PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1: Description of Plan

The following description of the Pinnacle Medical Group, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that was adopted by Pinnacle Medical Group, Inc. (the “Company”), effective January 1, 2003, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code of 1986 (“IRC”), as amended. The purpose of the Plan is to provide retirement benefits for all employees who have completed one year of service and are age 21 or older.

Contributions

Participants may elect to contribute up to the maximum deferral limitation as defined in the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching and profit-sharing contributions. During 2018, the Company elected to contribute a safe harbor profit-sharing contribution of 3 percent of compensation for all eligible participants. An employer safe harbor profit-sharing contribution of \$253,645 was remitted to the Plan in August 2019 and is accordingly reported as a contribution receivable in the accompanying statements of net assets available for benefits. The Company did not make a discretionary matching contribution in 2018.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s discretionary matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. The allocation of the Company’s discretionary profit-sharing contributions is based on participant compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions as well as the Company’s safe harbor contributions, plus actual earnings thereon. Vesting in the Company’s nonsafe harbor contribution portion of the participants’ accounts, plus actual earnings thereon, is based on years of continuous service. A participant is vested at the rate of 20 percent each year and is 100 percent vested after five years of credited service.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1: Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of \$1,000 but cannot exceed the lesser of (a) one-half of the participant's nonforfeitable interest under the Plan or (b) \$50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can have a maximum of one note outstanding.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant with a vested value in the Plan of more than \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants choosing to defer their distribution after termination continue to participate in investment gains and losses. Terminated employees with a vested value in the Plan of \$5,000 or less receive benefits in an involuntary lump-sum distribution. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59½, participants are allowed to withdraw funds from their vested account balance.

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's contributions are used to reduce future employer's contributions. At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$609 and \$629, respectively. The Company did not use any forfeitures to reduce Company contributions in 2018.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to the administration of notes receivable from participants, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Investment Valuation and Income Recognition

The Plan’s investments in mutual funds, pooled separate accounts, money market funds, and variable annuity contracts are stated at fair value at December 31, 2018 and 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements. As further described in Note 11, fair values for the Plan’s pooled separate accounts and variable annuity contracts are measured using net asset value per share (“NAV”) as a practical expedient.

The Plan’s investment in the fixed-interest account is measured at contract value, which is the relevant measurement for fully benefit-responsive investment contracts. The terms of this traditional investment contract are further described in Note 5.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net depreciation in fair value by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The process of preparing financial statements in accordance with US GAAP requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by the Custodians

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments from participants held at December 31, 2018 and 2017, and net depreciation in fair value of registered investment companies and variable annuity contracts and interest and dividend income for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company ("Fidelity"), Voya Retirement Insurance and Annuity Company ("Voya"), and Jackson National Life Insurance Company ("Jackson"), the custodians of the Plan.

Note 5: Fully Benefit-Responsive Investment Contract

During 2018 and 2017, the Plan held a fixed-interest contract with Voya, which was considered to be a fully benefit-responsive investment contract ("FBRIC"). During 2018, the Plan changed custodians to Fidelity and discontinued the investment. The contract with Voya is considered to be a traditional investment contract. This contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on an annual basis for resetting in 2018 and 2017. The contract cannot be terminated before the scheduled maturity date.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 5: Fully Benefit-Responsive Investment Contract (Continued)

Participant-initiated benefit-responsive Plan withdrawals from the fixed-interest investment and transfers between the fixed-interest investment and the variable investment options, as allowed under the terms of the Plan, and the investment contract are performed at contract value. Transfers from the fixed-interest investment can be made once a quarter and cannot exceed 10 percent and 20 percent of a participant's share of the fixed-interest investment, as defined in FBRIC at December 31, 2018 and 2017, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

An issuer can terminate an investment contract upon the event of default by the contract holder, investment advisor, or custodian if the issuer determines in its reasonable discretion that such event has had, or is likely to have, a material adverse effect on the issuer's interest with respect to the contract. Voya can terminate an investment contract if the aggregate account value of all participant accounts under the contract falls below 25 percent of the aggregate account value at the same time in the previous contract year.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Withdrawn Participants

At December 31, 2018 and 2017, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 8: Tax Status

The Plan is based on the Prototype Non-standardized Profit Sharing Plan with CODA developed by 401Plans, the third-party administrator of the Plan, which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype plan was designed in accordance with the provisions of the IRC. The Plan has not yet filed for its own determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and it also believes that the Plan is qualified and the related trust is not subject to tax under present income tax law.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 8: Tax Status (Continued)

US GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and it has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Parties in Interest

The investments in mutual funds and the money market fund are managed by Fidelity, a custodian, as defined by the Plan, and therefore, these investments qualify as party-in-interest transactions. The investments in the variable annuity contracts are managed by Jackson, a custodian, as defined by the Plan, and therefore, these investments also qualify as party-in-interest transactions. Notes receivable from participants represent amounts due to the Plan by employees of the Plan sponsor and therefore qualify as party-in-interest transactions. The Plan also has a number of service providers. Such providers are parties in interest under ERISA.

Note 10: Fair Value Measurements

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 10: Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at its amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2018:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ 609	\$ -	\$ -	\$ 609
Mutual funds	<u>2,566,004</u>	<u>-</u>	<u>-</u>	<u>2,566,004</u>
Total Assets at Fair Value	<u>\$ 2,566,613</u>	<u>\$ -</u>	<u>\$ -</u>	2,566,613
Investments measured at NAV (a)				<u>2,157,903</u>
Total Investments at Fair Value				<u>\$ 4,724,516</u>

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 11: Net Asset Value per Share

The fair value of the Plan's pooled separate account investments and the variable annuity contracts is measured using NAV at December 31, 2018 and 2017. Each unit in a pooled separate account and variable annuity contract invests directly in a unit of the underlying investment. Unit values are calculated based on the observable net asset value of the underlying investment in the fund.

The following table at December 31, 2018, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Variable Annuity Contracts	<u>\$ 2,157,903</u>	None	Daily	See below**	None
Total	<u>\$ 2,157,903</u>				

The following table at December 31, 2017, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Pooled Separate Accounts	\$ 2,073,256	None	Daily	Frequent Trading*	None
Variable Annuity Contracts	<u>2,765,206</u>	None	Daily	See below**	None
Total	<u>\$ 4,838,462</u>				

* Frequent trading is defined as more than one purchase or sale of an underlying fund within a 60-day period or more than six purchases of sales within a 12-month period.

** Participants are allowed to transfer their investments in the variable annuities between investment options up to 15 times per year. Withdrawals from the annuity are subject to a withdrawal penalty if a withdrawal is requested within the first seven years of the contract, and the withdrawal penalty can range from 0 percent to 8.5 percent depending on the tenure of the contract. Participants can request withdrawals in amounts exceeding \$500 and limited to the greater of the guaranteed annual withdrawal amount as determined by the contract and the required minimum distribution as determined by the IRC.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 11: Net Asset Value per Share (Continued)

Variable annuity contracts have various investment strategies depending on the funds selected by the participant, but the majority of the annuity contracts are invested in the following three funds:

- 1) JNL/Mellon Capital Healthcare Sector Fund: This fund seeks total return through capital appreciation and dividend income by investing, under normal circumstances, at least 80 percent of its assets in stocks in the SMCI USA IMI Health Care Index in proportion to their market capitalization weighting in the SMCI USA IMI Health Care Index.
- 2) JNL/Mellon Capital S&P 500 Index Fund: This fund seeks to match the performance of the S&P 500 Index. This fund seeks to invest under normal circumstances at least 80 percent of its assets in the stocks in the S&P 500 Index in proportion to their market capitalization weighting in the S&P 500 Index in order to provide long-term capital growth.
- 3) JNL/Ivesco Global Real Estate Fund: This fund seeks high total return by investing, normally, at least 80 percent of its assets in securities of real estate and real estate-related companies, including real estate investment trusts, and in derivatives and other instruments that have economic characteristics similar to such securities. These companies will be located in at least three different countries, including the United States.

Note 12: Subsequent Events

The Plan has evaluated subsequent events through September 23, 2019, the date the financial statements were available to be issued.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1: Description of Plan

The following description of the Pinnacle Medical Group, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that was adopted by Pinnacle Medical Group, Inc. (the “Company”), effective January 1, 2003, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code of 1986 (“IRC”), as amended. The purpose of the Plan is to provide retirement benefits for all employees who have completed one year of service and are age 21 or older.

Contributions

Participants may elect to contribute up to the maximum deferral limitation as defined in the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching and profit-sharing contributions. During 2018, the Company elected to contribute a safe harbor profit-sharing contribution of 3 percent of compensation for all eligible participants. An employer safe harbor profit-sharing contribution of \$253,645 was remitted to the Plan in August 2019 and is accordingly reported as a contribution receivable in the accompanying statements of net assets available for benefits. The Company did not make a discretionary matching contribution in 2018.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s discretionary matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. The allocation of the Company’s discretionary profit-sharing contributions is based on participant compensation, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions as well as the Company’s safe harbor contributions, plus actual earnings thereon. Vesting in the Company’s nonsafe harbor contribution portion of the participants’ accounts, plus actual earnings thereon, is based on years of continuous service. A participant is vested at the rate of 20 percent each year and is 100 percent vested after five years of credited service.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 1: Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. The loan amount can be a minimum of \$1,000 but cannot exceed the lesser of (a) one-half of the participant's nonforfeitable interest under the Plan or (b) \$50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on prevailing interest rates. Principal and interest are paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can have a maximum of one note outstanding.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant with a vested value in the Plan of more than \$5,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants choosing to defer their distribution after termination continue to participate in investment gains and losses. Terminated employees with a vested value in the Plan of \$5,000 or less receive benefits in an involuntary lump-sum distribution. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59½, participants are allowed to withdraw funds from their vested account balance.

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's contributions are used to reduce future employer's contributions. At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$609 and \$629, respectively. The Company did not use any forfeitures to reduce Company contributions in 2018.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to the administration of notes receivable from participants, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair values of investments.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Investment Valuation and Income Recognition

The Plan’s investments in mutual funds, pooled separate accounts, money market funds, and variable annuity contracts are stated at fair value at December 31, 2018 and 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements. As further described in Note 11, fair values for the Plan’s pooled separate accounts and variable annuity contracts are measured using net asset value per share (“NAV”) as a practical expedient.

The Plan’s investment in the fixed-interest account is measured at contract value, which is the relevant measurement for fully benefit-responsive investment contracts. The terms of this traditional investment contract are further described in Note 5.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net depreciation in fair value by each major investment type.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The process of preparing financial statements in accordance with US GAAP requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by the Custodians

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments from participants held at December 31, 2018 and 2017, and net depreciation in fair value of registered investment companies and variable annuity contracts and interest and dividend income for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company ("Fidelity"), Voya Retirement Insurance and Annuity Company ("Voya"), and Jackson National Life Insurance Company ("Jackson"), the custodians of the Plan.

Note 5: Fully Benefit-Responsive Investment Contract

During 2018 and 2017, the Plan held a fixed-interest contract with Voya, which was considered to be a fully benefit-responsive investment contract ("FBRIC"). During 2018, the Plan changed custodians to Fidelity and discontinued the investment. The contract with Voya is considered to be a traditional investment contract. This contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent. The crediting rate is reviewed on an annual basis for resetting in 2018 and 2017. The contract cannot be terminated before the scheduled maturity date.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 5: Fully Benefit-Responsive Investment Contract (Continued)

Participant-initiated benefit-responsive Plan withdrawals from the fixed-interest investment and transfers between the fixed-interest investment and the variable investment options, as allowed under the terms of the Plan, and the investment contract are performed at contract value. Transfers from the fixed-interest investment can be made once a quarter and cannot exceed 10 percent and 20 percent of a participant's share of the fixed-interest investment, as defined in FBRIC at December 31, 2018 and 2017, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (c) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

An issuer can terminate an investment contract upon the event of default by the contract holder, investment advisor, or custodian if the issuer determines in its reasonable discretion that such event has had, or is likely to have, a material adverse effect on the issuer's interest with respect to the contract. Voya can terminate an investment contract if the aggregate account value of all participant accounts under the contract falls below 25 percent of the aggregate account value at the same time in the previous contract year.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Withdrawn Participants

At December 31, 2018 and 2017, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 8: Tax Status

The Plan is based on the Prototype Non-standardized Profit Sharing Plan with CODA developed by 401Plans, the third-party administrator of the Plan, which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype plan was designed in accordance with the provisions of the IRC. The Plan has not yet filed for its own determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and it also believes that the Plan is qualified and the related trust is not subject to tax under present income tax law.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 8: Tax Status (Continued)

US GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and it has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Parties in Interest

The investments in mutual funds and the money market fund are managed by Fidelity, a custodian, as defined by the Plan, and therefore, these investments qualify as party-in-interest transactions. The investments in the variable annuity contracts are managed by Jackson, a custodian, as defined by the Plan, and therefore, these investments also qualify as party-in-interest transactions. Notes receivable from participants represent amounts due to the Plan by employees of the Plan sponsor and therefore qualify as party-in-interest transactions. The Plan also has a number of service providers. Such providers are parties in interest under ERISA.

Note 10: Fair Value Measurements

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 10: Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund: Valued at its amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2018:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ 609	\$ -	\$ -	\$ 609
Mutual funds	<u>2,566,004</u>	<u>-</u>	<u>-</u>	<u>2,566,004</u>
Total Assets at Fair Value	<u>\$ 2,566,613</u>	<u>\$ -</u>	<u>\$ -</u>	2,566,613
Investments measured at NAV (a)				<u>2,157,903</u>
Total Investments at Fair Value				<u>\$ 4,724,516</u>

(a) In accordance with FASB ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

PINNACLE MEDICAL GROUP, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 11: Net Asset Value per Share

The fair value of the Plan's pooled separate account investments and the variable annuity contracts is measured using NAV at December 31, 2018 and 2017. Each unit in a pooled separate account and variable annuity contract invests directly in a unit of the underlying investment. Unit values are calculated based on the observable net asset value of the underlying investment in the fund.

The following table at December 31, 2018, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Variable Annuity Contracts	<u>\$ 2,157,903</u>	None	Daily	See below**	None
Total	<u>\$ 2,157,903</u>				

The following table at December 31, 2017, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Other Redemption Restrictions</u>	<u>Redemption Notice Period</u>
Pooled Separate Accounts	\$ 2,073,256	None	Daily	Frequent Trading*	None
Variable Annuity Contracts	<u>2,765,206</u>	None	Daily	See below**	None
Total	<u>\$ 4,838,462</u>				

* Frequent trading is defined as more than one purchase or sale of an underlying fund within a 60-day period or more than six purchases of sales within a 12-month period.

** Participants are allowed to transfer their investments in the variable annuities between investment options up to 15 times per year. Withdrawals from the annuity are subject to a withdrawal penalty if a withdrawal is requested within the first seven years of the contract, and the withdrawal penalty can range from 0 percent to 8.5 percent depending on the tenure of the contract. Participants can request withdrawals in amounts exceeding \$500 and limited to the greater of the guaranteed annual withdrawal amount as determined by the contract and the required minimum distribution as determined by the IRC.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

Note 11: Net Asset Value per Share (Continued)

Variable annuity contracts have various investment strategies depending on the funds selected by the participant, but the majority of the annuity contracts are invested in the following three funds:

- 1) JNL/Mellon Capital Healthcare Sector Fund: This fund seeks total return through capital appreciation and dividend income by investing, under normal circumstances, at least 80 percent of its assets in stocks in the SMCI USA IMI Health Care Index in proportion to their market capitalization weighting in the SMCI USA IMI Health Care Index.
- 2) JNL/Mellon Capital S&P 500 Index Fund: This fund seeks to match the performance of the S&P 500 Index. This fund seeks to invest under normal circumstances at least 80 percent of its assets in the stocks in the S&P 500 Index in proportion to their market capitalization weighting in the S&P 500 Index in order to provide long-term capital growth.
- 3) JNL/Ivesco Global Real Estate Fund: This fund seeks high total return by investing, normally, at least 80 percent of its assets in securities of real estate and real estate-related companies, including real estate investment trusts, and in derivatives and other instruments that have economic characteristics similar to such securities. These companies will be located in at least three different countries, including the United States.

Note 12: Subsequent Events

The Plan has evaluated subsequent events through September 23, 2019, the date the financial statements were available to be issued.
