401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

Note 1 – Description of Plan

The following description of the FCE Benefit Administrators, Inc. 401(k) Plan (the 'Plan') provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan and was established on January 1, 1994 for the benefit of all eligible employees of the Company. Employees can enroll into the Plan after completion of one year of service. Generally, the Plan covers all employees of the Company who are 21 or older except for employees who are:

- collective bargaining employees; or
- non-resident aliens with no earned income from the Company; or
- independent contractors.

The Company and the Plan trustees are responsible for administering the Plan.

b. Participant contributions

Participants may contribute up to $18,500 for the year ended December 31, 2018. Participants may also contribute up to 100% of their eligible compensation (subject to statutory limits). Participants who are age 50 and over may make an additional catch-up contribution of $6,000.

The Plan also permits Roth 401 (k) contributions into the Plan. Participants may also make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. All contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

c. Company's contributions

Each plan year, the Company may make a discretionary matching contribution equal to a uniform percentage of participant's salary deferrals. On an annual basis, the Company will determine the amount of the discretionary percentage regardless of participants' hours of work during the year. Also, a discretionary profit sharing contribution may be made by the Company. In order to share in the profit sharing contribution, participants are required to be employed on the last day of the Plan year. The Company may make a maximum 5% of qualified non-elective and qualified matching contributions with maximum to pass the nondiscrimination tests. For the year ended December 31, 2018, the Company did not make any contributions.

Note 1 – Description of Plan (continued)

d. Participant accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan to the extent that not paid by the Company. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Vesting on Participant's contribution accounts: Participants are always immediately vested in their accounts with respect to participant contributions (including catch-up and Roth contributions), eligible rollovers, and earnings thereon.

Vesting on the Company's contribution accounts: Effective May 9, 2015, participants' vest in the Company's matching and profit sharing contribution portion of their account and related earnings thereon based upon the following schedule:

Years of Employment	Vested Percentages
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Nevertheless, all participants' non-vested portions will become fully vested in the termination of the Plan or attainment of normal retirement age while an employee of the Company.

However, participants hired before May 9, 2015 are 100% vested in the Company's contribution portions.

f. Forfeited accounts

Forfeitures, if any, are applied to reduce administrative expenses of the Plan or may be used to reduce the Company's matching contribution. For the year ended December 31, 2018, forfeitures amount of $5,480 were used.

Note 1 – Description of Plan (continued)

g. Investment options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers eighty-one pre-selected pooled separate accounts. The Plan also maintains an unallocated contract as investment option for the existing participants. Participants may change their investment options and allocations on a quarterly basis.

h. Notes receivable from participants

Notes receivable from participants are not permitted per the Plan adoption agreement.

i. Payment of benefits

Upon separation from employment due to termination of employment, death, disability, retirement or attainment of the age of 65, the participant may receive their entire vested portion in a lump sum. A participant generally has two options concerning the account balance when a distribution is made:

- The participant may elect to roll-over the vested account balance to another qualified retirement plan or to an individual retirement account; or
- The participant may elect to have the vested account balance paid directly to him and income taxes will be withheld accordingly.

If the value of the vested account is less than $5,000 when the participant terminates his/her employment with the Company, the participant will receive a distribution of the entire vested portion of the account balance and the non-vested portion will be forfeited.

The Plan allows for hardship or in-service withdrawals but is subject to the approval of the Plan administrator.

Note 2 – Summary of Significant Accounting Policies

a. Basis of presentation

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles.

Note 2 – Summary of Significant Accounting Policies (continued)

b. Use of estimates

The preparation of the financial statements in conformity with U.S. generally accepted principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could materially differ from those estimates.

c. Recent Accounting Pronouncements

In February 2017, the FASB issued the new accounting guidance ASU No. 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (a consensus of the Emerging Issues Task Force), to improve the usefulness of the information reported to users of employee benefit plan financial statements and to provide clarity to preparers and auditors. ASU No. 2017-09 relates primarily to the reporting by a plan for its interest in a master trust. The amendments clarify presentation requirements for a plan's interest in a master trust and require more detailed disclosures of the plan's interest in the master trust. The amendments also eliminate a redundancy relating to 401 (h) account disclosures. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. An entity should apply the amendments in this ASU retrospectively to each period for which financial statements are presented. This pronouncement is not applicable to this Plan.

In August 2018, the FASB issued ASU 2018-13, Faire Value Measurement (Topic 820), Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement to modify the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the Concept Statement, Conceptual Framework for Financial Reporting – Chapter 8: Notes to Financial Statements. Nonpublic business entities should apply the amendments for fiscal years beginning after December 15, 2019. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. Early adoption is permitted and the entity is permitted to early adopt any removed or modified disclosures upon issuance of this update and delay adoption of the additional disclosures until their effective date. Management is currently evaluating the impact the amendments in this ASU will have on the financial statements.

Note 2 – Summary of Significant Accounting Policies (continued)

d. Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

e. Risks and uncertainties

The Plan provides various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the financial statements.

f. Participant distributions

Benefits paid to participants are recorded when paid.

g. Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

h. Date of management's review

The Plan has evaluated subsequent events through October 7, 2019, the date at which the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

The Pooled Separate Accounts ("PSA") are investments represented by a unit of account whose per unit value is the result of the accumulated values of the underlying investments. The underlying investments are public investment vehicles valued using the net asset value (NAV). The NAV is based upon the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The plan has concluded that the NAVs reported by investment companies approximate the fair value of the investments. There are currently no redemption restrictions or unfunded commitments on those investments.

Note 3 – Fair Value Measurements (continued)

The following table lists the fair value of investment assets as of December 31, 2018 and 2017 (as corrected to properly value the pooled separate accounts using a practical expedient under ASU 2015-07):

	2018	2017
Pooled separate accounts measured at net asset value	$ 3,028,833	$ 3,168,204
Investments at fair value	$ 3,028,833	$ 3,168,204

Note 4 – Group Annuity Contract with Insurance Company

In 2016, the Plans entered into a traditional fully benefit-responsive guaranteed investment contract with Transamerica Financial Life Insurance Company, which maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer and is set on a semi-annual basis. There is no stated minimum or maximum interest rate for the contract. For the year ended December 31, 2018 and 2017, the crediting interest rate for the guaranteed investment contract was 0.70% and 0.70%, respectively.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory development.

Note 4 – Group Annuity Contract with Insurance Company (continued)

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

Note 5 – Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the trustee:

	2018	2017
Statement of net assets available for benefits:		
Pooled separated accounts	$ 3,028,833	$ 3,168,204
Unallocated general account	0	559

	2018	2017
Statement of changes in net assets available for benefits:		
Investment income / (loss)	$ (113,963)	$ 315,139

Note 6 – Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Transamerica Financial Life Insurance Company. Transamerica Financial Life Insurance Company is the trustee and recordkeeper for the Plan, and, therefore, these transactions qualify as party in interest transactions.

The Company pays directly for other expenses related to the Plan's operation.

For the Plan year 2018, the Company has not remitted certain participant contributions to the Trustee in a timely manner based on when the participant contributions were withheld from participant paychecks as required under Department of Labor Regulations Section 2510.3-102. The Company is in the process of remitting the lost earnings to the Trustee and paying resulting penalty and tax due to the late remittances of participant contributions. In addition, participants accounts will be credited with amount of investment income that would have been carried had the participant contributions be remitted on a timely basis.

Note 7 – Plan Termination

At the date of the report, the Company has no intention to terminate the Plan but it reserves the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

Note 8 – Income Tax Status

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan was amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.
