulated share) in the Master Trust. Additionally, Fidelity determines the current value of the entire Master Trust and the accumulated share of each of the plans in such manner as Fidelity in its reasonable discretion shall prescribe, but in accordance with a method consistently applied. Ownership is represented by a record of proportionate dollar interest.

The fair value of each plan's initial contribution to the Master Trust, as applicable, represented each plan's respective accumulated share at the date the Master Trust was created. The Plan's interest in the net assets and investment income of the Master Trust as of December 31, 2018 and 2017 and for the year ended December 31, 2018, as reflected in the financial statements, was determined based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Participants should refer to the Master Trust agreement for more complete information.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments

The Plan's investment in the Master Trust is stated at fair value and contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 5).

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820), the Master Trust classified its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value (see Note 9). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Company assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting.

Following is a description of the valuation methodologies used for assets measured at fair value by the Master Trust at December 31, 2018 and 2017:

Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

The short-term investment fund is valued at cost plus interest earned, which approximates fair value.

2. Summary of Significant Accounting Policies (continued)

Self-directed brokerage accounts primarily consist of mutual funds, common stocks, interest bearing cash, and corporate obligations. Mutual funds are valued at the NAV of shares held by the Plan and common stock is valued at the closing price and both are reported on active markets on which the individual securities are traded. Interest bearing cash is valued at cost plus interest earned, which approximates fair value. Corporate obligations are valued using pricing models maximizing the use of observable inputs for similar securities, which include basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Units held in collective trusts are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported by the issuer. There are no redemption restrictions or unfunded commitments on the collective trusts held by the Master Trust.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Master Trust's gains and losses on investments bought and sold, as well as held, during the year.

Recent Accounting Pronouncement

In February 2017, the FASB issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting,* (ASU 2017-06). ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 31, 2018, with retrospective application to all periods presented.

2. Summary of Significant Accounting Policies (continued)

Early application is permitted. Management is currently determining the effect of adopting ASU 2017-06.

In July 2018, the FASB issued ASU 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be considered eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value per share practical expedient in accordance with ASC820. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments. The amended guidance is effective for the Plan for annual periods beginning after December 15, 2019, with early application permitted. The Plan has adopted ASU 2018-09.

Reclassification of Prior Year Presentation

Certain prior year reclassifications have been made for consistency with the current year's presentation.

3. Information Certified by the Trustee

Certain investment information disclosed in the accompanying financial statements and supplemental schedule was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity. Such information includes the Plan's interest in the Master Trust and the net assets available to participating plans of the Master Trust at December 31, 2018 and 2017, notes receivable from participants at December 31, 2018 and 2017, net investment loss from the Master Trust and interest income on notes receivable from participants for the year ended December 31, 2018.

4. Risks and Uncertainties

The Master Trust's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Master Trust's concentration of credit risk and market risk is dictated by the Plan's provisions, as well as those of ERISA and the participants' investment preferences.

4. Risks and Uncertainties (continued)

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the financial statements.

5. Contracts with Insurance Companies and Banks

Following is a description of contracts with insurance companies and banks under the Master Trust at contract value at December 31, 2018 and 2017:

The Master Trust contains a fund (the News Corp Stable Value Fund) which was invested in synthetic guaranteed investment contracts (GICs) as of December 31, 2017, which were fully benefit-responsive investment contracts (FBRICs) with various banks and an insurance company and a short-term liquidity fund, which were managed by Fidelity. Participants were able to direct the withdrawal or transfer of all or a portion of their investment at contract value. A synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio of high-quality, intermediate term fixed income securities. The Master Trust purchased a wrapper contract from a financial services institution with the intent of maintaining a stable contract value. Synthetic GICs provide for a variable crediting rate and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. There were no contract value reserves established for credit risk of the contract issuers or otherwise as of December 31, 2018 and 2017. The contract value of the Master Trust's investment in synthetic GICs was approximately $0 and $34,641,000 as of December 31, 2018 and 2017, respectively. The crediting interest rate was based on a formula agreed upon with the issuers. Such rates were reviewed on a quarterly basis for resetting.

As part of the merger of the Harlequin 401(k) Plan into the Plan effective January 1, 2016, the Master Trust entered into a FBRIC (Harlequin Guaranteed Portfolio) with Great-West Life & Annuity Insurance Co. of New York (GWL&A). Effective January 31, 2017, assets remaining in the Harlequin Guaranteed Portfolio were transferred into the News Corp Stable Value fund, see Note 8 (guaranteed investment contracts).

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

5. Contracts with Insurance Companies and Banks (continued)

There are certain events not initiated by participants that limit the ability of the Master Trust to transact at contract value with the issuer of the FBRICs at its contract value. Examples of such events include the following: the Master Trust's failure to qualify under Section 401(a) or 401(k) of the Code; the establishment of a defined contribution plan that competes with the Master Trust for employee contributions; any substantive modification of the Master Trust or the administration of the Master Trust to which the contract issuer has not consented; complete or partial termination of the Master Trust; any change in law, regulation, or administrative ruling applicable to the Master Trust that could have a material adverse effect on cash flow; merger or consolidation of the Master Trust with another master trust, the transfer of Master Trust assets to another master trust, or the sale, spin-off, or merger of a subsidiary or division of the Plan Sponsor; any communication given to participants by the Plan Sponsor or any other fiduciary that is designed to induce or influence participants not to invest or to transfer assets; exclusion of a group of previously eligible employees from eligibility in the Master Trust; any early retirement program, group termination, group layoff, facility closing, or similar program; or any transfer of assets to a competing option.

The Plan Sponsor does not believe that the occurrence of any of the aforementioned events, which would limit the Master Trust's ability to transact with the issuer of the FBRICs at contract value with participants, is probable.

Contract issuers may terminate a contract at any time; if, however, the market value of covered assets is below contract value at the time of such termination, the Master Trust manager may elect to keep the contract in place until such time as the fair value of covered assets is equal to contract value. An issuer may also terminate a contract if the Master Trust manager's investment management authority over a fund is limited or terminated, as well as if all of the terms of the contract fail to be met. In the event that the fair value of covered assets is below contract value at the time of such termination, the issuer would not be required to make payment.

6. Transactions with Parties-in-Interest

The Master Trust's investments in mutual funds managed by the trustee and loans are considered to be party-in-interest transactions. These investments amounted to approximately $1,156,633,669 and $1,193,919,000 as of December 31, 2018 and 2017, respectively. Fees paid by the Plan Sponsor for the year ended December 31, 2018 were not significant.

7. Tax Status

The Plan received a determination letter from the IRS, stating that the Plan is qualified under Section 401(a) of the Code, dated July 11, 2017. Subsequent to the receipt of the determination letter, the Plan was amended. The Plan administrator believes that the Plan has been designed to comply with and is operating in accordance with the applicable requirements of the Code and therefore, believes the Plan, as amended, is qualified and the related trust is tax exempt.

GAAP requires the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Master Trust

As of December 31, 2018 and 2017, the Plan held 95.9% and 96.2% of the interest in the net assets of the Master Trust, respectively.
